Reginald De Koven

Risk And Blame:

Risk and Blame Professor Mary Douglas, Mary Douglas, 2013-06-17 First published in 1992 this volume follows on from the programme for studying risk and blame that was implied in *Purity and Danger* The first half of the book Douglas argues that the study of risk needs a systematic framework of political and cultural comparison In the latter half she examines questions in cultural theory Through the eleven essays contained in *Risk and Blame* Douglas argues that the prominence of risk discourse will force upon the social sciences a programme of rethinking and consolidation that will include anthropological approaches

Risk and Blame Professor Mary Douglas, 2002-05-03 Risk and danger are culturally conditioned ideas They are shaped by pressures of social life and accepted notions of accountability The risk analyses that are increasingly being utilised by politicians aid programmes and business ignore the insights to be gained from social anthropology which can be applied to modern industrial society In this collection of recent essays Mary Douglas develops a programme for studying risk and blame that follows from ideas originally proposed in *Purity and Danger* She suggests how political and cultural bias can be incorporated into the study of risk perception and in the discussion of responsibility in public policy

Risk and Blame Mary Douglas, 2003 *Risk and Blame* Mary Douglas, 1994 *Risk and Blame* Mary Douglas, 1992 Risk and danger are culturally conditioned ideas They are shaped by pressures of social life and accepted notions of accountability The risk analyses that are increasingly being utilised by politicians aid programmes and business ignore the insights to be gained from social anthropology which can be applied to modern industrial society In this collection of recent essays Mary Douglas develops a programme for studying risk and blame that follows from ideas originally proposed in *Purity and Danger* She suggests how political and cultural bias can be incorporated into the study of risk perception and in the discussion of responsibility in public policy

Mary Douglas: Risk and blame Mary Douglas, 2003 *Risk and Blame* Douglas M Staff, 1994 At Risk Karen Swift, Marilyn Callahan, 2009-01-01 In *At Risk* Karen J Swift and Marilyn Callahan examine risk and risk assessment in the context of professional practice in child protection social work and other human services They argue that the tools technologies and practices used to measure risk to the individual have gone unquestioned and unstudied and that current methods of risk assessment may be distorting the principles of social justice Central to this study is an examination of the everyday experiences of workers and parents engaged in risk assessment processes in Canadian child welfare investigations Going beyond theory Swift and Callahan highlight how risk evaluations play out in actual interactions with vulnerable people Pointing out that standardized risk assessment tools do not take factors such as class race gender and culture into account *At Risk* raises important questions about the viability of risk management plans that are not tailored to individual situations

Medical Self-Regulation Mark Davies, 2016-12-05 Self regulation constitutes an important aspect of the regulatory and oversight process governing professionals This book focuses directly on medical self regulation in the context of both the wider regulatory framework and that of other regulatory models Through a

Sexual Discretion Jeffrey Q. McCune, Jr., 2014-03-07 African American men who have sex with men while maintaining a heterosexual lifestyle in public are attracting increasing interest from both the general media and scholars Commonly referred to as down low or DL men many continue to have relationships with girlfriends and wives who remain unaware of their same sex desires and in much of the media DL men have been portrayed as carriers of HIV who spread the virus to black women Sexual Discretion explores the DL phenomenon offering refreshingly innovative analysis of the significance of media space and ideals of black masculinity in understanding down low communities In Sexual Discretion Jeffrey Q McCune Jr provides the first in depth examination of how the social expectations of black masculinity intersect and complicate expressions of same sex affection and desire Within these underground DL communities men aren't

as highly policed and thus are able to maintain their public roles as properly masculine McCune draws from sources that range from R and from E Lynn Harris s contemporary sexual passing novels to McCune s own interviews and ethnography in nightclubs and online chat rooms Sexual Discretion details the causes pressures and negotiations driving men who rarely disclose their intimate secrets **Organizational Encounters with Risk** Bridget Hutter, Michael Power, 2005-12-01

Organizational encounters with risk range from errors and anomalies to outright disasters In a world of increasing interdependence and technological sophistication the problem of understanding and managing such risks has grown ever more complex Organizations and their participants must often reform and reorganise themselves in response to major events and crises dealing with the paradox of managing the potentially unmanageable Organizational responses are influenced by many factors such as the representational capacity of information systems and concerns with legal liability In this collection leading experts on risk management from a variety of disciplines address these complex features of organizational encounters with risk They raise critical questions about how risk can be understood and conceived by organizations and whether it can be managed in any realistic sense at all This book is an important reminder that the organisational management of risk involves much more than the cool application of statistical method *Tears for My Sisters* L. Lewis

Wall, 2018-01-15 Traces the horror of obstetric fistula a condition that has been largely forgotten in the developed world and lays out a plan for its eradication Millions of women suffer from obstetric fistula a catastrophic childbirth complication that exists today mainly in the world s poorest countries Fistulas are created by the prolonged pressure of the fetal head in the birth canal during obstructed labor which grievously injures a woman s bladder leaving her incontinent With a fistula a woman s life revolves around futile attempts to control her condition and the stigma associated with it Abandoned by their loved ones ostracized from their communities and cut off from modern surgical care which can repair fistulas and return patients to full health these women suffer wretchedly Based on over 20 years of personal experience with fistula patients in multiple African countries Dr L Lewis Wall s *Tears for My Sisters* describes the ancient history of obstetric fistula tracing it as far back as ancient Egypt An expert in repairing obstetric fistula Dr Wall explains how these injuries occur and how Western medicine developed the technical capacity to overcome obstructed labor and repair fistulas Arguing that obstetric fistula results from a general disregard for women s human rights and reproductive health around the globe he lays bare the obstacles that poor women face in getting emergency obstetric care Finally he presents a solution to this problem based on the inspiring story of Drs Reginald and Catherine Hamlin who created a hospital system in Ethiopia to care for fistula patients improve health care and eradicate these injuries Providing these women with a much needed voice this compassionate book is the first to tell the comprehensive story of this tragic but preventable condition It is compelling reading for everyone interested in women s health reproductive rights the history of medicine and social justice **Rob Roy** Reginald De Koven, 1894 *Hijras, Lovers, Brothers* Vaibhav Saria, 2022-11-28 Against easy framings of hijras that render

them marginalized Saria shows how hijras makes the normative Indian family possible The book also shows that particular practices of hijras such as refusing to use condoms or comply with retroviral regimes reflect not ignorance or irresponsibility but rather a specific idiom of erotic asceticism arising in both Hindu and Islamic traditions This idiom suffuses the densely intertwined registers of erotics economics and kinship that inform the everyday lives of hijras and offer a repertoire of self fashioning distinct from the secularized accounts within the horizon of public health programmes and queer theory Engrossingly written and full of keen insights the book moves from the small pleasures of the everyday laughter flirting and teasing to impossible longings kinship networks and economies of property and of substance in order to give a fuller account of trans lives and of Indian society today
