The First Crusade was arguably one of the most significant events of the Middle Ages It was the only event to generate its own epic cycle the Old French Crusade Cycle The central trilogy at the heart of the Cycle describes the Crusade from its beginnings to the climactic battle of Ascalon comprising the Chanson d Antioche the Chanson des Ch tifs and the Chanson de J rusalem This translation of the Ch tifs and the J rusalem accompanies and completes the translation of the Antioche and makes the trilogy available to English readers in its entirety for the first time The value of the trilogy lies above all in the insight it gives us to medieval perceptions of the Crusade The events are portrayed as part of a divine plan where even outcasts and captives can achieve salvation through Crusade This in turn underlies the value of the Cycle as a recruiting and propaganda tool The trilogy gives a window onto the chivalric preoccupations of thirteenth century France exploring concerns about status heroism and defeat It portrays the material realities of the era in vivid detail the minutiae of combat smoke filled halls feasts prisons and more And the two newly translated poems are highly entertaining as well featuring a lubricious Saracen lady not in the first flush of youth a dragon inhabited by a devil marauding monkeys miracles and much more The historian will find little new about the Crusade itself but abundant material on how it was perceived portrayed and performed The translation is accompanied by an introduction examining the origins of the two poems and their wider place in the cycle It is supported by extensive footnotes a comprehensive index of names and places and translations of the main variants **Working Papers: The political problems of poly-ethnic states** ,1961 Indo-iranica ,1961 **Sarah Anderson's Travel Companion** Sarah Anderson,2004 For those who want to find out more about Africa and the Middle East than can be found in a normal guidebook Sarah Anderson s Travel Companion offers a delightfully informed personal selection including travel literature illustrated volumes biographies and memoirs and more Travelers and readers can discover novels set in Kenya cultural studies of Syria or guidebooks best suited to their tastes This is an indispensable companion for every serious reader of travel writing **A Tower in a Wall** Alexander Maitland,1982 **Papers Presented at the I.P.S.A. Book Three of the Corpus Tibullianum Robert Maltby,2021-08-25 This book presents the first commentary on the whole of Tibullus 3 in English It consists of a text translation introduction and commentary The text rests on the author s autopsy of the most important manuscripts of Tibullus The prose translation is as literal as possible in order to bring out clearly the meaning of the Latin The detailed line by line commentary serves to clarify the language and literary associations of the poems and to back up the theory that the whole work was composed by a single unitary author It argues that what were previously thought of as separate sections of the book composed by different authors at different times were in fact the product of a single anonymous poet impersonating or adopting the mask of different characters in each section Lygdamus poems 1 6 a young Tibullus 7 a commentator on Sulpicia s affair with Cerinthus 8 12 Sulpicia 13 18 and Tibullus 19 20 The close connections and associations between these different sections and their use of the same Augustan intertexts are shown to favour a unitary interpretation of the work The main literary inspiration for the work this volume argues comes from the elegists of the Augustan period but its date of composition could have been late in the first century AD linking it with the other pseudepigraphical writings of this century such as the Virgilian and Ovidian Appendices
