Moral Institutions Mario I. Juarez-Garcia, 2025-03-14 Philosophy Politics and Economics PPE is a promising approach to understanding our complex world and addressing contemporary social issues But what is it This textbook aims to straightforwardly explain what PPE is to those who have never heard about it The book uses a unified PPE approach that differs from a simple concatenation of moral philosophy political science and economics so that the reader can appreciate PPE s distinctiveness It makes salient the virtues of PPE as a unified approach through a study of two institutions that have been fundamental in making the world a better place governments and markets By the end the reader will be confronted with the difficulty of finding the right answer to unprecedented questions in a morally diverse society Hopefully readers will be convinced that diversity of our liberal societies is what has made Open Societies peaceful and prosperous despite the permanent frustration that results from living in a complex dynamic and uncertain world *Fur Seal Arbitration* ,1895
