Riddles of Belonging Christi A. Merrill, 2009 Can the subaltern joke Christi A Merrill answers by invoking riddling oral based fictions from Hindi Rajasthani Sanskrit and Urdu that dare to laugh at what traditions often keep hidden whether spouse abuse ethnic violence or the uncertain legacies of a divinely wrought sex change Herself a skilled translator Merrill uses these examples to investigate the expectation that translated work should allow the non-English speaking subaltern to speak directly to the English speaking reader She plays with the trope of speaking to argue against treating a translated text as property as a singular material object to be carried across as *trans latus* implies She refigures translation as a performative telling in turn from the Hindi word *anuvad* to explain how a text might be multiply possessed She thereby challenges the distinction between original and derivative fundamental to nationalist and literary discourse humoring our melancholic fixation on what is lost Instead she offers strategies for playing along with the subversive wit found in translated

texts Sly jokes and spirited double entendres she suggests require equally spirited double hearings The playful lessons offered by these narratives provide insight into the networks of transnational relations connecting us across a sea of differences Generations of multilingual audiences in India have been navigating this Ocean of the Stream of Stories since before the 11th century arriving at a fluid sense of commonality across languages Salman Rushdie is not the first to pose crucial questions of belonging by telling a version of this narrative the work of non English language writers like Vijay Dan Detha whose tales are at the core of this book asks what responsibilities we have to make the rights and wrongs of these fictions come alive age after age **A New Dictionary of the English Language** Charles Richardson (LL.D.),1837
