Historic Streets and Squares Melanie Backe-Hansen,2013-11-01 In this picturesque exploration of Britain s constructed landscape an array of medieval lanes Georgian crescents and Victorian squares make an appearance together with the people famous infamous and unfamiliar who designed built and lived in them From Bedford Square and Portobello Road in London through to Grey Street in Newcastle and Charlotte Square in Edinburgh Historic Streets and Squares takes you over the doorstep of some of the country s most familiar addresses Melanie Backe Hansen takes us beyond the facades delving into the evolution of ancient streets the aspirations of builders and architects and the extraordinary lives of past residents She also reveals the fascinating stories of how some of our oldest and most valued crescents lanes and avenues have survived into the twenty first century and the twists and turns of their journey along the way Taken together these fifty examples tell us much about Britain s urban development over the centuries while also highlighting more recent attempts to preserve our architectural heritage The history of our streets avenues lanes and squares reveals more than just changes to architectural style but offers a doorway into the heritage of our nation **The History of the Royal Botanic Gardens**

Kew Ray Desmond,2007 The authorised history of the Royal Botanic Gardens Kew **Cottages and Common Fields of Richmond and Kew** John Cloake,2001 After some forty years of research the author has meticulously analysed the development of a small village and even smaller hamlet into the prosperous new town of today through detailed accounts of the dwellings and their occupants at many key dates The holdings of land are analysed to show how the original strip system consolidated into significant estates the development of local government the trades of the work people the early schools even public houses are examined using a mass of material and a wealth of illustrations and maps Crossing the River Brian Cookson,2015-06-16 Some of the most beautiful views of London are those from the many bridges which span the River Thames Millions of people cross over the Thames every day but most are too concerned with reaching their destination to notice the structures they use let alone consider their history or the risks taken in building them Triumphs of architecture and engineering London s bridges have inspired artists as diverse as Dickens and Monet From the elegant Richmond Bridge

to the Gothic quintessentially British Tower Bridge they have formed the backdrop to battles rebellions pageantry and mysteries for two millennia Crossing the River tells these stories including the assassination of a dissident with a poisoned umbrella on Waterloo Bridge the apparent suicide of God's banker an Italian financier with links to the Vatican the Masons and the Mafia and the Marchioness tragedy and its controversial aftermath Featuring illustrations and photographs old and new this book will undoubtedly increase the reader's knowledge and appreciation of the bridges and the people who built them and thereby enhance the pleasure of seeing them whether at leisure or stuck in a traffic jam *The History and Antiquities of Richmond, Kew, Petersham, Ham, Etc* Edwin Beresford Chancellor, 1894 *The History of Surrey* Edward Wedlake Brayley, 1844 **Palaces and Parks of Richmond and Kew: Richmond Lodge and the Kew palaces** John Cloake, 1995 This volume continues the story to the present day with the later history of the palace site in Richmond and of the parks the development of the Lodge in the Old Deer Park into a royal residence with its Richmond Gardens the three palaces at Kew and their gardens and the transformation of these together with the gardens of Richmond Lodge into today's Royal Botanic Gardens An intriguing chapter is devoted to the Palaces that never were the plans some modest some grandiose but never implemented *The Protected Vista* Tom Brigden, 2019-05-03 The Protected Vista draws a historical lineage from the eighteenth century picturesque to present day planning policy highlighting how the values embedded within familiar views have developed over time through appropriation by diverse groups for cultural and political purposes The book examines the intellectual construction of the protected vista questioning the values entrenched within the view by whom and how they are observed and disseminated to reveal how these views have been and continue to be part of a changing historical and political narrative With a deeper knowledge and understanding of the shifting values in urban views we will be better equipped to make decisions surrounding their protection in our urban centres The book identifies the origins of current view protection policy in the aesthetic convention of the picturesque drawing on a range of illustrated examples in the UK the US Australia Canada and South Africa to serve as a useful reference for students researchers and academics in architecture architectural conservation landscape and urban planning
