In Pursuit of Privilege Clifton Hood, 2016-11-08 A history that extends from the 1750s to the present *In Pursuit of Privilege* recounts upper class New Yorkers struggle to create a distinct world guarded against outsiders even as economic growth and democratic opportunity enabled aspirants to gain entrance Despite their efforts New York City's upper class has been drawn into the larger story of the city both through class conflict and through their role in building New York's cultural and economic foundations *In Pursuit of Privilege* describes the famous and infamous characters and events at the center of this extraordinary history from the elite families and wealthy tycoons of the eighteenth and nineteenth centuries to the Wall Street executives of today From the start upper class New Yorkers have been open and aggressive in their behavior keen on attaining prestige power and wealth Clifton Hood sharpens this characterization by merging a history of the New York economy in the eighteenth century with the story of Wall Street's emergence as an international financial center in the late nineteenth and early twentieth centuries as well as the dominance of New York's financial and service sectors in the 1980s Bringing together several decades of upheaval and change he shows that New York's upper class did not rise exclusively from the Gilded Age but rather from a relentless pursuit of privilege affecting not just the urban elite but the city's entire cultural economic and political fabric

English Counties and Public Building, 1650-1830 Christopher W. Chalklin, 1998-01-01 Before the modern growth of centralised government the most important unit of administration was the county Counties were run by Justices of the Peace sitting together at Quarter Sessions where as well as trying criminal cases they dealt with all county business In the years between 1650 and 1830 an increasing proportion of their time and resources was taken up in erecting public buildings Building by counties taken together represents a substantial and previously little noticed programme of public works Unlike most other building works in this period where the details of planning building execution and cost are lost county building is well documented allowing us to follow clearly the stages of erection The county building programme reflected changes in society and in the economy apart from being itself an indication of the growing wealth of the period A sizeable part of county budgets was spent on bridges A series of increasingly elaborate bridewells and gaols reflected concerns over employment and crime also reflected in the erection of judges lodgings and court houses the latter being often incorporated in shire halls Rising humanitarian alarm about mental illness led to the building of pauper lunatic asylums after

City of Brotherly Love gave birth to the American Revolution Winner of the Athenaeum of Philadelphia Literary Award of The Athenaeum of Philadelphia During the colonial era ordinary Philadelphians played an unusually active role in political life Because the city lacked a strong central government private individuals working in civic associations of their own making shouldered broad responsibility for education poverty relief church governance fire protection and even taxation and military defense These organizations dramatically expanded the opportunities for white men rich and poor alike to shape policies that immediately affected their communities and their own lives In *Governed by a Spirit of Opposition* Jessica Choppin Roney explains how allowing people from all walks of life to participate in political activities amplified citizen access and democratic governance Merchants shopkeepers carpenters brewers shoemakers and silversmiths served as churchwardens street commissioners constables and Overseers of the Poor They volunteered to fight fires organized relief for the needy contributed money toward the care of the sick took up arms in defense of the community raised capital for local lending and even interjected themselves in Indian diplomacy Ultimately Roney suggests popular participation in charity schools the militia and informal banks empowered people in this critically important colonial city to overthrow the existing government in 1776 and re envision the parameters of democratic participation *Governed by a Spirit of Opposition* argues that the American Revolution did not occasion the birth of commonplace political activity or of an American culture of voluntary association Rather the Revolution built upon a long history of civic engagement and a complicated relationship between the practice of majority rule and exclusionary policy making on the part of appointed and self selected constituencies
