Buddhist Funeral Cultures of Southeast Asia and China Paul Williams,Patrice Ladwig,2012-04-26 Death rituals and Buddhist imagery of the afterlife have been central to the development and spread of Buddhism as a social and textual tradition Bringing together ethnographic historical and theoretically informed accounts the book presents in depth studies of the Buddhist funeral cultures of mainland Southeast Asia and China **The Archaeology of Mainland Southeast Asia** Charles Higham,1991 This important new synthesis focuses on the social world of early mainland Southeast Asia **The Malay World of Southeast Asia** Patricia Lim Pui Huen,1986 Over 5 000 entries arranged in four parts Part I comprises reference and general works to provide a guide to information on Southeast Asia Part II provides the setting of space and time Part III features the people and Part IV the many facets of culture and society language ideas beliefs values institutions creative expression and social and cultural change Within each section the arrangement is geographical beginning with Southeast Asia as a whole followed by the various countries in alphabetical order *The Earth as Transformed by Human Action* B. L. Turner,William C. Clark,Robert W. Kates,John F. Richards,Jessica T. Mathews,William B. Meyer,1993-01-29 The Earth as Transformed by Human Action is the culmination of a mammoth undertaking involving the examination of the toll our continual strides forward technical and social take on our world The purpose of such a study is to document the changes in the biosphere that have taken place over the last 300 years to contrast global patterns of change to those appearing on a regional level and to explain the major human forces that have driven these changes The first section deals strictly with the major human forces of the past 300 years and the second is a detailed account of the transformations of the global environment wrought by human action The final section examines a range of perspectives and theories that purport to explain human actions with regard to the biosphere *The Oxford Handbook of Early Southeast Asia* Charles Higham,Nam C. Kim,2022 This handbook collects expert surveys of the prehistory of Southeast Asia a two millennial span that began with the arrival of now extinct humans and ended with the great civilization of Angkor 9th to 15th century **The Garland Encyclopedia of World Music** Terry E. Miller,Sean Williams,2017-09-25 The first complete music reference for the region this volume covers all the nations of modern Southeast Asia Burma Cambodia Laos Thailand Vietnam Singapore Malaysia Indonesia and the Philippines in thirty five articles written by twenty seven expert contributors **Coming of Age in South and Southeast Asia** Lenore Manderson,Pranee Liamputtong,2002 In recent years first feminist considerations and now concerns with HIV Aids have led to new approaches to the study of sexuality The experience of puberty explorations with sexuality and courtship and the pressure to reproduce are a few of the human tensions central to this volume Southeast Asia Catalog: Western language monographs: the Philippines, Portuguese Timor, Thailand, Vietnam, Russian language monographs Cornell University. Libraries,1976 **The Environment and World History** Edmund Burke III,Kenneth

Pomeranz, 2009-04-08 Since around 1500 C E humans have shaped the global environment in ways that were previously unimaginable Bringing together leading environmental historians and world historians this book offers an overview of global environmental history throughout this remarkable 500 year period In eleven essays the contributors examine the connections between environmental change and other major topics of early modern and modern world history population growth commercialization imperialism industrialization the fossil fuel revolution and more Rather than attributing environmental change largely to European science technology and capitalism the essays illuminate a series of culturally distinctive yet often parallel developments arising in many parts of the world leading to intensified exploitation of land and water The wide range of regional studies including some in Russia China the Middle East India Southeast Asia Latin America Southern Africa and Western Europe together with the book s broader thematic essays makes *The Environment and World History* ideal for courses that seek to incorporate the environment and environmental change more fully into a truly integrative understanding of world history

CONTRIBUTORS Michael Adas William Beinart Edmund Burke III Mark Cioc Kenneth Pomeranz Mahesh Rangarajan John F Richards Lise Sedrez Douglas R Weiner Smallholders and Stockbreeders P. Boomgaard, David E.F. Henley, 2021-11-15 Historians of Southeast Asia have traditionally preferred to write about politics and culture rather than economics and ecology and where they have looked at the history of agriculture they have most often concentrated on cash crops like sugar coffee and rubber which figure prominently in colonial records *Smallholders and stockbreeders* by contrast provides a rare survey of the history of foodcrop farming and a unique look at the history of animal husbandry in the Southeast Asian region Thirteen contributions by an international selection of expert authors cover topics ranging from the agricultural economy of precolonial Java to the growth of rice production in the Mekong Delta since 1950 and from the breeding of horses on the northern borderlands of mainland Southeast Asia to the production and consumption of beef in the Philippines New light is shed on old questions regarding the directions in which Southeast Asian agriculture has evolved over the centuries and new questions raised regarding the cultural demographic economic and political determinants of farming practices While the geographical and chronological scales of analysis vary most chapters deal with relatively large areas and with developments over periods of 100 years or more Besides production for subsistence commercial aspects of livestock and foodcrop farming are also given due attention and prove to have been important in many parts of the region from very early periods *Smallholders and stockbreeders* is essential reading for anyone interested in the agricultural history of Southeast Asia whether for its own sake or in connection with other aspects of regional history or for purposes of comparison with other parts of the world Institutional Change in Southeast Asia Fredrik Sjöholm, Jose L. Tongzon, 2005 *Institutional Change in Southeast Asia* examines the institutional changes taking place in and challenges facing the region since 1997 The book focuses on determinants to the adjustments and on implementations of the reforms It also describes various differences in the reform process between countries in the region Southeast Asia s economic development over the last decades has been

impressive Most of the region achieved consistently high growth rates accompanied by significant structural transformation and industrialization poverty alleviation and improvements in their overall standard of living as indicated by such social indicators as greater longevity more widespread delivery of basic education and lower infant mortality rates However the crisis that struck Southeast Asia in 1997 had severe economic social and political consequences in the region It also threw into doubt the future economic prosperity of the countries in Southeast Asia and raised intriguing questions about the quality of their institutions and their approach to economic development Sj holm and Tongzon argue that the economies of Southeast Asia need to reform their institutions if the previous rapid development is to continue The institutional weaknesses have been addressed to different degrees and with different success in the affected countries Against the backdrop of Southeast Asia s importance in the world economy it is hardly possible to overestimate the need to understand this process of change

The Peopling of East Asia Roger Blench,Laurent Sagart,Alicia Sanchez-Mazas,2005-03-20 Recent findings in the fields of East Asian archaeology linguistics and genetics are collected together here making this an ideal reference tool for scholars in all disciplines working on the reconstruction of the East Asian past

Thailand Charles F Keyes,2019-07-09 Thailand is exceptional among modern states in Asia in that it has built and retained a national culture around a traditional monarchical institution Moreover this culture has also been based on a dominant religious tradition that of Theravada Buddhism The process of creating the modern nation state of Thailand out of the traditional Buddhist kingdom of Siam began in the nineteenth century when the rulers of Siam confronted with increasing pressure from the colonial powers of Britain and France were able to preserve their country s independence by instituting revolutionary changes that established the authority of a centralized bureaucracy throughout the country The new state asserted its authority not only over Siamese who lived in the core area of the old kingdom but also over large numbers of Lao Yuan or Northern Thai Khmer Malays tribal peoples and other groups all of which had previously enjoyed relative autonomy and over the sizable immigrant Chinese population which was assuming an increasingly significant role in the economy Because the rulers of the Siamese state strove to incorporate these diverse peoples into a Thai national community how this community should be defined and what type of state structure should be linked with it have been dominant questions in modern Thai history Significant tensions have arisen from the efforts by members of the Thai elite to make the monarchical traditions of the Bangkok dynasty Buddhism and the central Thai language basic to Thai national culture Other tensions have arisen as monarchy military bureaucracy the Buddhist sangha business interests and elected political representatives assert or maintain an authoritative position in the state structure This book examines these tensions with reference to the major changes that have taken place in Thai society economy polity and culture in the twentieth century especially since World War II

The Bronze Age of Southeast Asia Charles Higham,1996-06-13 This book addresses the controversy over the origins of the Bronze Age of

Southeast Asia Charles Higham provides a systematic and regional presentation of the current evidence He suggests that the adoption of metallurgy in the region followed a period of growing exchange with China Higham then traces the development of Bronze Age cultures identifying regionality and innovation and suggesting how and why distinct cultures developed This book is the first comprehensive study of the period placed within a broader comparative framework **Origins of**
