always hierarchical He describes the cultures and the social and technical practices characteristic of seafarers as well as their distinctive language and customs As he shows the separation of sea and land is evident in the use of different vocabularies on land and on sea for the same things the change in a mariner s behavior when on land and in the liminal status of points uniting the two realms like beaches and ports Mack also explains how ships are deployed in symbolic contexts on land in ecclesiastical and public architecture Yet despite their differences the two realms are always in dialogue in symbolic and economic terms Casting a wide net The Sea uses histories maritime archaeology biography art history and literature to provide an innovative and experiential account of the waters that define our worldly existence Eureka!
