Richmond During the Revolution, 1775-83 Harry M. Ward, Harold E. Greer, 1977 **Richmond during the Revolution, 1775-83** Harry M. Ward, 1977 For Virginia and for Independence Harry M. Ward, 2011-10-14 The phrase American Revolutionary War Hero usually brings to mind George Washington John Paul Jones and other famous officers Heroes however existed throughout the ranks during the Revolution and many made their marks without ever receiving proper recognition These portraits of 28 Virginia Revolutionary soldiers expand the historical record of those who can be called a hero Whether as infantryman cavalryman marine militiaman spy frontier fighter or staffer all performed with distinction that contributed to victory A strongman who performed superhuman feats during battle a woman who fought as a soldier a militiaman who sounded a fateful alarm some gave their lives others were terribly wounded but all demonstrated heroism beyond the call of duty *Death and Rebirth in a Southern City* Ryan K. Smith, 2020-11-17 This exploration of Richmond's burial landscape over the past 300 years reveals in illuminating detail how racism and the color line have consistently shaped death burial and remembrance in this storied Southern capital Richmond Virginia the former capital of the Confederacy holds one of the most dramatic landscapes of death in the nation Its burial grounds show the sweep of Southern history on an epic scale from the earliest English encounters with the Powhatan at the falls of the James River through slavery the Civil War and the long reckoning that followed And while the region's deathways and burial practices have developed in surprising directions over these centuries one element has remained stubbornly the same the color line But something different is happening now The latest phase of this history points to a quiet revolution taking place in Virginia and beyond Where white leaders long bolstered their heritage and authority with a disregard for the graves of the disenfranchised today activist groups have stepped forward to reorganize and reclaim the commemorative landscape for the remains of people of color and religious minorities In *Death and Rebirth in a Southern City* Ryan K Smith explores more than a dozen of Richmond's most historically and culturally significant cemeteries He traces the disparities between those grounds which have been well maintained preserving the legacies of privileged whites and those that have been worn away dug up and built over erasing the memories of African Americans and indigenous tribes Drawing on extensive oral histories and archival research Smith unearths the heritage of these marginalized communities and explains what the city must do to conserve these gravesites and bring racial equity to these arenas for public memory He also shows how the ongoing recovery efforts point to a redefinition of Confederate memory and the possibility of a rebirthed community in the symbolic center of the South The book encompasses among others St John's colonial churchyard African burial grounds in Shockoe Bottom and on Shockoe Hill Hebrew Cemetery Hollywood Cemetery with its 18 000 Confederate dead Richmond National Cemetery and Evergreen Cemetery home to tens of thousands of black burials from the Jim Crow era Smith's rich analysis of the surviving grounds documents many of these sites for the first time and is enhanced by an accompanying website www

The Documentary History of the Supreme Court of the United States, 1789-1800: Suits against states Maeva Marcus, James R. Perry, 1985 Divided into two volumes The Teachings of Modern Christianity on Law Politics and Human Nature offers a landmark collection of writings from twenty Christian thinkers of the nineteenth and twentieth centuries and analyses of their work by leading contemporary religious scholars With selections from the works of Jacques Maritain Gustavo Guti rrez Dorothy Day Pope John Paul II Susan B Anthony Karl Barth Dietrich Bonhoeffer Reinhold Niebuhr Martin Luther King Jr Nikolai Berdyaev Vladimir Lossky and others Volume 2 illustrates the different venues vectors and sometimes conflicting visions of what a Christian understanding of law politics and society entails The collection includes works by popes pastors nuns activists and theologians writing from within the Catholic Protestant and Orthodox Christian traditions Addressing racism totalitarianism sexism and other issues many of the figures in this volume were the victims of church censure exile imprisonment assassination and death in Nazi concentration camps These writings amplify the long and diverse tradition of modern Christian social thought and its continuing relevance to contemporary pluralistic societies The volume speaks to questions regarding the nature and purpose of law and authority the limits of rule and obedience the care and nurture of the needy and innocent the rights and wrongs of war and violence and the separation of church and state The historical focus and ecumenical breadth of this collection fills an important scholarly gap and revives the role of Christian social thought in legal and political theory The first volume of The Teachings of Modern Christianity on Law Politics and Human Nature includes essays by leading contemporary religious scholars exploring the ideas influences and intellectual and cultural contexts of the figures from this volume

The Rise of the Urban South Lawrence H. Larsen, 2021-12-14 Operating under an outmoded system of urban development and faced by the vicissitudes of the Civil War and Reconstruction southerners in the nineteenth century built a network of cities that met the needs of their society In this pioneering exploration of that intricate story Lawrence H Larsen shows that in the antebellum period southern entrepreneurs built cities

in layers to facilitate the movement of cotton First came the colonial cities followed by those of the piedmont the New West the Gulf Coast and the interior By the Civil War cotton could move by a combination of road rail and river through a network of cities for example from Jackson to Memphis to New Orleans to Europe In the Gilded Age building on past practices the South continued to make urban gains Men like Henry Grady of Atlanta and Henry Watterson of Louisville used broader regional objectives to promote their own cities Grady successfully sold Atlanta one of the most southern of cities demographically as a city with a northern outlook Watterson tied Louisville to national goals in railroad building The New South movement did not succeed in bringing the region to parity with the rest of the nation yet the South continued to rise along older lines By 1900 far from being a failure in terms of the general course of American development the South had created an urban system suited to its needs while avoiding the promotional frenzy that characterized the building of cities in the North Based upon federal and local sources this book will become the standard work on nineteenth century southern urbanization a subject too long unexplored The War for Independence and the Transformation of American Society Harry M. Ward,1999 Spanning the period 1775 to 1783 this book is a synthesis which assesses the impact of war upon the American people **Ghost Talk** Robert H. Coddington,2001 There have been many books written about troubled spirits who are trapped on earth and who continue to haunt the living Ghost Talk goes one step further Robert Coddington and his psychic wife Marianne know firsthand that ghosts are among us During a ghost hunt in Richmond Virginia Marianne s body first became the medium for the lost spirit of a teenager named Angelica who forever changed their beliefs about life and death In this spellbinding trip to the other side readers will meet the Coddingtons ghostly subjects in their own words and learn of the Coddingtons extraordinary methods for contacting the lost and frightened souls of the dead Readers will share in another incredible experience how earthbound spirits unaware of their mortal deaths and still trapped on this plane of existence can be guided to the Light The Papers of General Nathanael Greene Richard K. Showman,Dennis M. Conrad,Roger N. Parks,2015-12 The seventh volume of the Papers of Nathanael Greene documents a crucial period of the American Revolution in the South In the first months of 1781 Nathanael Greene who had taken command of the Southern Army only weeks before initiated the campaign that would ultimately free the South from British occupation These months saw the pivotal engagement at Cowpens the Race to the Dan in which Greene s army marched the breadth of North Carolina with the British in close pursuit and the climactic battle of Guilford Court House In March 1781 Greene decided to break off his pursuit of Lord Cornwallis s force in North Carolina and instead march into South Carolina to challenge British control there This decision among others made during this critical period established Greene s reputation as a brilliant military strategist The documents in this volume provide new insight into how and why Greene chose as he did
