Riddle Of Power Presidential Leadership From Truman To Bush:

The Riddle of Power Robert Shogan,1992 [The Presidency and the Political System](#) Michael Nelson,2020-07-17 The Presidency and the Political System showcases the best of presidential studies and research with top notch presidency scholars writing specifically for an undergraduate audience Michael Nelson rigorously edits each contribution to present a set of analytical yet accessible chapters and offers contextual headnotes introducing each essay Chapters represent the full range of topics institutions and issues relevant to understanding the American presidency covering approaches to studying the presidency elements of presidential power presidential selection presidents and politics and presidents and government This Twelfth Edition fully incorporates coverage of the Trump administration [The Sixteen-Trillion-Dollar Mistake](#) Bruce S. Jansson,2002-09-04 Choices about budget priorities are arguably the most important made by the federal government profoundly affecting the well being of citizens Bruce Jansson documents how presidents from FDR to Clinton have made ill advised choices that wasted trillions of dollars Going beyond charges of corruption or bureaucratic waste the book is an eye opening expos revealing innumerable useless projects military as well as civilian unnecessary tax concessions and the use of interest payments to cover deficit spending among other costly mistakes Using Office of Management and Budget projections through 2004 Jansson shows how the madness continues and how an informed electorate can put an end to it **The Riddle of Power** Robert Shogan,1991 A political reporter reviews 9 U S presidencies beginning with Truman and assesses what each achieved **George Bush and the Guardianship Presidency** David Mervin,2016-07-27 A clearly written provocative analysis of the Bush presidency that draws on extensive interviews with White House staff The Budget crisis of 1990 and the Gulf war receive particular attention as defining events in Bush s incumbency demonstrating the strengths and weaknesses in his approach to presidential leadership This book not only casts light on Bush s record in office it also helps to resolve methodological problems that arise in the study of the presidency generally **Leadership's Adversary** Michael Wade,2002 Managing employees is one of the most challenging tasks imaginable and the relationship between supervisor and worker is not always smooth Often this situation occurs because of poor management style which overemphasises either results or personal relationships This book presents an analysis of different managing methods and tries to balance the jobs of leading and managing employees [The Presidency of Richard Nixon](#) Melvin Small,1999 A lively anecdotal account features every facet of Nixon s controversial administration just in time for the 25th anniversary of his history making resignation from the presidency 23 photos **Gerald Ford and the Challenges of the 1970s** Yanek Mieczkowski,2005-04-22 A reappraisal of the brief presidency of Gerald Ford called to leadership in the midst of scandal stagflation and an energy crisis For many Americans Gerald Ford evokes an image of either an unelected president who abruptly pardoned his corrupt predecessor or an accident prone klutz spoofed on Saturday Night Live In this book Yanek Mieczkowski reexamines Ford s two and a half years in office showing that his presidency successfully confronted the most

vexing crisis of the postwar era Viewing the 1970s primarily through the lens of economic events Mieczkowski argues that Ford's understanding of the national economy was better than any modern president's that he oversaw a dramatic reduction of inflation and that he attempted to solve the energy crisis with judicious policies Throughout his presidency Ford labored under the legacy of Watergate Democrats scored landslide victories in the 1974 midterm elections and within an anemic Republican Party the right wing challenged Ford's leadership even as pundits predicted the GOP's death Yet Ford reinvigorated the party and fashioned a 1976 campaign strategy against Jimmy Carter that brought him from thirty points behind to a dead heat on election day Drawing on numerous personal interviews with former President Ford cabinet officials and members of the Ninety-fourth Congress Mieczkowski presents the first major work on Ford in more than a decade combining the best of biography and presidential history to paint an intriguing portrait of a president his times and his legacy This ambitious work calls for a reexamination of the Ford presidency in light of the formidable challenges he faced upon taking office A welcome and important addition to the literature on the Ford presidency Library Journal

A Noble Calling William Levantrosser, Rosanna Perotti, 2004-04-30 This book presents essays by cabinet members world leaders and scholars examining the formation of President George H W Bush's character and the factors that influenced his leadership as a legislator a diplomat and an American president In many ways the presidency of George H W Bush was a transitional presidency The end of the Cold War ushered in a new world with the United States as the dominant power While many might credit his predecessor Ronald Reagan as the one who brought an end to the conflict with the former Soviet Union George H W Bush was an associate president serving as Vice President during Reagan's two terms While supporting the work of the Reagan administration and therefore providing some continuity with it President Bush had a different style of leadership and new priorities to establish This volume of essays by cabinet members world leaders and scholars examine the formation of Bush's character and the factors that influenced his leadership as a legislator a diplomat and an American president His family background his military service his life experience before going into public life and the various positions in government service are all reviewed by friends colleagues and objective observers The end result is the most detailed examination ever attempted of Bush's character and its impact on his career

Politics, Power and Policy Making Mark E Rushefsky, Kant Patel, 2016-09-16 Tracking the issues of healthcare reform through the tumultuous 1990s this work opens a window on the changing dynamics of American politics from the Clinton inauguration in January 1993 through the Republican revolution of 1995 and the 1996 presidential race
