Rhythm And Will In Victorian Poetry:

Rhythm and Will in Victorian Poetry Matthew Campbell, 1999-04-22 In *Rhythm and Will in Victorian Poetry* first published in 1999 Matthew Campbell explores the work of four Victorian poets Tennyson Browning Hopkins and Hardy as they show a consistent and innovative concern with questions of human agency and will The Victorians saw the virtues attendant upon a strong will as central to themselves and to their culture and Victorian poetry strove to find an aesthetic form to represent this sense of the human will Through close study of the metre rhyme and rhythm of a wide range of poems including monologue lyric and elegy Campbell reveals how closely technical questions of poetics are related in the work of these poets to issues of psychology ethics and social change He goes on to discuss more general questions of poetics and the implications of the achievement of the Victorian poets in a wider context from Milton through Romanticism and into contemporary critical debate

Rhythm and Will in Victorian Poetry Matthew J. B. Campbell, 1999 **Rhythms of Feeling in Edward Lear, T. S. Eliot, and Stevie Smith** Jasmine Jagger, 2022 Rich with unpublished material and detailed insight *Rhythms of Feeling* offers a new reading of three of the most celebrated poets Edward Lear T S Eliot and Stevie Smith Tracing exciting lines of interplay affinity and influence between these writers for the first time the book shifts the terms of critical debate on Lear Eliot and Smith and subtly reorients the traditional account of the genealogies of Modernism Going beyond a biographically framed close reading or a more general analysis framed by affect theory the volume traces these poets affective rhythms fits tears nerves to consider the way that poetics the mental and physical process of writing and reading and the ebbs and flows of their emotional weather might be in dialogue Attentive acute and often forensic the book broadens its reach to contemporary writers and medical accounts of creativity and cognition Alongside deep critical study this volume seeks to bring emotional intelligence to criticism finding ways of speaking lucidly and humanely about emotional and physical states that defy lucidity and stretch our sense of the human Provided by publisher *Victorian Poetry and the Culture of the Heart* Kirstie Blair, 2006-04-27 *Victorian Poetry and the Culture of the Heart* is a significant and timely study of nineteenth century poetry and poetics It considers why and how the heart became a vital image in Victorian poetry and argues that the intense focus on heart imagery in many major Victorian poems highlights anxieties in this period about the ability of poetry to act upon its readers In the course of the nineteenth century this study argues increased doubt about the validity of feeling led to the depiction of the literary heart as alienated distant outside the control of mind and will This coincided with a notable rise in medical literature specifically concerned with the pathological heart and with the development of new techniques and instruments of investigation such as the stethoscope As poets feared for the health of their own hearts their poetry embodies concerns about a widespread culture of heartsickness in both form and content In addition concerns about the heart's status and actions reflect upon questions of religious faith and doubt and feed into issues of gender and nationalism This book argues that it is vital to understand how this wider culture of the heart informed poetry

and was in turn influenced by poetic constructs Individual chapters on Barrett Browning Arnold and Tennyson explore the vital presence of the heart in major works by these poets including Aurora Leigh Empedocles on Etna In Memoriam and Maud while the wide ranging opening chapters present an argument for the mutual influence of poetry and physiology in the period and trace the development of new theories of rhythm as organic and affective *A Guide to John Henry Newman* Juan R. Velez, 2022-09-10 Provides a wide range of subjects on the life and thought of John Henry Newman 1801 1890 an Anglican clergyman author and poet who became a Roman Catholic priest cardinal and saint The contributors come from disciplines such as theology education literature history and philosophy highlighting the wide range of Newman s work

The Figure of Music in Nineteenth-Century British Poetry Phyllis Weliver, 2017-07-05 How was music depicted in and mediated through Romantic and Victorian poetry This is the central question that this specially commissioned volume of essays sets out to explore in order to understand better music s place and its significance in nineteenth century British culture Analysing how music took part in and commented on a wide range of scientific literary and cultural discourses the book expands our knowledge of how music was central to the nineteenth century imagination Like its companion volume *The Idea of Music in Victorian Fiction* Ashgate 2004 edited by Sophie Fuller and Nicky Losseff this book provides a meeting place for literary studies and musicology with contributions by scholars situated in each field Areas investigated in these essays include the Romantic interest in national musical traditions the figure of the Eolian harp in the poetry of Coleridge and Shelley the recurring theme of music in Blake s verse settings of Tennyson by Parry and Elgar that demonstrate how literary representations of musical ideas are refigured in music George Eliot s use of music in her poetry to explore literary and philosophical themes music in the verse of Christina and Dante Gabriel Rossetti the personification of lyric Sappho in a song cycle by Granville and Helen Bantock and music and sexual identity in the poetry of Wilde Symonds Michael Field Beardsley Gray and Davidson *A Companion to Twentieth-Century Poetry* Neil Roberts, 2003-02-14 In the twentieth century more people spoke English and more people wrote poetry than in the whole of previous history and this Companion strives to make sense of this crowded poetical era The original contributions by leading international scholars and practising poets were written as the contributors adjusted to the idea that the possibilities of twentieth century poetry were exhausted and finite However the volume also looks forward to the poetry and readings that the new century will bring The Companion embraces the extraordinary development of poetry over the century in twenty English speaking countries a century which began with a bipolar transatlantic connection in modernism and ended with the decentred heterogeneity of post colonialism Representation of the canonical and the marginal is therefore balanced including the full integration of women poets and feminist approaches and the in depth treatment of post colonial poets from various national traditions Discussion of context intertextualities and formal approaches illustrates the increasing self consciousness and self reflexivity of the period whilst a Readings section offers new readings of key selected texts The volume as a whole offers critical and contextual coverage of

the full range of English language poetry in the last century **Tennyson Echoing Wordsworth** Jayne Thomas, 2019-03-14

Uncovering Wordsworth's influence on Tennyson This book explores Tennyson's poetic relationship with Wordsworth through a close analysis of Tennyson's borrowing of the earlier poet's words and phrases an approach that positions Wordsworth in Tennyson's poetry in a more centralised way than previously recognised Focusing on some of the most representative poems of Tennyson's career including *The Lady of Shalott* *Ulysses* and *In Memoriam* the study examines the echoes from Wordsworth that these poems contain and the transformative part they play in his poetry moving beyond existing accounts of Wordsworthian influence in the selected texts to uncover new and revealing connections and interactions that shed a penetrating light on Tennyson's poetic relationship with his Romantic predecessor

Key Features First book length study of Tennyson's poetic relationship with Wordsworth By focusing on echoes or parallel passages book reevaluates Tennyson's poetic relationship with Wordsworth Reveals Wordsworth as the lynchpin of Tennyson's poetry Recalibrates critical estimates of Tennyson as poet Poet Laureate and Post Romantic poet **A Companion to Thomas Hardy** Keith Wilson, 2012-09-05

Through original essays from a distinguished team of international scholars and Hardy specialists *A Companion to Thomas Hardy* provides a unique one volume resource which encompasses all aspects of Hardy's major novels short stories and poetry Informed by the latest in scholarly critical and theoretical debates from some of the world's leading Hardy scholars Reveals groundbreaking insights through examinations of Hardy's major novels short stories poetry and drama Explores Hardy's work in the context of the major intellectual and socio cultural currents of his time and assesses his legacy for subsequent writers **Thinking Through Poetry** Marjorie Levinson, 2018-07-11

Thinking through Poetry Field Reports on Romantic Lyric pursues two goals The title signals the contribution to debates about reading Do we think through by means of with poems sympathetically elaborating their surfaces Is this compatible with a second meaning thinking through poems to their end solving a problem getting to its root its deep truth Third can we square these surface and depth readings with a speculative philosophical criticism to which the poem carries us where through denotes a going beyond All three meanings of through are in play throughout The subtitle applies field first to Romantic studies since the 1980s a field that this project reflects upon from beginning to end Examples are drawn especially from Wordsworth but also from Coleridge and in assessing Romanticism's afterlife from Stevens Field also characterizes the shift from a unitary to a field concept of form during that time span a shift pursued through prolonged engagement with Spinoza Field thus underscores the synthesis of form and history the importance of analytic scale to that synthesis and the displacement of entity text by relation as the object of investigation While the book historically connects early nineteenth century intellectual trends to twentieth and twenty first century scientific revolutions its focuses on introducing new models to literary criticism Unlike accounts of the influence of science on literature or various literature X approaches literature and ecology literature and cognitive science it constructs its object of inquiry in a way cognate with work in non humanities disciplines thus highlighting a certain unity to

human knowledge The claim is that specialists in literature should think the way distinguished scientists think and vice versa
