Rights Of Students And Teachers Resolving Conflicts In The School Community:

The Rights of Students and Teachers Louis Fischer, David Schimmel, 1982 This book discusses the civil rights of students and teachers in relation to such topics as racial discrimination free speech and personal appearance *The Case for Contention* Jonathan Zimmerman, Emily Robertson, 2017-04-24 From the fights about the teaching of evolution to the details of sex education it may seem like American schools are hotbeds of controversy But as Jonathan Zimmerman and Emily Robertson show in this insightful book it is precisely because such topics are so inflammatory outside school walls that they are so commonly avoided within them And this they argue is a tremendous disservice to our students Armed with a detailed history of the development of American educational policy and norms and a clear philosophical analysis of the value of contention in public discourse they show that one of the best things American schools should do is face controversial topics dead on right in their classrooms Zimmerman and Robertson highlight an aspect of American politics that we know all too well We are terrible at having informed reasonable debates We opt instead to hurl insults and accusations at one another or worse sit in silence and privately ridicule the other side Wouldn't an educational system that focuses on how to have such debates in civil and mutually respectful ways improve our public culture and help us overcome the political impasses that plague us today To realize such a system the authors argue that we need to not only better prepare our educators for the teaching of hot button issues but also provide them the professional autonomy and legal protection to do so And we need to know exactly what constitutes a controversy which is itself a controversial issue The existence of climate change for instance should not be subject to discussion in schools scientists overwhelmingly agree that it exists How we prioritize it against other needs such as economic growth however that is worth a debate With clarity and common sense wisdom Zimmerman and Robertson show that our squeamishness over controversy in the classroom has left our students woefully underserved as future citizens But they also show that we can fix it if we all just agree to disagree in an atmosphere of mutual respect

Educators, Children, and the Law Lynn Sametz, Caven S. Mcloughlin, 1985 *Managing Violence in Schools* Helen Cowie, Dawn Jennifer, 2007-10-18 This timely text written by experts in research practice and training in the field proposes a whole school community approach to the reduction and prevention of school violence Underpinned by recent research findings the book is illustrated throughout with case studies examples of good practice in action ideas and resources including exercises activities and checklists The book covers personal characteristics of perpetrators victims and bystanders role of the family ethos and culture of the school quality of interpersonal relationships at school quality of the learning environment of the school links between school and community The authors approach aims to promote non violence improve the climate of the school enhance relationships among staff pupils and parents and to support the emotional health and well being of all members of the school community Strategies include preventative methods provision for the individual needs of pupils and peer support emotional literacy and restorative practice The authors also provide guidance on how to create a

shared understanding of school violence how to prepare for change and how to carry out an effective needs analysis in order to successfully address the issue This book is essential for practitioners students in education and school management as well as local educational advisors **The SAGE Encyclopedia of Classroom Management** W. George Scarlett,2015-02-24

A teacher's ability to manage the classroom strongly influences the quality of teaching and learning that can be accomplished Among the most pressing concerns for inexperienced teachers is classroom management a concern of equal importance to the general public in light of behavior problems and breakdowns in discipline that grab newspaper headlines But classroom management is not just about problems and what to do when things go wrong and chaos erupts It's about how to run a classroom so as to elicit the best from even the most courteous group of students An array of skills is needed to produce such a learning environment The SAGE Encyclopedia of Classroom Management raises issues and introduces evidence based real world strategies for creating and maintaining well managed classrooms where learning thrives Students studying to become teachers will need to develop their own classroom management strategies consistent with their own philosophies of teaching and learning It is hoped that this work will help open their eyes to the range of issues and the array of skills they might integrate into their unique teaching styles Key Features 325 signed entries organized in A to Z fashion across two volumes Reader's Guide grouping related entries thematically References Further Readings and Cross References sections Chronology in the back matter Resource Guide in the appendix This encyclopedia is an excellent scholarly source for students who are pursuing a degree or position in the field of education The SAGE Encyclopedia of Classroom Management is an ideal source for all academic and public libraries *Badges and Incidents* Michael J. Kaufman,2020 Examines the law governing American education and proposes social constructivist pedagogy as a model for reform efforts PRE-SERVICE AND IN-SERVICE TEACHER EDUCATION Dr. Pradeep Kumar T.,2024-12-27 Introduction Elementary teacher education is a specialized program designed to prepare individuals to teach young children typically from kindergarten to grade 7 The need for elementary teacher education arises from the critical role that teachers play in the intellectual social emotional and physical development of children at an early stage in their lives **Exploring Inclusive Educational Practices Through Professional Inquiry** Gordon L. Porter,Déirdre Smith,2012-01-01 Practitioners scholars and teacher education students alike can celebrate reading Exploring Inclusive Educational Practices through Professional Inquiry This rich array of case scenarios both illuminates and elaborates the meaning of inclusion in today's schools and tomorrow's visions Twenty five stories from parents teachers school principals and specialists highlight the kind of experiential knowledge that won't be found in typical research reports and district documents about inclusive education What happens to real people students and their families doesn't always resemble policies that can look so good on paper This book makes a wonderful contribution to better understandings of the challenges of inclusion as well as the commitments positioned alongside values in order to meet those challenges There are brave and spirited people in these pages not the least of whom are the children themselves

Professor Luanna H Meyer PhD Director Jessie Hetherington Centre for Educational Research Victoria University New Zealand This is a book on inclusive education that leaves you with hope and ideas for action It takes a very difficult and highly charged topic and demonstrates that it is possible to see both the trees and the forest Michael Fullan Professor Emeritus OISE University of Toronto We are reminded in the commentaries parents share in this book of how their passionate commitment to good education and their ideas make inclusion work The case study approach reveals the critical importance of their and many other perspectives in finding solutions to what are so often dismissed as irresolvable dilemmas They aren't and this book models exactly the kinds of conversations we need in schools across the country to challenge all of us to stay the course It's a must read for anyone who wants to make diversity and inclusion a reality in public education today Michael Bach Executive Vice President Canadian Association for Community Living

Starting Up Lisa Arrastia, Marvin Hoffman, 2015-04-24 Starting Up is a collection of first person accounts by some of the best known founders of new schools in America Providing the kind of knowledge that only experience can teach it is an invaluable resource for anyone in the process of or thinking about opening a new school as well as those interested in the politics of today's era of new school development The authors share how they worked to make their educational aspirations a reality while wrestling with social and economic obstacles such as the distressed state of the communities in which these schools operated and the constant competition for resources Starting Up tells real stories that capture the rich sense of possibility that currently exists for urban education Book Features Behind the scenes accounts from the founders of innovative K-12 schools created to better serve primarily poor communities across the country Lessons learned from school leaders including both the rewards and challenges associated with starting a new school An introduction by Pedro Noguera that situates start-ups within current economic and political realities Lisa Arrastia is the middle school principal at United Nations International School in New York Her work in the classroom is the focus of the Emmy nominated PBS documentary Making the Grade Marvin Hoffman is the founding director of The University of Chicago Charter School North Kenwood Oakland campus and the associate director of the University's Urban Teacher Education Program These are educators who recognize that although urban public schools are often deeply flawed and dysfunctional they don't have to be and they are educators who act on the belief that it is possible to create schools that nurture and support the hopes and aspirations of those they serve From the Foreword by Pedro Noguera New York University How might we reimagine our schools This book offers a guide from those who have experienced firsthand the trials and tribulations of trying to create a school from the bottom up It asks all the right questions both the practical and the pedagogical It feels like essential reading as we reconsider how our urban schools should look and function Alex Kotlowitz bestselling author of There Are No Children Here and The Other Side of the River
