Right To Life In Japan:

The Right to Life in Japan Noel Williams, 2002-09-11 The Right to Life in Japan is a study that brings new perspectives to bear on an extremely important topic for all those facing the moral dilemmas of such issues as abortion and the death penalty. It also helps to fill a gap in life in social science and law studies of contemporary Japan. Noel Williams approaches the right to life in Japan from a legal viewpoint via a broad range of issues such as abortion, suicide, capital punishment and death from overwork. Following a discussion of law and rights in Japan from an historical perspective, the author examines the question of what life is in contemporary Japan and focuses on problematic areas which have arisen in life issues including infringements of the right to life within the modern company organization and by the state as well as the question of the equality of the right to life.

Capital Punishment in Japan Schmidt, 2021-10-01 Capital punishment has been carried out in Japan since ancient times. Although ancient Japan uniquely suspended executions for several centuries towards the end of the first millennium, today the death penalty is firmly established in Japan. This volume explores the current state of capital punishment, the domestic discussion on the subject, and the influence of the political orientations of the governments of recent years. The treatise is of current interest, especially because of the Aum cult whose leader Shoko Asahara is at present tried in Tokyo. If found guilty, he may be sentenced to death. After a three-year interval between 1989 and 1993, Japan is nowadays undergoing a capital punishment renaissance with 39 executions between 1993 and 2000.
