

The background of the book cover is a photograph of a large, ancient stone archway, possibly a bridge or a fortification entrance. The arch is constructed from rough-hewn stones and is set into a hillside. The archway is partially in shadow, and the surrounding landscape is dry and rocky. The sky is a clear, pale blue.

Slavery and South Asian History Indrani Chatterjee, Richard M. Eaton, 2006-10-12 Will be welcomed by students of comparative slavery It makes us reconsider the significance of slavery in the subcontinent Edward A Alpers UCLA Despite its pervasive presence in the South Asian past slavery is largely overlooked in the region's historiography in part because the forms of bondage in question did not always fit models based on plantation slavery in the Atlantic world This important volume will contribute to a rethinking of slavery in world history and even the category of slavery itself Most slaves in South Asia were not agricultural laborers but military or domestic workers and the latter were overwhelmingly women and children Individuals might become slaves at birth or through capture sale by relatives indenture or as a result of accusations of criminality or inappropriate sexual behavior For centuries trade in slaves linked South Asia with Africa the Middle East and Central Asia The contributors to this collection of original essays describe a wide range of sites and contexts covering more than a thousand years foregrounding the life stories of individual slaves wherever possible Contributors are Daud Ali Indrani Chatterjee Richard M Eaton Michael H Fisher Sumit Guha Peter Jackson Sunil Kumar Avril A Powell Ramya Sreenivasan Sylvia Vatuk and Timothy Walker

Empire of Labor Titas Chakraborty, 2025 Empire of Labor tells the story of how hired workers experienced and responded to the rise to power over the long eighteenth century of the English East India Company EIC which perennially hired thousands of people in and around its settlements in Bengal Focusing on boatmen and silk reelers as well as sailors and soldiers a remarkable look at both indigenous and European workers the story begins with the earliest accounts of the EIC's dealings with hired labor in the region from 1651 Prior to EIC dominance hired workers drove hard bargains with their employers making demands that drew upon their own notions of wages work rhythms and time When their demands were not met they ran away often to rival indigenous or European employers Empire of Labor explores these demands and how they conflicted with the EIC's notions of discipline Analyzing Bengali literary sources and Dutch and English archival materials the book rethinks the ascendancy of the company state as a violent process involving removing competing employers imposing army and police power introducing new production technologies and instituting draconian regulations which eliminated indigenous cultures of work Most importantly it depicts the lifeworlds of these recalcitrant workers showing how they lived and resisted A major intervention in histories of colonialism labor migration and law Empire of Labor ultimately recasts colonial rule as a novel form of state labor relationship

The Changing World of Caste and Hierarchy in Bengal Sudarshana Bhaumik, 2022-08-26 This book challenges the prevalent assumptions of caste hierarchy and social mobility in pre colonial and colonial Bengal It studies the writings of colonial ethnographers Orientalist scholars Christian missionaries and pre colonial literary texts like the Mangalkavyas to show how the concept of caste emerged and argues that the jati order in Bengal was far from being a rigidly reified structure but one which had room for spatial and social mobility The volume highlights the processes through

which popular myths and beliefs of the lower caste orders of Bengal were Sanskritized. It delineates the linkages between sedentized peasant culture and the emergence of new agricultural castes in colonial Bengal. Moreover, the author discusses a wide spectrum of issues like marginality and hierarchy, the spread of Brahmanical hegemony, the creation of deities and the process of Sanskritization, popular Saivism, the cult of Manasa in Bengal and the revolt of 1857 and the caste question. Rich in archival sources, this book will be an essential read for scholars and researchers of colonial history, Indian history, political sociology, caste studies, exclusion studies, cultural studies, social history, cultural history and South Asian studies, especially those interested in undivided Bengal. **Pratna Samiksha**, 1999 **The Unending Frontier** John F. Richards, 2003-05-15

It was the age of exploration, the age of empire and conquest, and human beings were extending their reach and their numbers as never before. In the process, they were intervening in the world's natural environment in equally unprecedented and dramatic ways. A sweeping work of environmental history, *The Unending Frontier* offers a truly global perspective on the profound impact of humanity on the natural world in the early modern period. John F. Richards identifies four broadly shared historical processes that speeded environmental change from roughly 1500 to 1800: intensified human land use along settlement frontiers, biological invasions, commercial hunting of wildlife, and problems of energy scarcity. *The Unending Frontier* considers each of these trends in a series of case studies, sometimes of a particular place such as Tokugawa Japan and early modern England and China, sometimes of a particular activity such as the fur trade in North America and Russia, cod fishing in the North Atlantic and whaling in the Arctic. Throughout, Richards shows how humans, whether clearing forests or draining wetlands, transporting bacteria, insects, and livestock, hunting species to extinction, or reshaping landscapes, altered the material well-being of the natural world along with their own. **Piety and Politics in the Early Indian**

Mosque Finbarr Barry Flood, 2008 Through a study of the mosques and their interpretative histories at different periods of time, this volume shows the link between past and present. It documents the continuities and ruptures of different early medieval regional rules and the Ghurid state that are reflected in the architectural traditions of the time. *Equity and Trusts in Sanskrit Jurisprudence* Christopher T. Fleming, 2025-04-27 This monograph outlines the core principles of equity and trusts in Sanskrit jurisprudence, Dharmaśāstra, and traces their application in the practical legal administration of religious endowments throughout Indian history, rendering the abstruse law of Hindu religious endowments accessible. *The Rise of Islam and the Bengal Frontier, 1204-1760* Richard M. Eaton, 1996 **Jarigan** Mary Frances Dunham, 1997 Includes

examples of Jarigan and related songs in original Bengali with transliterations, English translations, and musical notations.

Oceanic Islam, 2020-05-31 The Indian Ocean interregional arena is a space of vital economic and strategic importance, characterized by specialized flows of capital and labor, skills and services, and ideas and culture. Islam, in particular, and religiously informed universalism in general, once signified cosmopolitanism across this wide realm. This historical reality is at variance with contemporary conceptions of Islam as an illiberal religion that breeds intolerance and terrorism. The future

balance of global power will be determined in large measure by policies of key actors in the Indian Ocean and the lands that abut it rather than in the Atlantic or the Pacific The interplay of multiple and competing universalisms in the Indian Ocean arena is in urgent need of better understanding Oceanic Islam Muslim Universalism and European Imperialism is a fresh contribution to Islamic and Indian Ocean studies alike placing the history of modern South Asia in broader interregional and global contexts It refines theories of universalism and cosmopolitanism while at the same time drawing on new empirical research The essays in the volume bring the best academic scholarship on Islam in South Asia and across the Indian Ocean in the age of European empire to the readers

The Archaeology of Islam in Sub-Saharan Africa Timothy

Islam Claire Woodward,2002 Islam Background Bibliography

The Chaos of Empire Jon

Wilson,2016-10-25 The popular image of the British Raj an era of efficient but officious governors sycophantic local functionaries dotting amahs blisteringly hot days and torrid nights chronicled by Forster and Kipling is a glamorous nostalgic but entirely fictitious In this dramatic revisionist history Jon Wilson upends the carefully sanitized image of unity order and success to reveal an empire rooted far more in violence than in virtue far more in chaos than in control Through the lives of administrators soldiers and subjects both British and Indian The Chaos of Empire traces Britain s imperial rule from the East India Company s first transactions in the 1600s to Indian Independence in 1947 The Raj was the most public demonstration of a state s ability to project power far from home and its perceived success was used to justify interventions around the world in the years that followed But the Raj s institutions from law courts to railway lines were designed to protect British power without benefiting the people they ruled This self serving and careless governance resulted in an impoverished people and a stifled society not a glorious Indian empire Jon Wilson s new portrait of a much mythologized era finally and convincingly proves that the story of benign British triumph was a carefully concocted fiction here thoroughly and totally debunked

Swami Vivekananda and Non-Hindu Traditions Stephen E. Gregg,2019-03-15 The Hindu thinker Swami

Vivekananda 1863 1902 was and remains an important figure both within India and in the West where he was notable for

preaching Vedanta Scholarship surrounding Vivekananda is dominated by hagiography and his mis appropriation by the political Hindu Right This work demonstrates that Vivekananda was no simplistic pluralist as portrayed in hagiographical texts nor narrow exclusivist as portrayed by some modern Hindu nationalists but a thoughtful complex inclusivist The book shows that Vivekananda formulated a hierarchical and inclusivistic framework of Hinduism based upon his interpretations of a four fold system of Yoga It goes on to argue that Vivekananda understood his formulation of Vedanta to be universal and applied it freely to non Hindu traditions and in so doing demonstrates that Vivekananda was consistently critical of low level spirituality not only in non Hindu traditions but also within Hinduism Demonstrating that Vivekananda is best understood within the context of Advaitic primacy rather than Hindu chauvinism this book will be of interest to scholars of Hinduism and South Asian religion and of South Asian diaspora communities and religious studies more generally
