nonlinear narratives of modernist literature and the ways in which space and time act on objects to color sensation and the schizophrenic mind C zanne s Gravity attends to both the physicality of the artist s works and the weight they bear on the history of art This distinctive study not only invites its readers to view C zanne s paintings with fresh eyes but also offers a new methodology for art historical inquiry outside linear narratives one truly fitting for our time

Understanding Derrida, Understanding Modernism Jean-Michel Rabaté,2019-05-30 This volume makes a significant contribution to both the study of Derrida and of modernist studies The contributors argue first that deconstruction is not modern neither is it postmodern nor simply modernist They also posit that deconstruction is intimately connected with literature not because deconstruction would be a literary way of doing philosophy but because literature stands out as a modern notion The contributors investigate the nature and depth of Derrida s affinities with writers such as Joyce Kafka Antonin Artaud Georges Bataille Paul Celan Maurice Blanchot Theodor Adorno Samuel Beckett and Walter Benjamin among others With its strong connection between philosophy and literary modernism this highly original volume advances modernist literary study and the

relationship of literature and philosophy The Columbia Granger's Index to African-American Poetry Nicholas Frankovich, David Larzelere, 1999 Responding to the enormous interest in African American literature Columbia University Press is publishing a Granger's Index devoted exclusively to poetry by African Americans To compile the Index to African American Poetry a team of consultants identified the best most widely available anthologies and volumes of collected and selected works The result this new index includes more than 11 000 poems by 659 poets **Reading with Michel Serres** Maria L. Assad, 1999-06-17 This book identifies a new perspective on time and temporality in the work of the French writer Michel Serres Time is the veiled notion that underlies Serres's many epistemological parables and fables and is a consistent metaphor throughout his work Assad uncovers this common thread through a sustained discussion of certain key concepts in chaos theory and nonlinear dynamics and these concepts come into focus as she continues her detailed readings of Serres's texts demonstrating close analogies in his work to the discourses of science literature and philosophy *Rilke's Venice* Birgit Haustedt, 2019-09-15 For the Austrian poet and novelist Rainer Maria Rilke travel was not only integral to his work it was a way of life Venice stands out as a location of particular importance to Rilke and he visited the city ten times between 1897 and 1920 This city has inspired countless writers and artists but Rilke both enthralled and provoked by it reveals a striking and deeply felt love for the city He was as eager to explore the city's underbelly its deserted shipyards and back alleys as he was to experience its iconic sights of St Mark's and the Doge's Palace Staying in both simple guesthouses and the grand palaces of his patrons Rilke would walk prodigiously His contemporary Stefan Zweig commented that knowing every last corner and depth of the city was his passion and Rilke himself said his walking allowed him to grasp the whole breadth of the city In eleven walks Birgit Haustedt guides readers through Venice following the poet's footsteps Haustedt invites us to look on the beloved sights of the city through Rilke's eyes offering a new vision of this famed destination Rilke's Venice provides new insight into one of the finest and most widely recognized writers of the twentieth century It also acts as a literary travel companion and guidebook to Venice offering eleven detailed maps of walks through the city **Dreamers** Volker Weidermann, 2020-11-03 History that reads like a novel the story of the writers and intellectuals behind the failed Bavarian Revolution of 1918 by the author of the acclaimed *Summer Before the Dark* At the end of the First World War in Germany the journalist and theatre critic Kurt Eisner organised a revolution which overthrew the monarchy and declared a Free State of Bavaria In February 1919 he was assassinated and the revolution failed But while the dream lived it was the writers the poets the playwrights and the intellectuals who led the way As well as Eisner Thomas Mann Rainer Maria Rilke and many other prominent figures in German cultural history were involved In his characteristically lucid sharp prose Volker Weidermann presents us with a slice of history November 1918 to April 1919 and shows how a small group of people could have altered the course of the twentieth century **Rilke's Sonnets to Orpheus** Hannah Vandegrift Eldridge, Luke Fischer, 2019-05-10 Written in three weeks of creative inspiration Rainer Maria Rilke's *Sonnets to Orpheus* 1923 is well

known for its enigmatic power and lyrical intensity The essays in this volume forge a new path in illuminating the philosophical significance of this late masterpiece Contributions illustrate the unique character and importance of the Sonnets their philosophical import as well as their significant connections to the Duino Elegies completed in the same period The volume features eight essays by philosophers literary critics and Rilke scholars which approach a number of the central themes and motifs of the Sonnets as well as the significance of their formal and technical qualities An introductory essay co authored by the editors situates the book in the context of philosophical poetics the reception of Rilke as a philosophical poet and the place of the Sonnets in Rilke s oeuvre Above all this volume s premise is that an interdisciplinary approach to poetry and more specifically to Rilke s Sonnets can facilitate crucial insights with the potential to expand the horizons of philosophy and criticism Essays elucidate the relevance of the Sonnets to such wide ranging topics as phenomenology and existentialism hermeneutics and philosophy of language philosophy of mythology metaphysics Modernist aesthetics feminism ecocriticism animal ethics and the philosophy of technology

Musical Ekphrasis in Rilke's Marien-Leben Siglind Bruhn, 2000 In 1923 the twenty seven year old Paul Hindemith published a composition for voice and piano entitled Das Marienleben based on Rainer Maria Rilke s poetic cycle of 1912 Twenty five years later the composer presented a thoroughly revised partially rewritten version The outcome of this revision has been highly controversial Ever since its first publication musicologists have argued for or against the value of such a decisive rewriting They do so both by comparing the two compositions on purely musical grounds and by attempting to assess whether the more strictly organized tonal layout and dynamic structuring of Marienleben II is more or less appropriate for the topic of a poetic cycle on the Life of Mary This study is the first to analyze the messages conveyed in the two versions with an emphasis on their implicit aesthetic philosophical and spiritual significance Acknowledging the compositions as examples of musical ekphrasis a representation in one artistic medium of a message originally composed in another medium the author argues in exhaustive detail that the young Hindemith of 1922 23 and the mature composer of 1941 48 can be seen as setting two somewhat different poetic cycles This volume is of interest for musicologists and music lovers scholars of German literature and lovers of Rilke s poetry as well as for readers interested in the interartistic relationships of music and literature

The Same Solitude Catherine Ciepiela, 2018-09-05 Still we have the same solitude the same journeys and searching and the same favorite turns in the labyrinth of literature and history Boris Pasternak to Marina Tsvetaeva One of the most compelling episodes of twentieth century Russian literature involves the epistolary romance that blossomed between the modernist poets Marina Tsvetaeva and Boris Pasternak in the 1920s Only weeks after Tsvetaeva emigrated from Russia in 1922 Pasternak discovered her poetry and sent her a letter of praise and admiration Tsvetaeva s enthusiastic response began a decade long affair conducted entirely through letters This correspondence written across the widening divide separating Soviet Russia from Russian migr s in continental Europe offers a view into the overlapping worlds of literary creativity sexual identity and political affiliation

Following both sides of their conversation Catherine Ciepiela charts the poets changing relations to each other to the extraordinary political events of the period and to literature itself *The Same Solitude* presents the first full account of this affair of letters and poems from its beginning in the summer of 1922 to its denouement in the 1930s Drawing on many previously untranslated letters and poems Ciepiela describes the poets mutual influence both in the course of their lives and the development of their art Neither poet saw any separation between a poet's life and work and Ciepiela treats each poet's letters and poems as a single text She discusses the poets famous triangular correspondence with Rainer Maria Rilke in 1926 and she addresses the profound significance of Tsvetaeva for Pasternak who is often perceived mistakenly Ciepiela asserts as the more detached partner Further this book expands our understanding of poetic modernism by showing how the poets worked through ideas about gender and writing in the context of what they themselves called a literary marriage *Civil Rights and the Environment in African-American Literature, 1895-1941* John Claborn, 2017-11-02 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com The beginning of the 20th century marked a new phase of the battle for civil rights in America But many of the era's most important African American writers were also acutely aware of the importance of environmental justice to the struggle *Civil Rights and the Environment in African American Literature* is the first book to explore the centrality of environmental problems to writing from the civil rights movement in the early decades of the century Bringing ecocritical perspectives to bear on the work of such important writers as Booker T Washington W E B Du Bois the writers of the Harlem Renaissance and Depression era African American writing the book brings to light a vital new perspective on ecocriticism and modern American literary history *The Good Immigrant* Nikesh Shukla, Chimene Suleyman, 2019-02-19 By turns heartbreaking and hilarious troubling and uplifting these electric essays come together to create a provocative conversation sparking multivocal portrait of modern America The Washington Post From Trump's proposed border wall and travel ban to the marching of white supremacists in Charlottesville America is consumed by tensions over immigration and the question of which bodies are welcome In this much anticipated follow up to the bestselling UK edition hailed by Zadie Smith as lively and vital editors Nikesh Shukla and Chimene Suleyman hand the microphone to an incredible range of writers whose humanity and right to be here is under attack Chigozie Obioma unpacks an Igbo proverb that helped him navigate his journey to America from Nigeria Jenny Zhang analyzes cultural appropriation in 90s fashion recalling her own pain and confusion as a teenager trying to fit in Fatimah Asghar describes the flood of memory and emotion triggered by an encounter with an Uber driver from Kashmir Alexander Chee writes of a visit to Korea that changed his relationship to his heritage These writers and the many others in this urgent collection share powerful personal stories of living between cultures and languages while struggling to figure out who they are and where they belong *Robert Bly* William H. Roberson, 1986 No descriptive material is available for this title **Flint on a Bright Stone** Kirsten Blythe Painter, 2006 *Flint on a Bright Stone* closes a significant gap in the history

of Modernist poetry by identifying the existence of Tempered Modernism an international phenomenon exemplified by Akhmatova Rilke H D and Williams and characterized by small poems written with precision restraint simplicity equilibrium and hardness **Rilke's Book of Hours** Anita Barrows,2005-11-01 A FINALIST FOR THE PEN WEST TRANSLATION AWARD The 100th Anniversary Edition of a global classic containing beautiful translations along with the original German text While visiting Russia in his twenties Rainer Maria Rilke one of the twentieth century s greatest poets was moved by a spirituality he encountered there Inspired Rilke returned to Germany and put down on paper what he felt were spontaneously received prayers Rilke s Book of Hours is the invigorating vision of spiritual practice for the secular world and a work that seems remarkably prescient today one hundred years after it was written Rilke s Book of Hours shares with the reader a new kind of intimacy with God or the divine a reciprocal relationship between the divine and the ordinary in which God needs us as much as we need God Rilke influenced generations of writers with his Letters to a Young Poet and now Rilke s Book of Hours tells us that our role in the world is to love it and thereby love God into being These fresh translations rendered by Joanna Macy a mystic and spiritual teacher and Anita Barrows a skilled poet capture Rilke s spirit as no one has done before
