Claims of Dual Nationals and the Development of Customary International Law Mohsen Aghahosseini, 2007-07-31 The law governing the international claims of dual nationals relates to and is influenced by the wider subject of the individual s standing at the international level But while the latter had as a result of modern trends in human rights hugely improved as from the middle of the last century no occasion to test its impact on such claims had arisen prior to the 1980s when the Iran United States Claims Tribunal justifiably described as the most influential arbitral institution in the history of international adjudication first became involved with the issue The significance of the Tribunal's jurisprudence on the subject is not however limited to the judicial support it gives to the international rights of the individual Having made its basic findings of law on the subject the Tribunal has proceeded to apply them for some twenty years to a host of Cases of widely different characters The result is a wealth of material comprehensively reviewed in this book for the first time which is likely to be of some benefit to those interested in this area of international law After the Nation? K. Breen.S. O'Neill.2010-10-20 Explores the ways in which the nation state and nationalism are challenged by contemporary realities This volume addresses changes to our understanding of national sovereignty problems posed by violent conflict between rival national projects the feasibility of postnationalist democracy and citizenship and the debate over global justice Bringing International Fugitives to Justice David A. Citizenship Peter J. Spiro, 2020 Almost everyone has citizenship and yet it has emerged as one of the most hotly contested issues of contemporary politics Even as cosmopolitan elites and human rights advocates aspire to some notion of global citizenship populism and nativism have re ignited the importance of national citizenship Either way the meaning of citizenship is changing Citizenship once represented solidarities among individuals committed to mutual support and sacrifice but as it is decoupled from national community on the ground it is becoming more a badge of privilege than a marker of equality Intense policy disagreement about whether to extend birthright citizenship to the children of unauthorized immigrants opens a window on other citizenship related developments At the same time that citizenship is harder to get for some for others it is literally available for purchase The exploding incidence of dual citizenship meanwhile is moving us away from a world in which states jealously demanded exclusive affiliation to one in which individuals can construct and maintain formal multinational identities Citizenship does not mean the same thing to everyone nor have states approached citizenship policy in lockstep Rather global trends point to a new era for citizenship as an institution In Citizenship What Everyone Needs to Know legal scholar Peter J Spiro explains citizenship through accessible terms and questions what citizenship means how you obtain citizenship and how you lose it how it has changed through history what benefits citizenship gets you and what obligations it extracts from you all in comparative perspective He addresses how citizenship status affects a person s rights and obligations what it means to be stateless the refugee crisis and whether or not countries should terminate the citizenship of terrorists He also examines alternatives to national citizenship including sub national and global citizenship and the phenomenon of investor citizenship Spiro concludes by considering whether nationalist and extremist politics will lead to a general retreat from state based forms of association and the end of citizenship as we know it Ultimately Spiro provides historical and critical perspective to a concept that is a part of our everyday discourse providing a crucial contribution to our understanding of a central organizing principle of the modern world In From the Margins ,2006-01-01 This book focuses at the margins of adult education work and civil society Rather than focusing on active participants and active participation the objective is to scrutinize the whole adult population in terms of participation and to pay special attention to those who are so easily left out of studies concerning adult education learning at work or active participation in civil society The aim of the book is to bring into the discussion the views of those who do not find attending

adult education possible and who thus form a challenge for the promotion of active citizenship In the collection of articles researchers from various disciplines and with cross disciplinary interests in adult education and marginalisation meet and discuss with each other within and beyond their own disciplines **Acquisition and Loss of Nationality Rainer** Bauböck, Eva Ersbøll, Kees Groenendijk, Harald Waldrauch, 2006 Nationality and citizenship have been subjects of stormy policy debates in many EU countries in recent years Concerns over the integration of immigrants but also attempts to forge links with emigrants have led to changes in the laws regulating loss and acquisition of nationality and citizenship This title outlines the research conducted by a team of 30 researchers into the nationality laws and their implementation in 15 EU member states Acquisition and Loss of Nationality Volume 1 presents the results of a systematic comparative analysis It uses a novel methodology that permits a detailed comparison how nationality can be acquired or lost across all 15 countries The results show divergent trends towards liberalization in some countries and new restrictions of access to nationality in others The book examines the impact of international and European law presents statistical data on naturalization and assesses administrative practices Although the European Union has no formal competence in regulating nationality the nationality laws of member states are linked to each other via the common citizenship of the Union Member States should therefore agree on common norms for their nationality laws The book contains detailed policy recommendations based on the idea that stakeholders in the political community should be given access to nationality Studies of each country's nationality law are published separately in http www aup nl do php a show visitor book Volume 2 Additional material including detailed statistics and further comparative analyses of legal regulations of nationality is available at http www imiscoe org www imiscoe org Volume 1 2 are also available as a set http www aup nl do php a show visitor book isbn 9789053569498 l 2 click here for more information This is the most comprehensive comparative study of the legal status of nationality so far and it will become an indispensable source of reference for further research For more information see http www imiscoe org natac Contingent Citizenship Sandra Mantu, 2015-09-07 In Contingent citizenship Sandra Mantu http www imiscoe org natac examines the changing rules of citizenship deprivation in the UK France and Germany from the perspective of international and European legal standards In practice two grounds upon which loss of citizenship takes place stand out fraud in the context of fraudulent acquisition of nationality and terrorism in the context of national security Newly naturalised citizens and citizens of immigrant origin are mainly targeted by these measures The resurrection of the importance attached to loyalty as the citizen's main duty towards his her state shows that the rules on loss of citizenship are capable of expressing ideals of membership and identity while the citizenship status of certain citizens remains contingent upon meeting these ideals The Oxford Handbook of Transformations of the State Stephan Leibfried, Evelyne Huber, Matthew Lange, Jonah D. Revoking Citizenship Ben Herzog, Ediberto Román, 2017-03. In Revoking Citizenship Ben Herzog reveals America's long history of stripping citizenship away from both naturalized immigrants and native born citizens. Tracing this history from the nation's beginnings through the War on Terror Herzog locates the sociological political legal and historic meanings of revoking citizenship Why when and with what justification do states take away citizenship from

their subjects Using the history and policies of revoking citizenship as a lens the book examines describes and analyzes the complex relationships between citizenship immigration and national identity **Bevond Citizenship** Peter I. Spiro, 2008-02-01 American identity has always been capacious as a concept but narrow in its application Citizenship has mostly been about being here either through birth or residence. The territorial premises for citizenship have worked to resolve the peculiar challenges of American identity But globalization is detaching identity from location What used to define American was rooted in American space Now one can be anywhere and be an American politically or culturally Against that backdrop it becomes difficult to draw the boundaries of human community in a meaningful way Longstanding notions of democratic citizenship are becoming obsolete even as we cling to them Beyond Citizenship charts the trajectory of American citizenship and shows how American identity is unsustainable in the face of globalization Peter J Spiro describes how citizenship law once reflected and shaped the American national character Spiro explores the histories of birthright citizenship naturalization dual citizenship and how those legal regimes helped reinforce an otherwise fragile national identity But on a shifting global landscape citizenship status has become increasingly divorced from any sense of actual community on the ground As the bonds of citizenship dissipate membership in the nation state becomes less meaningful The rights and obligations distinctive to citizenship are now trivial Naturalization requirements have been relaxed dual citizenship embraced and territorial birthright citizenship entrenched developments that are all irreversible Loyalties meanwhile are moving to transnational communities defined in many different ways by race ethnicity gender religion age and sexual orientation These communities Spiro boldly argues are replacing bonds that once connected people to the nation state with profound implications for the future of governance Learned incisive and sweeping in scope Beyond Citizenship offers a provocative look at how globalization is changing the very definition of who we are and where we belong
