Reforming Parliamentary Democracy F. Leslie Seidle, David Campbell Docherty, 2003 Insightful analyses of recent reforms to parliamentary institutions and governance in Canada the United Kingdom Australia New Zealand and South Africa Parliamentary government combines stability and dynamism Its continuity is rooted in enduring principles such as citizen representation and accountability to the legislature But parliamentary systems have evolved in response to changes in the societies they govern and in citizens views about democratic practices In *Reforming Parliamentary Democracy* the authors demonstrate how in their respective countries parliamentary governments have combined stability with the capacity to adapt to such changes They provide insightful analyses of recent reforms to parliamentary institutions and governance in Canada the United Kingdom Australia New Zealand and South Africa

Reforming Parliamentary Democracy Leslie Seidle, David C. Docherty, 2003-06-13 The authors address issues of representation the move to a proportional electoral system in New Zealand the unsuccessful attempt to establish a domestic head of state in Australia and the reform of the British House of Lords and demonstrate that citizens increasingly want legislative institutions to more closely reflect the societies they serve To discuss responsiveness the governance of indigenous communities and their place within the broader society in Canada and New Zealand are examined as is the role of institutions other than legislatures that are involved in protecting minority rights and responding to various forms of diversity A separate chapter analyses the basis for and merits of proposals to reform the Canadian House of Commons In addition authors review the dynamics of federalism intergovernmental relations and other processes of multi level governance in Canada the United Kingdom and South Africa Public debate about adapting governance processes to changing conditions and citizen values is a necessary condition of successful democracies and there is much to learn from progress and false starts in other parliamentary democracies Contributors include Jonathan Boston Victoria University of Wellington New Zealand Paul Chartrand consultant Victoria British Columbia St phane Dion minister of Intergovernmental Relations Government of Canada David Docherty Mason Durie Massey University Robert Hazell University College London Christina Murray University of Cape Town Cheryl Saunders University of Melbourne Leslie Seidle Jennifer Smith Dalhousie University and Lord Wakeham former chairman of the Royal Commission on House of Lords Reform

Reforming Parliamentary Committees Reuven Y. Hazan, 2001 Here Reuven Y Hazan argues that committees are essential for the efficient dispatch of parliamentary business and shows how several parliaments have recently reformed their committee systems to function more effectively In particular he gives an in depth knowledge and a broader understanding of Israel s committees and how they compare with the committees of other legislatures throughout the world

Democratic Reform in New Brunswick William Paul Cross, 2007 *Democratic Reform in New Brunswick* is a comprehensive collection of research papers written initially for the New Brunswick Commission on Electoral Democracy The essays provide detailed consideration of the many issues relating to democratic and electoral

reform currently on the public policy agenda in Canada Topics covered include electoral system change gender and representational issues questions relating to party democracy the role of legislators concerns around drawing electoral boundaries fixed election dates direct democracy and political disengagement among young voters All of the essays examine the implications of various reform proposals in these areas and most draw upon the experiences of other jurisdictions in addressing how they might play out in the Canadian context Many chapters also draw specifically upon the New Brunswick experience in considering how democratic reform might impact upon the province s politics New Brunswick is Canada s only bilingual province with two vibrant linguistic communities and is in many ways a microcosm of the Canadian state These readings provide insight into how issues related to democratic and electoral reform may play out on the national stage

Reforming Democracy Camille Bedock, 2017-05-19 When why and how are democratic institutions reformed This is the broad question guiding this research rooted in a context of crises of representative democracy Core democratic rules can be understood as the formal political rules regulating the direct relationship between elites within the political system parties and citizens They are therefore the cornerstone of the functioning of any political system This book deals with the context the motives and the mechanisms explaining the incidence of institutional engineering in consolidated European democracies between 1990 and 2015 It is centred on the choice of political elites to use or not to use institutional engineering as a response to the challenges they face This study provides both a better empirical understanding of the world of democratic reforms in consolidated democracies thanks to a new data set covering six dimensions of reform in 18 European countries Secondly the book provides evidence about the link between the lack of political support and democratic reforms and the role of electoral shifts in fostering reforms Thirdly this research shows that the final outcome of a given reform depends on the type of reform at stake and on the process used during the phase of discussion of the reform though case studies in Ireland France and Italy Ultimately the book demonstrates that contrary to what has been commonly assumed reforms of the core democratic rules are frequent and constitute in most cases an answer of challenged political elites to the erosion of political support and electoral change Comparative Politics is a series for researchers teachers and students of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecprnet.eu The series is edited by Emilie van Haute Professor of Political Science Universit libre de Bruxelles Ferdinand M ller Rommel Director of the Center for the Study of Democracy Leuphana University and Susan Scarrow Chair of the Department of Political Science University of Houston

Parliamentary Reform 1785-1928 Sean Lang, 2005-07-15 Parliamentary Reform 1785 1928 surveys the dynamically changing role of the British Parliament from the pre reformed Parliament through the 1832 Great Reform Act Chartism the campaign for working class suffrage Catholic emancipation the long struggle for the granting of female suffrage Beginning

Improving Democracy Through Constitutional Reform Roger D. Congleton, 2012-12-06 Do constitutions matter Are constitutions simply symbols of the political times at which they were adopted or do they systematically affect the course of public policy Are the policy crises of failing democracies the result of bad luck or of fundamental problems associated with the major and minor constitutional reforms adopted during their recent histories The purpose of the present study is to address these questions using a blend of theory history and statistical analysis The Swedish experience provides a nearly perfect laboratory in which to study the effects of constitutional reform During the past 200 years Swedish governance has shifted from a king dominated system with an unelected four chamber parliament to a bicameral legislature elected with wealth weighted voting in 1866 and then to a new electoral system based on proportional representation and universal suffrage in 1920 and finally to a unicameral parliamentary system in 1970 All these radical reorganizations of Swedish governance were accomplished peacefully using formal amendment procedures established by previous constitutions By focusing on constitutional issues rather than Sweden's political history this book extends our understanding of constitutional reform and parliamentary democracy in general

National Democratic Reforms in Africa Said Adejumbi, 2015-12-27 From putative success stories such as Ghana and Rwanda to failed efforts in Zimbabwe and other countries this volume brings together seven incisive case studies from diverse contexts including post war Sierra Leone Uganda and the new nation of South Sudan to distil insights into the troubled progress of reform across the African continent

The Europeanisation of Parliamentary Democracy Katrin Auel, Arthur Benz, 2006-05-04 This groundbreaking new study shows how the process of creating an ever closer European Union affects not only the policy making but also the politics and polity of the Member States Empirical studies on the domestic impact of Europe identified different forms of Europeanization due to alternative mechanisms of internalising the new norms and rules Although many studies have since focused on the question of how to what degree in what direction at what pace and at what point of time Europe matters the Europeanization of one particular structural determinant of the Member States namely the system of parliamentary democracy is still under researched This is all the more astonishing as democracy in the EU depends to a large extent on the democratic legitimacy of procedures at the national level This volume addresses the key issue of the Europeanisation of parliamentary systems and thus contributes to the ongoing debate on the parliamentary dimension of the European Union It brings together theoretical concepts as well as cross national empirical research on the Europeanization of the member states parliamentary systems focussing on different elements such as structures procedures and decision making processes as well as on the question how parliamentarians as actors react to these changes and actively shape this Europeanization This book was previously published as a special issue

of The Journal of Legislative Studies African Parliamentary Reform Frederick Stapenhurst, Rasheed Draman, Andrew Imlach, Alexander Hamilton, Cindy Kroon, 2012-04-27 Some of the most far reaching and innovative parliamentary reform is occurring in Africa While these reforms are not yet widespread across the continent parliaments in some African countries are asserting their independence as policymakers as overseers of government and as the guardian of citizens rights and needs This book presents recent reforms in selected African parliaments Ghana Kenya Uganda Tanzania Rwanda Benin Zambia Ethiopia Liberia and Nigeria It also presents cross cutting innovations by African parliaments in fighting corruption in providing development to constituents and in combatting climate change Many of the chapters are authored by African MPs themselves making this a book by MPs for MPs as well as being of interest to students and scholars of African Politics and to those international institutions that support parliamentary development African Parliamentary Reform is a joint initiative by the World Bank Institute the Commonwealth Parliamentary Association and the Parliamentary Centre Africa

The Power Struggles over the Post-neoliberal Social Security System Reforms in Venezuela and Ecuador Ezequiel Luis Bistoletti, 2018-08-25 This book carries out a comparative analysis of the power struggles over the post neoliberal social security reforms in Venezuela and Ecuador The research breaks down why the social security system reform initiated by Hugo Chavez government in Venezuela has come down since its passing in 2002 whereas the social security system reform initiated by Rafael Correa s government in Ecuador has come along in spite of the obstacles since 2007 All in all the analysis determined that the struggles over the social security system reforms in both countries remarkably corresponded to each other with regard to their structural conditions points of contention and contending actors In contrast the analysis established substantial divergences regarding the ways in which the struggles over both reforms came about due to the divergent development of the struggles for hegemony between government and opposition These divergences finally brought about the indefinite stagnation of the reform in Venezuela and the advancement of subsequent partial reforms aimed at the universalization of social security in Ecuador **Law Reforms Around the World** Asif H Qureshi, 2023-12-01

Encapsulating Law Reform requires the creation of a discreet space occupied with normative self generation self correction and self adaptation in the very anatomy of law and the architecture of legal systems This living dynamic trait should be a hallmark of the genetic material in the modern day institution of law This edited volume sheds light on Law Reform in its domestic comparative regional and international settings It examines the process of Law Reform and explains the need for a constant appraisal to keep its wheels optimally operational The book takes a holistic approach to understanding Law Reform and calls for such an approach in the very process of Law Reform It begins by looking at Law Reform processes from a theoretical perspective Thereafter it sheds light on domestic Law Reform processes in civil and common law legal systems This is followed by a focus on Law Reform at the international level with a critical appraisal of the International Law Commission ILC drawing on its performance in international economic and environmental law Included in this consideration

Sceptical Perspectives on the Changing Constitution of the United Kingdom Richard Johnson, Yuan Yi Zhu, 2023-04-20 This book examines the far reaching changes made to the constitution in the United Kingdom in recent decades It considers the way these reforms have fragmented power once held centrally through the Crown in Parliament by means of devolution referendums and judicial reform It examines the reshaping of the balance of power between the executive legislature and the way that prerogative powers have been curtailed by statute and judicial ruling It focuses on the Human Rights Act and the creation of the UK Supreme Court which emboldened the judiciary to limit executive action and even to challenge Parliament and argues that many of these symbolised an attempt to shift the political constitution to a legal one Many virtues have been ascribed to these reforms To the extent that criticism exists it is often to argue that these reforms do not go far enough An elected upper chamber regional English parliaments further electoral reform and a codified constitution are common tonics prescribed by commentators from this point of view This volume adopts a different approach It provides a critical evaluation of these far reaching reforms drawing from the expertise of highly respected academics and experienced political figures from both the left and right The book is an invaluable source of academic expertise and practical insights for the interested public students policymakers and journalists who too often are only exposed to the further reform position

Constitutional Preferences and Parliamentary Reform Thomas Winzen, 2017 Advancing an explanation based on political parties constitutional preferences this volume investigates the nature and variation of parliamentary rights in European Union affairs across countries and levels of governance

Legislative Networks and Reforms in Post-Soviet States Marta Matrakova, 2025-01-17 This book presents the legislative networks in charge of drafting democratic reforms as gatekeepers to the actual adoption implementation and internalisation of democratic norms in selected post Soviet countries It demonstrates that the composition of legislative networks which draft the legal reforms in Armenia Georgia and Moldova is controlled by powerful political actors who seek to have their preferences reflected in the reform outcomes Furthermore the book shows that there are limited modifications after the adoption of the first draft by these legislative networks despite the later reform stages being the focus of the existing literature The book s analysis of political reforms in the Rule of Law inter institutional and electoral accountability in these three countries identifies the control strategies used by domestic political elite to restrain the space for democratisation while instrumentalising the institutional framework to increase its power This book will be of key interest to scholars and students of democratisation post Soviet studies East European politics EU politics and policy comparative politics and international relations

Perfecting Parliament Roger D. Congleton, 2010-11-01 This

book explains why contemporary liberal democracies are based on historical templates rather than revolutionary reforms why the transition in Europe occurred during a relatively short period in the nineteenth century why politically and economically powerful men and women voluntarily supported such reforms how interests ideas and pre existing institutions affected the reforms adopted and why the countries that liberalized their political systems also produced the Industrial Revolution The analysis is organized in three parts The first part develops new rational choice models of 1 governance 2 the balance of authority between parliaments and kings 3 constitutional exchange and 4 suffrage reform The second part provides historical overviews and detailed constitutional histories of six important countries The third part provides additional evidence in support of the theory summarizes the results contrasts the approach taken in this book with that of other scholars and discusses methodological issues

Social Service Reform in the Postcommunist State Janelle A. Kerlin, 2005-06-28 The fall of Communist regimes in Eastern Europe raised the complex question of how social services were to be distributed and administered in countries with legacies of highly centralized state In Poland a series of reforms attempted to modify and decentralize social service programs Yet with Poland s second round of decentralization long held and clearly specified reform goals were undermined from the very outset In this insightful detailed and carefully argued study Janelle A Kerlin demonstrates how and why reforms intended to improve services and increase citizen participation in social service programming largely failed to meet expected goals The politics of reform development including political deals exclusionary tactics and hidden maneuvering by Polish policymakers prevented any significant upgrade of services or real change in decision making structures Conflicting ideologies and pressures on policy actors stemming from historical institutional political and international sources often resulted in compromises that led to unfavorable public service outcomes In this book Kerlin uses focused interviews with leading reform actors and a nationwide representative survey of two hundred public social service institutions to develop a model that connects the politics of the decentralization process with social service outcomes Not only students of the former Soviet bloc but also those interested in the links between politics and policy outcomes more broadly will find in this volume an informative and instructive case study that has far reaching implications
