Regards africains, 1999 Translation Revisited Mamadou Diawara, Elísio S. Macamo, Jean-Bernard Ouédraogo, 2019-01-17 How realistic is it to expect translation to render the world intelligible in a context shaped by different historical trajectories and experiences Can we rely on human universals to translate through the unique and specific webs of meaning that languages represent If knowledge production is a kind of translation then it is fair to assume that the possibility of translation has largely rested on the idea that Western experience is the repository of these human universals against the background of which different human experiences can be rendered intelligible The problem with this assumption however is that there are limits to Western claims to universalism mainly because these claims were at the service of the desire to justify imperial expansion This book addresses issues arising from these claims to universalism in the process of producing knowledge about diverse African social realities It shows that the idea of knowledge production as translation can be usefully deployed to inquire into how knowledge of Africa translates into an imperial attempt at changing local norms institutions and spiritual values Translation in this sense is the normalization of meanings issuing from a local historical experience claiming to be universal The task of producing knowledge of African social realities cannot be adequately addressed without a prior critical engagement with how translation has come to shape our ways of rendering Africa intelligible *Regards contemporains* Stéphane Pellet, 1995 **Regards d'un coopérant sur le Sénégal**, 2014-05-19 Format Carnet de voyage 12x18cm **Intermediaries, Interpreters, and Clerks** Benjamin N. Lawrance, Emily Lynn Osborn, Richard L. Roberts, 2006 Publisher description **Historical Dictionary of Benin** Mathurin C. Hounnikpo, Samuel Decalo, 2012-12-14 Benin is now perceived of as a model of democracy in Africa because it has successfully established a democratic political system based on consensus and regular and fair elections and it continues to improve its electoral and parliamentary systems Since its democracy it has taken important steps towards laying the foundation for the rule of law by establishing stable political institutions that can withstand the test of time It has also engaged in an important legal institutional and regulatory reform to establish a more favorable environment for private initiative The fourth edition of Historical Dictionary of Benin covers its history through a chronology an introductory essay and an extensive bibliography The dictionary section has over 900 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Benin *The Culture of Mental Illness and Psychiatric Practice in Africa* Emmanuel Kwaku Akyeampong, Allan G. Hill, Arthur Kleinman, 2015-05-01 In many African countries mental health issues including the burden of serious mental illness and trauma have not been adequately addressed These essays shed light on the treatment of common and chronic mental disorders including mental illness and treatment in the current climate of economic and political instability access to health care access to medicines and the impact of HIV AIDS and other chronic illness on mental health

While problems are rampant and carry real and devastating consequences this volume promotes an understanding of the African mental health landscape in service of reform

Public Policy Lessons from the AIDS Response in Africa Fred Eboko, 2020-10-29 Public Policy Lessons from the AIDS Response in Africa examines how the interplay between national state dynamics in Africa and the global political arena has shaped the global AIDS response and in this context develops a framework for analysing public policy action more broadly in contemporary Africa By applying comparative political sociology to AIDS public action this book identifies four political models that are applicable to public initiatives Fred Eboko goes on to test these in other domains namely the malaria and tuberculosis health subsectors and the education and environment sectors By articulating global and national connections and contributing a critical perspective grounded in African scholarship and French political science the author builds a bold and ambitious framework with the potential to enable coherent and effective public policy action in Africa This book will be of interest to scholars and students of public health global health political science and development studies as well as policy level practitioners in the areas of global health and development
