La crisis de la filosofía en Richard Rorty

Daniel KALPOKAS
(Universidad de Buenos Aires-CONICET)

ABSTRACT: This paper is about the crisis of philosophy in Rorty. It has three parts: first, it summarizes the rortian criticism of epistemology; second, it distinguishes three conceptions of philosophy in Rorty's writings: academic, revolutionary and pragmatist; finally, it gives some reasons to think that the rortian refusing of cognitive and argumentative features of philosophy means the end of philosophy in itself.

RESUMEN: Este artículo se refiere a la crisis de la filosofía en Rorty. Consta de tres partes: primero, sintetiza la crítica rortiana de la epistemología; segundo, distingue tres concepciones de la filosofía en los escritos de Rorty: académica, revolucionaria y pragmatista; finalmente, se ofrecen razones para pensar que el rechazo rortiano del carácter cognitivo y argumentativo de la filosofía significa el fin de la filosofía en cuanto tal.

Difícilmente pueda negarse que en la actualidad la filosofía atraviesa una crisis de identidad. El supuesto final de la metafísica, el descrédito de los grandes pensadores como Kant, Hegel y Marx, y la importancia que la literatura ha cobrado en el seno mismo de la filosofía han desatado dudas radi-

Richard Rorty Y La Superación Pragmatista De La Epistemología:

Richard Rorty y la superación pragmatista de la epistemología Daniel Kalpokas, 2005 *Richard Rorty: La construcción pragmatista del sujeto y de la comunidad moral* Eduardo Mattio, 2009 Richard Rorty: democracia, contingencia y verdad Juan José Ramírez, 2021-09-23 La prioridad de la democracia sobre la filosofía implica una comunidad liberal que ofrece a sus ciudadanos todo el espacio posible para que desarrollen sus proyectos privados. Lo que esta comunidad requiere de esos proyectos es que reconozcan su privacidad no obstaculizando los planes alternativos de otros ciudadanos. En la medida en que se pueda constatar la convivencia de múltiples y diversos proyectos privados se dejará de insistir en la justificación de los intereses propios para ejercer algún tipo de dominación sobre los demás. En esta comunidad la cuestión no es cómo conseguir que los seres humanos vivan de acuerdo con la naturaleza sino cómo lograr que vivan con gente que tiene nociones distintas acerca del sentido de la vida humana. En este contexto la filosofía es una disciplina académica que tradicionalmente se ha atribuido la capacidad de señalar el verdadero aspecto del mundo y la orientación de las acciones humanas. Deviene para un filósofo edificante en un instrumento conversacional que permite diseñar de un modo no violento nuestro mundo y nuestras acciones. Se trata de un género literario que se libera del embrujo epistemológico y del análisis lógico para portar nuevas herramientas contingentes e ironistas que sirvan para la flexibilización de la corteza social y el estímulo de nuevas formas de identificación con otras gentes. Esta filosofía postfilosófica comporta un abandono terapéutico de cualquier pretensión ontológica epistemológica y promueve una educación sentimental con la expectativa de formar agentes de amor y agentes de justicia para llevar a cabo las tareas ciudadanas de una comunidad democrática y liberal. En este texto Juan José Ramírez ofrece una reconstrucción rigurosa y exhaustiva de la filosofía política de Richard Rorty. A lo largo de sus páginas el autor ofrece un relevamiento del corpus bibliográfico en el que el pragmatista expone las principales tesis de su liberalismo burgués posmoderno. La tesis de Juan José Ramírez demuestra el trabajo exhaustivo de una investigación minuciosa y supone una originalidad manifiesta respecto a la exposición integral del pensamiento de Richard Rorty. *Para una superación del paradigma epistemológico: Rorty a través de su doble lectura de Heidegger*. Pilar Salvá Soria, 2021-07-21 Rorty emprender un ingente intento por superar el paradigma epistemológico pretendiendo abandonar la imagen platónica heredada de la filosofía y poniendo de relieve la urgencia de resolver problemas prácticos que suceden en nuestros días ya sea en lo concerniente a nuestra relación con otros o con nosotros mismos. El viraje filosófico al que estamos a punto de asistir no tratará sin más de poner atención a los problemas actuales que nos acucian sino que se consolidará como un ejercicio continuo de desmontaje de los problemáticos supuestos ontológicos y epistemológicos en los que las teorías del canon Platón-Kant podrían haber estado ancladas durante un amplio periodo de tiempo en nuestra historia. Para esta labor Rorty emprenderá una doble lectura de Heidegger: se servirá de él para narrar su relato anti epistemológico y a su vez invertirá la propuesta del pensador alemán desde un lugar antagónico para mostrar que Heidegger sigue aprisionado en la matriz platónica. Planteamientos como

el fomento de la solidaridad humana la evitación de la crueldad así como otras propuestas de carácter político y práctico responden en este pensador al resultado de una fuerte crítica de ciertas cosmovisiones tradicionales que han arrojado problemáticas metáforas de nosotros mismos y de cómo pensarnos en nuestros días

Perception and Its Content Daniel Kalpokas, 2024-09-16 What is perception What is if any its content What is the contribution of perception to knowledge Perception and Its Content Toward the Propositional Attitude View argues that perception has conceptual propositional and world dependent content After criticizing those theories of experience that conceive it as contentless the causal linkage approach and naïve realism the book examines the nature of perceptual content Daniel Kalpokas critically scrutinizes different varieties of non conceptualism and claims that the content of experience is partly conceptual Perception and Its Content defends the propositional attitude view according to which perceptual content is propositional in nature and explores the world dependent character of such content Kalpokas holds that the content of experience is composed of concepts and the presented objects such as they appear from the subject's point of view and determined environmental conditions According to this view perception provides non inferential knowledge of the truth makers of our judgments and beliefs Furthermore and importantly that view sheds light on how the mind relates to the world
