□□□□□□,2004 **Emancipating Cultural Pluralism** Cris E. Toffolo,2012-02-01 Combining detailed case studies with discussions of deeper theoretical controversies *Emancipating Cultural Pluralism* investigates both the benign and harmful aspects of identity politics This provocative collection delves into some of the most difficult issues of cultural pluralism such as what accounts for the immense power of identity politics whether identity politics can be inherently good or evil whether states are the right institutions to deal with ethnic conflict the prevention of genocide the value of devolving power to the local level and more The contributions are united by the conviction that more attention needs to be paid to the normative issues associated with various expressions of cultural pluralism for the ethical implications of the phenomena are too profound to be ignored *Transnational Faiths* Hugo Córdova Quero,Rafael Shoji,2016-02-17 Japan has witnessed the arrival of thousands of immigrants since the 1990s from Latin America especially from Brazil and Peru Along with immigrants from other parts of the world they all express the new face of Japan one of multiculturalism and multi ethnicity Newcomers are having a strong impact in local faith communities and playing an unexpected role in the development of communities This book focuses on the role that faith and religious institutions play in the migrants process of settlement and integration The authors also focus on the impact of immigrants religiosity amidst religious groups formerly established in Japan Religion is an integral aspect of the displacement and settlement process of immigrants in an increasing multi ethnic multicultural and pluri religious contemporary Japan Religious institutions and their social networks in Japan are becoming the first point of contact among immigrants This book exposes and explores the often missed connection of the positive role of religion and faith based communities in facilitating varied integrative ways of belonging for immigrants The authors highlight the faith experiences of immigrants themselves by bringing their voices through case studies interviews and ethnographic research throughout the book to offer an important contribution to the exploration of multiculturalism in Japan

the ways that an extraordinarily mobile society has allowed divergent ethnic class and ideological groups to hang together as Americans The book includes classic essays by Higham and more recent writings some of which have been substantially revised for this publication Topics range widely from the evolution of American national symbols and the fate of our national character to new perspectives on the New Deal on other major turning points and on changes in race relations after major American wars Yet they are unified by an underlying theme that a heterogeneous society and an inclusive national culture need each other

Histories, Cultures, Identities Sharon A. Carstens, 2005 Histories Cultures Identities deals with two central questions relating to the Chinese community in Malaysia First how has being Chinese shaped the responses of this community to political economic and social developments in the country And second how have their experiences in Malaysia affected the way in which immigrants from China and their descendants identify themselves as Chinese Affirmative Action, Ethnicity and Conflict Edmund Terence Gomez, Ralph Premdas, 2012-11-27 In recent years a number of countries have introduced affirmative action programmes in order to put right historical injustices and economic inequalities involving ethnic communities This book examines affirmative action programmes in a range of countries around the world It discusses how such programmes came about and how they have been implemented and examines their effectiveness Throughout it explores how far affirmative action programmes reinforce ethnic identities and thereby contribute to division and conflict The countries covered are India the United States South Africa Northern Ireland Brazil Malaysia and Fiji The State, Identity and Violence R. Brian Ferguson, 2003-09-02 In this book a collection of experts investigate the varied forces from global systems to local beliefs that lead to civil violence chaos and perhaps a new political order The State Identity and Violence explores acts of mass violence occurring within national borders and examines the links such acts have to personal identities and how they challenge the character or very existence of the state Building upon the anthropological premises of holism and cross cultural comparison this volume shows how violent challenges to existing states should be conceptualized as layered problems with multiple kinds of causes It not only goes beyond the ancient hatreds explanation but shows the inadequacy of the concept of ethnic violence and of theories which treat interests and identities as separate sometimes opposed variables
