Rights And Advocacy For Retarded People:

Rights and Advocacy for Retarded People Stanley S. Herr, 1983 **From Rights to Realities** Stanley S. Herr, 1979

The 1970s was a decade for discovery of the enforceable legal rights of disabled people. What does the coming decade hold in store? Where once disabled people were a silent minority, their consumer organizations and self-help groups will increasingly assert claims of right, not charity. The International Year of the Disabled will offer a time to formulate specific agendas to breathe life into noble declarations of principle and just statements of law. The International Year will also mark the tenth anniversary of the United Nations Declaration on the Rights of Mentally Retarded Persons. Will these events provoke a searching reassessment of existing legal protection at national, state, and local levels? Will this focus attention on governmental and private compliance with evolving international norms of decent treatment for and social integration of retarded persons? This paper examines some ways of strengthening legal advocacy services as a means of keeping society's promises to disabled people and turning broad rights into realities.

The Human Rights of Persons with Intellectual Disabilities Stanley S. Herr, Lawrence Ogalthorpe Gostin, Harold Hongju Koh, 2003. Inequality Marcia H. Rioux. *Programs for the Handicapped*, 1983. *Making All the Difference* Martha Minow, 2016-10-01. Should a court order medical treatment for a severely disabled newborn in the face of the parents' refusal to authorize it? How does the law apply to a neighborhood that objects to a group home for developmentally disabled people? Does equality mean treating everyone the same even if such treatment affects some people adversely? Does a state requirement of employee maternity leave serve or violate the commitment to gender equality? Martha Minow takes a hard look at the way our legal system functions in dealing with people on the basis of race, gender, age, ethnicity, religion, and disability. Minow confronts a variety of dilemmas of difference resulting from contradictory legal strategies: strategies that attempt to correct inequalities by sometimes recognizing and sometimes ignoring differences. Exploring the historical sources of ideas about difference, she offers challenging alternative ways of conceiving of traits that legal and social institutions have come to regard as different. She argues in effect for a constructed jurisprudence based on the ability to recognize and work with perceptible forms of difference. Minow is passionately interested in the people, different people, whose lives are regularly misshaped and misdirected by the legal system's ways of handling them. Drawing on literary and feminist theories and the insights of anthropology and social history, she identifies the unstated assumptions that tend to regenerate discrimination through the very reforms that are supposed to eliminate it. Education for handicapped children, conflicts between job and family responsibilities, bilingual education, Native American land claims: these are among the concrete problems she discusses from a fresh angle of vision. Minow firmly rejects the prevailing conception of the self that she believes underlies legal doctrine: a self seen as either separate and autonomous or else disabled and incompetent in some way. In contrast, she regards the self as being realized through connection, capable of shaping an identity only in relationship to other people. She shifts the focus for problem solving from the different person to

the relationships that construct that difference and she proposes an analysis that can turn difference from a basis of stigma and a rationale for unequal treatment into a point of human connection The meanings of many differences can change when people locate and revise their relationships to difference she asserts The student in a wheelchair becomes less different when the building designed without him in mind is altered to permit his access Her book evaluates contemporary legal theories and reformulates legal rights for women children persons with disabilities and others historically identified as different Here is a powerful voice for change speaking to issues that permeate our daily lives and form a central part of the work of law By illuminating the many ways in which people differ from one another this book shows how lawyers political theorist teachers parents students every one of us can make all the difference **Dictionary of Mental Handicap** Mary P.

Lindsey,2002-03-11 Over recent years the policy of isolating and institutionalizing mentally handicapped people has gradually been dismantled and a major shift to community care has taken place But integration within the general community and access to special services has greatly increased the number of people with a need to know about mental handicap Each profession or discipline has its own terminology nowadays one must be conversant with all of them In this comprehensive dictionary Mary Lindsey has brought together terms and concepts from a wide variety of fields Approximately 2 400 entries are included ranging in length from concise explanations to encyclopaedic essays but always expressed in clear simple language Where appropriate suggestions for further reading are made and possible sources of further information given An extensive system of cross references leads the interested reader further and makes valuable connections between entries The medical aspects of mental handicap its causes prognoses and treatments are of course covered in detail But although the cause of mental handicap may be medical subsequent interventions may be sociological psychological educational medical paramedical or psychiatric This is reflected in the choice of entries making the Dictionary an invaluable source of reference for all those involved with mentally handicapped people in any capacity whatsoever **Encyclopedia of**

Wettstein, 2013-06-29 I OVERVIEW Legal Issues in Mental Health Care is aimed at the mental health clinician who provides services on either an inpatient or an outpatient basis It is written for psychiatrists psychologists social workers nurses and other therapists to help them understand and manage legal issues in their daily practice The issues covered apply to therapists who work for an agency or hospital as well as those who work independently The book is meant to serve as a handbook but it also provides a quick resource as legal questions arise which are related to the obligations of the therapist It addresses the legal issues that confront the clinician It is not aimed at the clinician who specializes in forensic mental health issues because the information provided does not reach that level of detail or sophistication Nor is it aimed at the scholar because our goal is to provide practical information in a clear and concise format We have not addressed the wide array of laws protecting the mentally disabled from discrimination most notably the Americans with Disabilities Act 1990 and the Fair Housing Act Most states also have laws that prohibit discrimination in employment services and housing These issues are beyond the scope of this book because we are addressing the legal issues that arise in providing care rather than the rights of mentally disabled
