Philosophers and Kings Gary McCulloch,2002-04-18 Philosophers and Kings examines the theme of education for leadership in English secondary education during the twentieth century

Secondary Education in England 1870-1902 Prof John Roach,John Roach,2012-10-12 In this comprehensive and extensively researched history John Roach argues for a reassessment of the relative importance of State regulation and private provision Although the public schools enjoyed their greatest prestige during this period in terms of educational reform and progress their importance has been exaggerated The role of the public school he suggests was social rather than academic and as such their power and influence is to be interpreted principally in relation to the growth of new social elites the concept of public service and the needs of the empire for a bureaucratic ruling class Only in the modern progressive movement launched by Cecil Reddie and the private provision for young women was lasting progress made Even before the

1902 Education Act however the State had spent much time and effort regulating and reforming the old educational endowments and it is in these initiatives that the foundations for the public provision of secondary educational reform are to be found

A Catholic Eton? Paul Shrimpton, 2005 When in 1858 Newman was retiring from the Catholic University in Dublin friends approached him when confronted with the problem of where to educate their sons and he became the central figure in the establishment of the Oratory School Newmand and his co founders a trio of brilliant Catholic laymen two parliamentary barristers and Lord Acton faced stiff resistance in setting up the first Catholic public school and once it opened their troubles were compounded by a staff mutiny and threats of closure from Rome This is no standard story because the Oratory School was no standard school It was the school s fate to be caught up in many of the key controversies of the time not least because of its association with Newman and for this reason the tale of its formative years under Newman provides important insights into Victorian life and English Catholic history The story of the early years of the school which counted Gerard Manley Hopkins among its masters Hilaire Belloc among its pupils and Newman as its guiding light is told here fully for the first time

History of Education: Studies of education systems Roy Lowe, 2000 Privatization and Privilege in Education (RLE Edu L) Geoffrey Walford, 2012-05-16 Can privilege be bought Arguments have raged over whether private education in the UK is the cement in the wall dividing British society or whether parental choice is as has also been argued a key component of a free society The author here describes the traditional private sector schools paying attention to the ways in which parents can purchase privilege for their children through attendance at such schools He argues that the privatized system is kept under tight control if a growth in social and educational inequality and a deepening of social class and ethnic group division is to be avoided The book is unique in combining an account of private schools in Britain with an examination of the process of privatization
