Plumes Richard E. Ernst, Kenneth L. Buchan, 2001-01-01 Manual of Childhood Infections Mike Sharland, Andrew Cant, Delane Shingadia, 2011-04-07 Now in its third edition and endorsed by both the Royal College of Paediatrics and Child Health and the European Society of Pediatric Infectious Diseases the Manual of Childhood Infections known by its readers as The Blue Book is a simple to use evidence based and practical handbook on how to recognise investigate and manage both common and rare infectious diseases in children and babies The handbook is divided into two sections the first of which is syndrome based and covers all the key diagnosis and management features of common childhood infections such as sepsis meningitis and pneumonia The second section lists specific organisms and provides all the key points in the epidemiology clinical features and management for all the key infections Each chapter includes key references for further reading and suggestions for future research Packed with helpful tips and practical guidance including lists of alternative diagnoses and useful tables the handbook also features a neonatal and paediatric formulary of around 100 of the commonest used antimicrobials based on the BNF for Children but presented in a simple easy to use weight based dosing regimen Common side effects and cautions are also included The book is aimed at both junior trainees looking after ill children and more senior colleagues who want to check their management plans and is written for both a UK and European audience reflecting the range of clinical practice across Europe while being clear where the evidence base is strongest Lands and Peoples: Central and South America, Antarctica , 2005 **Continental Rifts: Evolution, Structure, Tectonics** K.H.

Olsen, 1995-11-24 This multi author book has been prepared by an international group of geoscientists that have been active in rift research since the late 1960s In 1984 an informal grass roots study group was initiated to compare individual research

results and to explore in greater depth the apparent differences and similarities in the interpretations from various rift systems The group became known as the CREST working group an acronym of Continental Rifts Evolution Structure and Tectonics which not surprisingly became the title of this book Continental Rifts Evolution Structure Tectonics presents an overview of the present state of understanding and knowledge of the processes of continental rifting from a multidisciplinary lithospheric scale perspective The chapters have been structured on each rift system in approximately the same synoptic sequence so as to facilitate comparisons of rifts by the reader The book complements its predecessors by presenting a more unified picture It succeeds in presenting the status of a representative majority of the continental rift systems that have been at the forefront of recent research For students and experienced researchers alike this book will be of significant value in assessing the current state of knowledge and in serving as a framework for future research

Superplumes: Beyond Plate Tectonics David A. Yuen, Shigenori Maruyama, Shun-ichiro Karato, Brian F. Windley, 2007-08-26 This abundantly illustrated book provides a concise overview of our understanding of the entire mantle its evolution since early differentiation and the consequences of superplumes for earth surface processes The book's balanced authorship has produced a state of the science report on the emerging concept of superplumes This presents a new concept to explain catastrophic events on Earth through geologic time

Healing the Jewish-Christian Rift Ron Miller, Laura Bernstein, 2006 GROWING BEYOND OUR WOUNDED HISTORY **Biosecurity and Bioterrorism** Jeffrey Ryan, Jan Glarum, 2011-08-30 Biosecurity and Bioterrorism is the first book to take a holistic approach to biosecurity with coverage of pathogens prevention and response methodology The book is organized into four thematic sections Part I provides a conceptual understanding of biowarfare bioterrorism and the laws we have to counteract this Part II investigates known bioagents and the threat from emerging diseases Part III focuses on agricultural terrorism and food security Part IV outlines international US and local initiatives for biodefense and biosecurity Case studies illustrate biodefense against both intentional terrorism and natural outbreaks The authors bring an extraordinary combination of experience in academia and the clinical world as well as real world experience in technical and practical matters to their writing They make technical material clear and fascinating for readers with a basic knowledge of biology Ryan and Glarum address the hazards in the context of vulnerability assessments and the planning strategies government and industry can take to prepare for and respond to such events How are these agents used in biowarfare How likely are we to face either a natural outbreak or intentional human animal infection How can we prepare for this effectively

Reserves, finance and general , 1988 Readers' Guide to Periodical Literature , 1910 *Readers' Guide to Periodical Literature* Anna Lorraine Guthrie, Bertha Tannehill, Neltje Marie Tannehill Shimer, 1925 An author subject index to selected general interest periodicals of reference value in libraries

All Hands , 1959 Continental Shelves of the World F.L. Chiocci , A.R. Chivas , 2014-11-06 The world's continental shelves are the sites of vast resources of food energy and minerals the exploitation of which is continuously increasing Fluctuating global sea levels throughout the Quaternary period produced multiple transgressive and regressive cycles that profoundly affected and shaped these shelves The complex interactions among climate sea level tectonics oceanography and sediment input have formed distinctive sediment packages on each shelf and provide a guide to the interpretation of older shelf sequences throughout the geological record This Memoir compiles studies on 23 selected shelves from all the continents focusing on their evolution and examining the patterns of sedimentation during the past approximately 125 000 years In addition to providing basic background information for each area the chapters consider

specific aspects of continental shelf research from seismic stratigraphy to geomorphology from palaeoceanography to palaeo sea level reconstruction and from palaeontology to geochemistry
