Reform And Reaction In Post Mao China The Road Through Tiananmen:

Reform and Reaction in Post-Mao China Richard Baum, 2018-09-18 The decade of the 1980s began in China with great expectations of the societal benefits of modernisation and ended with gunfire in Tiananmen Square This book first published in 1991 presents essays that explore the political and economic reform policies that emerged in post Mao China under Deng Xiaoping In general they conclude that the advent of partial marketization and structural reform tended to magnify structural contradictions rather than solve them **The Paradox of China's Post-Mao Reforms** Merle Goldman, Roderick

MacFarquhar, 1999 China's bold program of reforms launched in the late 1970s the move to a market economy and the opening to the outside world ended the political chaos and economic stagnation of the Cultural Revolution and sparked China's unprecedented economic boom Yet while the reforms made possible a rising standard of living for the majority of China's population they came at the cost of a weakening central government increasing inequalities and fragmenting society The essays of Barry Naughton Joseph Fewsmith Paul H B Godwin Murray Scot Tanner Lianjiang Li and Kevin J O'Brien Tianjian Shi Martin King Whyte Thomas P Bernstein Dorothy J Solinger David S G Goodman Kristen Parris Merle Goldman Elizabeth J Perry and Richard Baum and Alexei Shevchenko analyze the contradictory impact of China's economic reforms on its political system and social structure They explore the changing patterns of the relationship between state and society that may have more profound significance for China than all the revolutionary movements that have convulsed it through most of the twentieth century **Chinese Propaganda Posters: From Revolution to Modernization** Stefan Landsberger, 2020-11-25

Brightly coloured prints portraying model behaviour or a better future have been a ubiquitous element of Chinese political culture from Imperial times until present As economic reform swept the People's Republic in the 1980s visual propaganda ceased to depict the tanned and muscular labourers in a proletarian utopia so typical of preceding decades Instead Western icons of progress and development were employed high speed bullet trains spacecraft high rise buildings gridlocked free ways and projections of general affluence Socialist Realism was phased out by design and mixed media techniques that were influenced by Western advertising This lavishly illustrated study traces the development of the style and content of the Chinese propaganda poster in the decade of reform from its traditional origins to its use as a tool for political and economic purposes *Modern Chinese Writers* Helmut Martin, Jeffrey C. Kinkley, 2016-09-16 This volume gathers personal reflections

on life and literature by 44 of China's leading authors It aims to illustrate how Chinese society and its creative writing have supported competed and fought with each other for the past 40 years and more Much of what is revealed here is mundane but the pressure of bringing art to social and political causes indeed the universal pressure to survive forges this collection into a very human document The strengths and weaknesses of these essays offer a window on those of modern Chinese literature itself Realism was the favoured literary doctrine of the day and reflecting this most of these essays speak for themselves about war revolution betrayal and commitment **Politics in China Since 1949** Robert Weatherley, 2007-01-24

Since the victory of the 1949 revolution the incumbency of the Chinese Communist Party has been characterized by an almost relentless struggle to legitimize its monopoly on political power During the Mao era attempts to derive legitimacy focused primarily on mass participation in political affairs a blend of Marxist and nationalist ideology and the charismatic authority of Mao Zedong The dramatic failure of the Cultural Revolution forced the post Mao leadership to discard these discredited paradigms of legitimacy and move towards an almost exclusively performance based concept founded on market economic reform The reforms during the 1980s generated a number of unwelcome but inevitable side effects such as official corruption high unemployment and significant socio economic inequality These factors culminated ultimately in the 1989 demonstrations in Tiananmen Square and throughout China Since Tiananmen the party has sought to diversify the basis of its legitimacy by adhering more closely to constitutional procedures in decision making and to a certain extent by reinventing itself as a conservative nationalist party This probing study of post communist revolution Chinese politics sets out to discover if there is a plausible alternative to the electoral mode or if legitimacy is the exclusive domain of the multi party system

Restructuring Political Power in China An Chen,1999 Chen argues that to prevent party cadre opposition to market restructuring the nemesis of change in other communist states national leaders manipulated legislative channels and party regulations to allow citizen participation in the implementation of reform programs Opportunistic realignments at the political level involving the central leadership local party cadres and ordinary citizens brought people power into the policymaking process That power suggests Chen may also presage China s constitutional evolution toward a democratic form of government BOOK JACKET Ideology and Economic Reform Under Deng Xiaoping 1978-1993 Wei-Wei

Zhang,2013-02-01 First published in 1996 Is ideology still relevant in post Mao China Deng Xiaoping s wide ranging economic reforms have led to declarations that ideology in China is merely a cynical sham or already dead but a closer look at China seems to suggest a constant conflict of different ideologies associated with the profound transformation of the Chinese society since 1978 This study is an attempt to explore the interactions between major ideological currents and economic reforms *Ideology and Economic Reform Under Deng Xiaoping, 1978-1993* Wei-Wei Zhang,1996 First Published

in 1996 Routledge is an imprint of Taylor Francis an informa company Unstately Power Lynn T. White, III,2017-09-04 A critique of America s flawed Asia policy that centres on US Japan relations but harkens back to the same disastrous views that drew America into Vietnam The technique is a narrative flow of short vignettes woven into longer chapters the main strands are personal reflections and interviews **China's Transition from Socialism** Dorothy J. Solinger,1993 The essays

in this volume address the industrial commercial urban and regional reforms of China s planned economy during the 1980s The emphasis is on the dominating institutional and bureaucratic presence of the state even as it sought to loosen the pre 1979 vertically structured centralised command system and to introduce some market principles to stimulate economic activity The essays fall into four categories theoretical and policy discussions and debates at the central leadership level

reform of the urban economy and of inter regional relations industrial and commercial reforms and the rise and position of the new entrepreneurial class Many of the essays draw on interviews with Chinese economic officials in the Central China city of Wuhan and therefore this is the only study that uses local data on actual operations of reforms from a Chinese city the other sources are the Chinese press and Chinese official and scholarly journals In each of the categories there are pieces from different points in the chronological process of reform This study begins with the first theoretical discussions among China s economists and top political leaders in the late 1970s and concludes with experiments with bankruptcy and stock markets in the late 1980s The countervailing heavy presence of the state at both the policy and the practical levels throughout the reform decade is its unifying theme

The Democratic Implications of Civil Society in China B.

He,2016-07-27 This book discusses the roles of civil society in the initiation stage of democratization in China It argues that there is a semi civil society in China and that this quasi civil society that plays dual roles in the initial stage of democratisation in China It makes a contribution to existing theories on democratic functions of civil society by applying testing revising and developing these theories in the context of Chinese democratization *NGO Governance and*

Management in China Reza Hasmath,Jennifer Y. J. Hsu,2015-07-16 As China becomes increasingly integrated into the global system there will be continuing pressure to acknowledge and engage with non governmental organizations NGOs Suffice to say without a clear understanding of the state s interaction with NGOs and vice versa any political economic and social analysis of China will be incomplete This book provides an urgent insight into contemporary state NGO relations It brings together the most recent research covering three broad themes namely the conceptualizations and subsequent functions of NGOs state NGO engagement and NGOs as a mediator between state and society in contemporary China The book provides a future glimpse into the challenges of state NGO interactions in China s rapidly developing regions which will aid NGOs strategic planning in both the short and long term In addition it allows a measure of predictability in our assessment of Chinese NGOs behaviour notably when they eventually move their areas of operation from the domestic sphere to an international one The salient themes concepts theories and practice discussed in this book will be of acute interest to students scholars and practitioners in development studies public administration and Chinese and Asian politics Reza Hasmath is a Lecturer in Chinese Politics at the University of Oxford UK and an Associate Professor in Political Science at the University of Alberta Canada His research looks at state society relationships the labour market experiences of ethnic minorities and development theories and practices Jennifer Y J Hsu is an Assistant Professor in Political Science at the University of Alberta Canada Her recent publications include a co authored book HIV AIDS in China The Economic and Social Determinants Routledge 2011 and a co edited book The Chinese Corporatist State Adaption Survival and Resistance Routledge 2012 [The Price of China's Economic Development](#) Zhaohui Hong,2015-07-21 The People s Republic of China

has experienced significant transformations since Deng Xiaoping instituted economic reforms in 1978 Subsequent leaders

continued and often broadened Deng's policies shifting the nation from agrarianism to industrialism from isolation to internationalism and from centralized planning to market based economics As the world strives to understand the nation's rapid development few observers have comprehensively examined the social and cultural price of the economic boom for the majority of the Chinese people Zhaohui Hong assesses the sociocultural consequences of these reforms in this provocative study He contends that modern China functions as an oligarchy or plutocracy ruled by an alliance of political power and private capital where the boundaries between the private and public sectors are constantly shifting This power capital institution based on three millennia of Confucian ideology and decades of Maoist communism exercises monopolistic control of public resources at the expense of civil society and social justice for the majority of citizens *The Price of China's Economic Development* urges policymakers to alter their analytic lens While industrial and commercial development is quantitatively measured Hong argues that social progress should be assessed qualitatively with justice its ultimate goal and fair allocation of resources and opportunity as the main index of success This sophisticated analysis introduces English speakers to the varied and significant work of contemporary Chinese scholars and substantially enriches the international dialogue *Rural China Takes Off* Jean C. Oi, 1999-05-17 A distinctive and important contribution Thomas P Bernstein author of *Up to the Mountains and Down to the Villages* *Popular Political Support in Urban China* Jie Chen, 2004 On the basis of three carefully drawn surveys of Beijing residents between 1995 and 1999 the author finds that diffuse support for the current political system based on attitudes toward institutions and values remains strong at least among city dwellers though it is gradually declining *China's Domestic Private Firms*: Anne S. Tsui, Yanjie Bian, 2014-12-18 One of the most important outcomes of market reforms in China over the past 20 years has been the emergence of a significant domestic private sector which now accounts for almost a third of China's GDP and is by far the country's most important source of employment growth This book is the first in depth analysis of the management and operation of these domestic private firms which are defined as companies or organizations created by PRC citizens including township enterprises and collectives The book provides a comprehensive and multidisciplinary perspective on the factors important to the successful operation and growth of these firms It begins with a review of the literature on the topic in three different disciplines economics sociology and management each followed by several chapters covering recent developments in these areas Featuring contributions by distinguished scholars and China experts the work concludes with an insightful chapter on the future of China's public sector in the global economy *Commodifying Communism* David L. Wank, 1999 *Commodifying Communism* is an ethnographically grounded account of the institutional organization and political consequences of China's historically unprecedented market growth Drawing upon almost two years of ethnographic fieldwork this book challenges conventional views of post communist emerging markets being tied to the retreat of the state David Wank shows how entrepreneurs running private trading companies in Xiamen City Fujian Province one of China's five special economic zones maximize profit and security through

patron client networks with local state agents The book examines how processes of opportunity exchange expectations and advantage are constrained by both statist and popular institutions in market clientelism It also considers the implications of market clientelism for the dynamism of China s emerging market economy relative to Eastern European post communist economies and its political consequences for state society and center local relations Handbook of Contemporary Behavioral Economics Morris Altman,2006 This groundbreaking handbook of original works by leading behavioral economists is the first comprehensive articulation of behavioral economics theory At a time when conventional approaches have failed to resolve key economic concerns the book provides a provocative alternative view of how economic decisions are actually made

Grassroots Elections in China Kevin O'Brien,Suisheng Zhao,2014-07-22 Twenty years after the launch of village elections the time is ripe to assess the progress and impact of China s most notable political reform Where have elections been conducted well and where have they been conducted poorly How have procedures changed over the years and have elections truly transformed how power is exercised in the countryside What methods are researchers employing to study elections and how have scholars from different disciplines contributed to our knowledge of grassroots politics in China This book carefully examines the implementation and effects of China s village township and people s congress elections both in terms of democratizing the polity and spurring other changes in state society relations The chapters in this book have been published across several issues of the Journal of Contemporary China
