Does Regulation Kill Jobs? Cary Coglianese, Adam M. Finkel, Christopher Carrigan, 2014-01-06 As millions of Americans struggle to find work in the wake of the Great Recession politicians from both parties look to regulation in search of an economic cure Some claim that burdensome regulations undermine private sector competitiveness and job growth while others argue that tough new regulations actually create jobs at the same time that they provide other benefits Does Regulation Kill Jobs reveals the complex reality of regulation that supports neither partisan view Leading legal scholars economists political scientists and policy analysts show that individual regulations can at times induce employment shifts across firms sectors and regions but regulation overall is neither a prime job killer nor a key job creator The challenge for policymakers is to look carefully at individual regulatory proposals to discern any job shifting they may cause and then to make regulatory decisions sensitive to anticipated employment effects Drawing on their analyses contributors recommend methods for obtaining better estimates of job impacts when evaluating

regulatory costs and benefits They also assess possible ways of reforming regulatory institutions and processes to take better account of employment effects in policy decision making Does Regulation Kills Jobs tackles what has become a heated partisan issue with exactly the kind of careful analysis policymakers need in order to make better policy decisions providing insights that will benefit both politicians and citizens who seek economic growth as well as the protection of public health and safety financial security environmental sustainability and other civic goals Contributors Matthew D Adler Joseph E Aldy Christopher Carrigan Cary Coglianese E Donald Elliott Rolf F re Ann Ferris Adam M Finkel Wayne B Gray Shawna Grosskopf Michael A Livermore Brian F Mannix Jonathan S Masur Al McGartland Richard Morgenstern Carl A Pasurka Jr William A Pizer Eric A Posner Lisa A Robinson Jason A Schwartz Ronald J Shadbegian Stuart Shapiro *Environmental Law* Peter S. Comparative Law and Regulation Francesca Bignami, David Zaring, 2016-09-30 Governance by regulation rules propounded and enforced by bureaucracies is taking a growing share of the sum total of governance Once

thought to be an American phenomenon it is now a central form of state action in every part of the world including Europe Latin America and Asia and it is at the core of much international lawmaking In Comparative Law and Regulation original contributions by leading scholars in the field focus both on the legal dimension of regulation and on how this dimension operates in those places that have turned to regulation to meet their obligations *S. 981, the Regulatory Improvement Act of 1997* United States. Congress. Senate. Committee on Governmental Affairs, 1998 EU Management of Global Emergencies Inge Govaere, Sara Poli, 2014-06-19 *EU Management of Global Emergencies Legal Framework for Combating Threats and Crises* provides a thorough analysis of the role played by the European Union EU in combating some of the global emergencies that currently affect or are likely to affect our planet In particular the potential of a regional model for coping with such emergencies is examined taking into account the perceived inefficacy of traditional prevention and reaction mechanisms provided both by individual States and international organisations The expression global emergencies refers to all situations irrespective of the subject matter involved which are characterised by an unexpected state of crisis which affects one or more regions of the world and call for an urgent and coordinated response from competent bodies and institutions Furthermore the book tests the role of the EU in managing global emergencies with respect to four broad areas the economic and financial crises the protection of the environment terrorism and humanitarian aid while maintaining focus on the legal framework within which the EU deals with such global emergencies in the light of the innovations brought about by the Lisbon Treaty With contributions by leading experts in each of the identified set of challenges *EU Management of Global Emergencies Legal Framework for Combating Threats and Crises* aims at increasing the understanding of a the contribution of regional organizations such as the EU to the management of global emergencies b the effectiveness of the EU external action and the actual involvement of the EU in global cooperation processes against global emergencies c global standards of human rights protection in relation to measures adopted in crises and d the coordination mechanisms between the EU and other international organisations with a global or regional membership in the management of global emergencies

The Promise and Peril of Environmental Justice Christopher H. Foreman, 2011-02-01 Are we environmentally victimizing perhaps even poisoning our minority and low income citizens Proponents of environmental justice assert that environmental decisionmaking pays insufficient heed to the interests of those citizens disproportionately burdens their neighborhoods with hazardous toxins and perpetuates an insidious environmental racism In the first book length critique of environmental justice advocacy Christopher Foreman argues that it has cleared significant political hurdles but displays substantial limitations and drawbacks Activism has yielded a presidential executive order management reforms at the Environmental Protection Agency and numerous local political victories Yet the environmental justice movement is structurally and ideologically unable to generate a focused policy agenda The movement refuses to confront the need for environmental priorities and trade offs politically inconvenient facts about environmental health risks and the limits of an environmental approach to social justice

Ironically environmental justice advocacy may also threaten the very constituencies it aspires to serve distracting attention from the many significant health hazards challenging minority and disadvantaged populations Foreman recommends specific institutional reforms intended to recast the national dialogue about the stakes of these populations in environmental protection
