## **Riots And Victims:**

*Riots And Victims* Patricia A. Gossman, Patricia A. Grossman, 2020-01-28 In recent decades the world has witnessed the emergence of several protracted violent conflicts and the eruption of ethnic and communal violence in countries such as Bosnia Rwanda and Sri Lanka Riots and Victims challenges the popular academic interpretation of such events as examples of tribal slaughter or spontaneous eruptions fueled by historic conflict between religious and ethnic communities This book examines the origins and consequences of the violence that occurred between the Muslim and Hindu communities in pre partition Bengal which ultimately resulted in the creation of Pakistan Gossman argues that communal violence and communal identity were not merely the consequences of long term animosities but rather ploys orchestrated by mid level politicians for their own advancement and aggrandizement Riots and Victims introduces new analyses of local violence and identity and explores issues of far reaching importance

**Decoding Intolerance: Riots and the Emergence of Terrorism in India** Prateep K. Lahiri, Kuldip Nayar, 2009-10-01 The rioting in Jabalpur Madhya Pradesh in 1961 was a watershed event for India After the Partition it was the first time such large scale communal violence had taken place The author Prateep K Lahiri on his first posting was involved in bringing the situation under control Some time later in 1969 as district magistrate of Indore Lahiri played a key role in dealing with the outbreak of communal violence in that city While the violence in both instances appeared to have been spontaneously provoked by an incident just like in Gujarat in 2002 the reasons that later emerged for the rioting revealed the deeper malaise that continues to affect our social system Decoding Intolerance Riots and the Emergence of Terrorism in India is a significant book by an administrator who has observed the minutiae of the crisis from close quarters and scrutinized the role of the police and the state administration The author synthesizes various dimensions of the issue including the changing perceptions of Indian Muslims in the recent past the history of religious fundamentalism and how it manifests as communal unrest both in India and elsewhere The phenomenon of terrorism which has reared its ugly head over India and the world is also touched upon to understand the implications it has had on the shifting political scenario Decoding Intolerance critically analyzes the recurrence of communal violence and offers a persuasive argument about the problem with a focus on its prevention in the future

Illinois which began only a few blocks from Abraham Lincoln's family home explores the social origins of rioting by whites against the city's African American community after a white woman alleged that a black man had raped her. Over two days rioters wrecked black-owned businesses, burned neighborhoods to the ground, killed two black men and injured many others. Author Roberta Senéchal de la Roche draws from a wide range of sources to describe the riot, identify the rioters and their victims, and challenge previous interpretations that attribute rioting to interracial competition for jobs, housing, or political influence. Written in a direct and clear style, *In Lincoln's Shadow* documents a violent explosion of racial hatred that shocked the nation and reveals the complexity of white racial attitudes in the early twentieth century. *Congressional Record* United States Congress, 1968. The *Congressional Record* is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The *Congressional Record* began publication in 1873. Debates for sessions prior to 1873 are recorded in *The Debates and Proceedings in the Congress of the United States* 1789-1824, the *Register of Debates in Congress* 1824-1837, and the *Congressional Globe* 1833-1873. *Delivering Rehabilitation* Lol Burke, Steve Collett, 2014-12-05. Do offenders have the right to be rehabilitated and should the state be responsible for their rehabilitation? Should the public expect punitive and coercive approaches to offender rehabilitation? Why should the state be interested in the reform of individuals and how can helping offenders be justified when there are other disadvantaged groups in society who are unable to access the services they desperately need? Finally, why does the state appear to target and criminalise certain groups and individuals and not others? These are just some of the questions asked in this new text which offers an analysis of the delivery of rehabilitative services to offenders over the past two decades. It focuses particularly on the ideological and political imperatives of a neoliberal state that intends to segment the work of the Probation Service and hand over the majority of its work to the private sector. Issues covered include governance, politics and performance of probation, occupational culture and professional identity, markets, profit and delivery, partnership, localism and civil society, citizenship, exclusion and the State. This book is aimed at academics, practitioners, managers and leaders within the field of corrections and wider social policy. It will also appeal to undergraduates and postgraduates specialising in criminal justice, criminology, politics and social policy. *Legacies of Struggle* Angie Y. Chung, 2007. Since the 1992 Los Angeles riots, Koreatown has become increasingly fractured by intergenerational conflict, class polarization and suburban flight. In the face of these struggles, community organizations can provide centralized resources and infrastructure to foster an ethnic consciousness and political solidarity among Korean Americans. This book analyzes the role of ethnic community-based organizations and the dynamics of contemporary Korean American politics. Drawing on two case studies, the author identifies diverse ways in which community-based organizations negotiate their political agendas and mainstream ties within the traditional ethnic power structures. One organization promotes middle-class ethnic goals through accommodation to immigrant leaders, while the other emphasizes social justice through alliances with outside interest groups. Both cases

challenge the traditional assumption that assimilation undermines ethnicity as a meaningful framework for political identity and solidarity in immigrant groups Legacies of Struggle reveals how community based organizations create innovative spaces for political participation among new generations of Korean Americans **Riot Insurance** United States.
