Anderson,2009-05-01 In this timely and important new book Gary Anderson provides a devastating critique of why a managerial role for educational leaders is counterproductive especially for improving opportunities for low income students and students of color and instead proposes ways of re theorizing educational leadership to emphasize its advocacy role Advocacy Leadership lays out a post reform agenda that moves beyond the neo liberal competition framework to define a new accountability a new pedagogy and a new leadership role definition Drawing on personal narrative discourse analysis and interdisciplinary scholarship Anderson delivers a compelling argument for the need to move away from current

inauthentic and inequitable approaches to school reform in order to jump start a conversation about an alternative vision of education today
