Discovering London 7 Douglas Hill,1969 **The London Region** Philippa Dolphin,Eric G. Grant,Edward Lewis,1981
Major findings 1 Contaminants in water from one of every three drinking water wells sampled are a potential human health concern 2 Arsenic and uranium derived from geologic sources are potential drinking water concerns 3 Dissolved solids concentrations in groundwater are increasing in some areas 4 Artificial recharge and groundwater withdrawals are moving contaminants to deeper parts of basin fill aquifers **The Winterthur Museum Libraries Collection of Printed Books and Periodicals: General catalog** Henry Francis du Pont Winterthur Museum. Libraries,1974 **London's Teeming Streets, 1830-1914** James Winter,2013-06-17 The streets of Victorian London became increasingly congested with vehicles fast and furious drivers pedestrians costermongers prostitutes brass bands homeless children and other obstacles to safe and rapid motion Concerned citizens were alarmed by this unprecedented build up of traffic and pollution But how did this chaotic state come about and why was more not done to prevent it London s Teeming Streets brings an historical perspective to present day concerns about the effects of continued urban expansion and shows that many current problems date back to the Victorian era James Winter reveals that the issue of street reform was fraught with political intrigue Many reformers were liberals yet the question of attempting to limit or prohibit activity on the King s Highway which was by definition an open and democratic preserve brought the very purpose of liberal reform into sharp focus The British National Bibliography Cumulated Subject Catalogue ,1968 **Dawn of Discovery** Dudley Moore,2013-10-30 This book focuses on three important British travellers to Crete during the 18th and 19th centuries to establish whether or not they made any significant contribution to the field of research with regard to the archaeological heritage of Bronze Age Crete It is an attempt to bring these lost pioneers of antiquity to the fore and to recognize their efforts as part of the foundation of the discovery of the island s Bronze Age archaeology prior to the ground breaking excavations of Sir Arthur Evans The three travellers examined here are Richard Pococke 1704 65 Robert Pashley 1805 59 and Thomas Spratt 1811 88 Having dealt with the terms that these travellers used in describing ancient remains the book looks briefly at the background to Bronze Age Crete itself Thereafter the development from antiquarianism into archaeology is followed to establish the motives behind these travellers wanderings in Crete This also involves a discussion of other British travellers to Crete and problems they may have encountered with an island in the throes of Ottoman turbulence Using their published journals the author has followed the footsteps of Pococke Pashley and Spratt to see what they may have discovered and compared their written accounts with what is physically there today The results are most intriguing The Record ,1967 *Catalogue of the Library of the India Office* Great Britain. India Office. Library,1888 *The Cambridge Illustrated History of Medicine* Roy Porter,2001-07-30 An authoritative and accessible illustrated introduction to medical history *Mental Health, Psychiatry and the Arts* Victoria Tischler,2018-10-08 Medicine and psychiatry both based on science require the art of caring using the

principles of art in learning and teaching Sitting with a patient making sense of their distress being empathetic in understanding both the symptoms and the person and alleviating suffering needs a human touch For that doctors need the soul of an artist and must be aware of the value that arts have for society and the individual from the Foreword by Dinesh Bhugra This comprehensive book explores how visual art cinema music poetry literature and drama can inform the teaching and practice of psychiatrists and mental health professionals Edited and written by a team of expert practitioners teachers and researchers including both clinicians and users of mental health services this comprehensive book will provide valuable insights for undergraduate and postgraduate educators with teaching responsibilities in psychiatry and mental health Students of the medical humanities art music and drama therapists and educators in occupational therapy and psychology will also find this a valuable and insightful handbook The authors of this wonderful handbook provide a convincing argument that the arts are good for what ails us They have each used a preferred artistic medium to deepen personal reflection and to enhance their own creativity as physicians teachers and therapists Their models are clear their suggestions practical but none of the approaches you ll find here is reductive or simplistic Try some of the reflective exercises and teaching strategies You will be sure to rediscover something you have always cherished about the art of healing from the Foreword by Allan D Peterkin

Killing Hercules Richard Rowland,2016-12-08 This book offers an entirely new reception history of the myth of Hercules and his wife killer Deianira The book poses and attempts to answer two important and related questions First why have artists across two millennia felt compelled to revisit this particular myth to express anxieties about violence at both a global and domestic level Secondly from the moment that Sophocles disrupted a myth about the definitive exemplar of masculinity and martial prowess and turned it into a story about domestic abuse through to a 2014 production of Handel s Hercules that was set in the context of the war on terror the reception history of this myth has been one of discontinuity and conflict how and why does each culture reinvent this narrative to address its own concerns and discontents and how does each generation speak to qualify or annihilate the certainties of its predecessors in order to understand contain or exonerate the aggression with which their governors of state and of the household so often enforce their authority and the violence to which their nations and their homes are perennially vulnerable
