Reform Our Study:

Reform Our Study Zedong Mao,1955 **Reforming Our Universities** David Horowitz,2010-08-10 It s no secret that our universities have become hotbeds of radical leftist thought While professors and administrators pay lip service to concepts like open mindedness and robust debate they try to squash any opinion that doesn t match their radical left world view World renowned campus activist David Horowitz wants to bring diversity back to the college campus Horowitz describes his decades long campaign against intellectual bigotry grade discrimination and the denial of basic rights to any and all whose opinions diverge from the extreme liberal orthodoxy The Struggle to Reform Our Colleges Derek Bok,2017-08-28 Why efforts to improve American higher educational attainment haven t worked and where to go from here During the first decade of this century many commentators predicted that American higher education was about to undergo major changes that would be brought about under the stimulus of online learning and other technological advances Toward the end of the decade the president of the United States declared that America would regain its historic lead in the education of its workforce within the next ten years through a huge increase in the number of students earning quality college degrees Several years have elapsed since these pronouncements were made yet the rate of progress has increased very little if at all in the number of college graduates or the nature and quality of the education they receive In *The Struggle to Reform Our Colleges* Derek Bok seeks to explain why so little change has occurred by analyzing the response of America s colleges the influence of students employers foundations accrediting organizations and government officials and the impact of market forces and technological innovation In the last part of the book Bok identifies a number of initiatives that could improve the performance of colleges and universities The final chapter examines the process of change itself and describes the strategy best calculated to quicken the pace of reform and enable colleges to meet the challenges that confront them **Education Reform** United States. Building Sustainable Peace Arnim Langer,Graham K. Brown,2016-06-16 Countries emerging from civil war or protracted violence often face the daunting challenge of rebuilding their economy while simultaneously creating the political and social conditions for a stable peace The implicit assumption in the international community that rapid political democratisation along with economic liberalisation holds the key to sustainable peace is belied by the experiences of countries such as Iraq and Afghanistan Often the challenges of post conflict reconstruction revolve around the timing and sequencing of different reform that may have contradictory implications Drawing on a range of thematic studies

and empirical cases this book examines how post conflict reconstruction policies can be better sequenced in order to promote sustainable peace The book provides evidence that many reforms that are often thought to be imperative in post conflict societies may be better considered as long term objectives and that the immediate imperative for such societies should be people centred policies The Politics of the Public Encounter Peter Hupe,2022-11-25 On the ground floor of government citizens interact with teachers medical staff police officers and other professionals in public service It is during these encounters that laws public policies and professional guidelines gain further substance and form In this insightful book Peter Hupe brings together expert contributions from scholars across the globe to study the social mechanisms behind these public encounters **Moulding the Medium** Patricia Stranahan,2016-09-16 Introduces to researchers the content of the Chinese Communist Party s first official newspaper the Liberation daily and examines its role in the acceptance and implementation of the party s goals during its span from May 1941 to March 1947 Includes chronological and topical outlines of the paper *Europe Managing the Crisis* Walter Kickert,Tiina Randma-Liiv,2015-06-05 Studies of the recent financial crisis have been largely dominated by economists but the similarities and differences between European countries response reflect both economic and political perspectives which have resulted in considerable differences in their decisions Drawing on uniquely comprehensive research data this book presents an in depth comparative analysis of how 14 European governments tackled the challenge of fiscal consolidation and analyses the political decision making behind these measures By exploring national responses not just in fiscal terms but also from a political perspective it reveals that decision making has been driven by political factors with profound effects on public administration and management This ground breaking book fills an important gap in the research literature for scholars of public management public administration and policy and will be a benchmark for future work on the global economic crisis *Daily Report, Foreign Radio Broadcasts* United States. Central Intelligence Agency,1969 **The 1973 Economic Report of the President** United States. Congress. Joint Economic Committee,1973 *The Economic Report of the President* United States. Congress.
