H. Scott,1996-09-01 *Discord* Mike Goldsmith,2012-09-27 Noise is a widely recognized problem and health concern in the modern world Given the importance of managing noise levels and developing suitable soundscapes in contexts such as industry schools or public spaces this is an area of active research for acousticians But noise in the sense of dissonance can also be used positively composers have employed it from Baroque music to Rock feedback medicine harnesses it to shatter kidney stones and treat cancer and even the military uses it in real and rumoured weapons Mike Goldsmith looks back at the long history of the battle between people and noise a battle that has changed our lives and moulded our societies He investigates how increasing noise levels relate to human progress from the clatter of wheels on cobbles to the sound of heavy machinery he explains how our scientific understanding of sound and hearing has developed and he looks at noise in nature including the remarkable ways in which some animals such as shrimps use noise as a weapon or to catch prey He concludes by turning to the future discussing the noise sources which are likely to dominate it and the ways in which new science and new ideas may change the way our future will sound *Inspirational Poems* John H. Wehrspann,2020-04-11 He took everyday experiences and created a poem to reflect upon it By placing it into words that illustrate that he had some of the same or somewhat similar to yourself Ripples on the pool D. dense fog and clipping at breathtaking speed with a rhythmic rattle at turnouts seemed to be in a greater hurry to end its journey On opening the huge metallic door of the coach that I was in a gust of chilled air gushed into the coach engulfing me It was a bright starlit night A distant star pinned to a conspicuous corner of the vast bright canvas of the night sky caught my attention The star with a smooth sparkle and simmering warmth seemed unusually bright The star's brightness piercing through the dense fog and its warmth overpowering the chillness around was trying to reach out to me with a message The Star was probably trying to convey something to me and it did resulting in a volcano of emotions with the speeding train shifting tracks on each turnout oblivious of the turmoil within
