Generational Connecting is a significant addition to the body of research on family connections. The three major areas of generational and intergenerational connections include theoretical and conceptual perspectives, connections within the family, and connections outside the family. As the use of families as support networks for individual members increases, this timely book will be an invaluable aid to educators, students, and researchers concerned about families and familial and non-familial relationships. Counselors and therapists will value this enlightening book with its diverse theoretical and conceptual perspectives on kinship, intergenerational solidarity, and relations, social supports, and cross-national perspectives on family connections.

**A Theory of Mediators' Ethics** Omer Shapira, 2016-03-14. Many aspects relating to the conduct of mediation are left to mediator choice, but mediators often lack adequate guidance on how their discretion ought to be exercised. In this book, Omer Shapira identifies the ethical norms that govern mediators' conduct. Adopting a professional ethics perspective on the basis of role morality and applying it to a core definition of mediators' role, Shapira argues that all mediators are placed in ethical relationships with mediation parties, the mediation profession, the public, and their employers or principals that produce ethical obligations. The book goes on to explore the legitimate expectations of these groups and analyzes existing codes of conduct for mediators. Shapira constructs a theory of mediators' ethics that produces a proposed model code of conduct for mediators, a detailed set of norms of mediators' ethics that can be rationally justified and defended with regard to mediators at large.

Ethics in Real Estate Stephen E. Roulac, 2013-04-17. *Ethics*. Certainly, our industry is bound by the formal constraints of law in national, state, and local jurisdictions. What this volume reminds us, however, is that those laws are only as good as the personal sea of ethics in which each of us operates. **THE ETHICS OF PROPERTY INVOLVEMENTS** Stephen E. Roulac. The Roulac Group, San Rafael, California, and Visiting Professor, University of Ulster. Ethical considerations are a dominant theme in the management literature. As ethics and ethical issues surround our lives, ethics has become one of the most rapidly growing areas of management research, with over 800 articles and 1,400 books appearing since 1990. Schminke, Ambrose, and Miles, 1998. Compared to business and business management, however, the research and writing on real estate in an ethics context is in the very early stages of development. The lack of a developed literature on ethics in real estate is reflected in the response by one highly placed executive to my solicitation for funding to support the publication of this volume: "I didn't know there were any ethics in real estate." Fortunately, the Summa Corporation and the American Real Estate Society believe in the importance of ethics in real estate, and their cosponsorship has made possible this special monograph on the subject of *Ethics in Real Estate*. The support of the Summa Corporation and the American Real Estate Society of this pioneering volume is warmly and

appreciatively acknowledged
