Theorizing Rituals Jens Kreinath, Michael Strausberg, 2006 Volume two of *Theorizing Rituals* mainly consists of an annotated bibliography of more than 400 items covering those books edited volumes and essays that are considered most relevant for the field of ritual theory Instead of proposing yet another theory of ritual the bibliography is a comprehensive monument documenting four decades of theorizing rituals *Rituals, Mantras, and Science* Jayant Burde, 2004 In this book the author discusses the place of science in rituals and mantras Using structural analysis he shows that rituals in general whether religious political social or otherwise have common structural patterns These patterns are shared by poetry music dance and gymnastics but not by language Consideration of animal rituals and pathological compulsive rituals leads him to propose a general theory which unifies all ritual like activities He also introduces the concept of ritual instinct which can be made to make the theory simpler and more elegant He shows how knowledge can be divided into science non science and pseudo science to understand the true status of such strange phenomena as miracles supernatural powers siddhis samadhi rebirth and ESP **Rituals and Ritual Theory in Ancient Israel** Ithamar Gruenwald, 2003 The book explores the links between mythic and rituals arguing that the connectedness with ritual endows a story with a mythic essence Detailed discussions of various rituals exemplify the major theoretical discourse The book is of interest to scholars in the areas of religious studies the anthropology of religion and Halakhah law and ritual *Rituals and Music in Europe* Daniel Burgos, 2024-06-14 This book explores modern European religious and non religious rituals and their main features by focusing on music as a key element required for the full expression of beliefs It specifically examines the relationship between religious non religious pagan cultural celebratory and traditional rituals In doing so this text focuses on the extent to which the rituals overlap replace or feed religious or pseudo religious beliefs to create alternative beliefs individual or collective that systematically ignore any religion The book further analyses the relationship between daily habits holidays sports politics culture and other pagan rituals as forms that represent social feelings by identifying enjoying or impersonating emotions and transversally it

explores how music facilitates and fosters those emotions The volume also investigates how rituals coexist and mutually influence each other through a representation of religious and non religious rituals and how music plays a central role in that phenomenology The author argues that music is a key part of various types of rituals e g rites of passage and that music supports and enriches the meaning of the ritual to ultimately strengthen the bond of communication with the individual and the group This monograph appeals to students and researchers working in religious studies and in music theory

Sonic Liturgy Guy L. Beck, 2012-12-12 *Sonic Liturgy* Ritual and Music in Hindu Tradition builds on the foundation of Guy L Beck's earlier work which described the theoretical role of sound in Hindu thought *Sonic Liturgy* continues the discussion of sound into the realm of Hindu ritual and musical traditions of worship Beginning with the chanting of the Sama Veda alongside the fire sacrifices of the ancient Indo Aryans and with the classical Gandharva music as outlined in the musicological texts of Bharata and Dattila Beck establishes a historical foundation for an in depth understanding of the role of music in the early Puja rituals and Indian theater in the vernacular poetry of the Bhakti movements in medieval temple worship of Siva and Vishnu in southern India and later in the worship of Krishna in the northern Braj region By surveying a multitude of worship traditions Beck reveals a continuous template of interwoven ritual and music in Hindu tradition that he terms sonic liturgy a structure of religious worship and experience that incorporates sound and music on many levels In developing the concept and methods for understanding the phenomenon of sonic liturgy Beck draws from liturgical studies and ritual studies broadening the dimensions of each as well as from recent work in the fields of Indian religion and music As he maps the evolution of sonic liturgy in Hindu culture Beck shows how parallel to the development of religious ritual from ancient times to the present there is a less understood progression of musical form beginning with Vedic chants of two to three notes to complicated genres of devotional temple music employing ragas with up to a dozen notes Sonic liturgy in its maturity is manifest as a complex interactive worship experience of the Vaishnava sects presented here in Beck's final chapters

The Routledge Handbook of Research Methods in the Study of Religion Steven Engler, Michael Stausberg, 2021-11-29 This substantially revised second edition of *The Routledge Handbook of Research Methods in the Study of Religion* remains the only comprehensive survey in English of methods and methodology in the discipline Designed for non specialists and upper undergraduate graduate level students it discusses the range of methods currently available to stimulate interest in unfamiliar methods and enable students and scholars to evaluate methodological issues in research The Handbook comprises 39 chapters 21 of which are new and the rest revised for this edition A total of 56 contributors from 10 countries cover a broad range of topics divided into three clear parts Methodology Methods Techniques The first section addresses general methodological issues including comparison research design research ethics intersectionality and theorizing analysis The second addresses specific methods including advanced computational methods autoethnography computational text analysis digital ethnography discourse analysis experiments field research grounded theory interviewing reading images surveys and

videography The final section addresses specific techniques including coding focus groups photo elicitation and survey experiments Each chapter covers practical issues and challenges theoretical bases and their use in the study of religion s illustrated by case studies The Routledge Handbook of Research Methods in the Study of Religion is essential reading for students and researchers in the study of religion s as well as for those in related disciplines **Indo-European Fire**

Rituals Anders Kaliff, Terje Oestigaard, 2022-12-30 Indo European Fire Rituals is a comparative study of Indo European fire rituals from modern folklore and ethnography in Scandinavia and archaeological material in Europe from the Bronze Age onwards to the Vedic origins of cosmos in India and today s cremations on open pyres in Hinduism Exploring Indo European fire rituals and sacrifices throughout history and fire in its fundamental role in rites and religious practices this book analyses fire rituals as the unifying structure in time and space in Indo European cultures from the Bronze Age onwards It asks the question how and why was fire the ultimate power in culture and cosmology Fire as an agent and divinity was fundamental in all major sacrifices In Europe ritual fires in relation to agriculture and fertility may also explain the enigma of cremation Cremated remains were ground and used in fertility rituals and ancestral fires played an essential role in metallurgy and the creation of cosmos Thus the role of fire rituals in culture and cosmology enables a unique understanding of historic developmental processes For students and academics studying Indo European culture history from the Bronze Age onwards this book has a broad interdisciplinary audience including archaeology ethnography folklore religious and Indo European studies The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license **Homa Variations** Richard K.

Payne, Michael Witzel, 2016 Throughout human history and across many religious cultures offerings are made into fire The essays collected in Homa Variations provide detailed studies of this practice known in the tantric world as the homa from its inception up to the present Embodying the Vedas Borayin Larios, 2017-04-10 Popularly Hinduism is believed to be the world s oldest living religion This claim is based on a continuous reverence to the oldest strata of religious authority within the Hindu traditions the Vedic corpus which began to be composed more than three thousand years ago around 1750 1200 BCE The Vedas have been considered by many as the philosophical cornerstone of the Brahmanical traditions stika even previous to the colonial construction of the concept of Hinduism However what can be pieced together from the Vedic texts is very different from contemporary Hindu religious practices beliefs social norms and political realities This book presents the results of a study of the traditional education and training of Brahmins through the traditional system of education called gurukula as observed in 25 contemporary Vedic schools across the state of Maharashtra This system of education aims to teach Brahmin males how to properly recite memorize and ultimately embody the Veda This book combines insights from ethnographic and textual analysis to unravel how the recitation of the Vedic texts and the Vedic traditions as well as the identity of the traditional Brahmin in general are transmitted from one generation to the next in contemporary India

Scripture and Knowledge Shlomo Biderman,1995 Scripture and Knowledge clarifies the epistemological uses of scripture and examines some of the ways in which these uses have been understood in religious traditions The author contends that philosophers have neglected scripture as a means of understanding religion He shows the inadequacy of prevalent emphases on either the content or the social function of scripture as the sole measure of its role As the author demonstrates scripture has a unique epistemological aspect that of a framework that gives believers a total picture of the world and its significance A discussion of the knowledge claims made by scripture and of the authority by which these claims are justified is accompanied by extended examples from Jewish and Hindu sources **Tantric Mantras** Andre Padoux,2011-05-19

Providing a systematic and complete overview of the highest scholarly quality on Tantric mantras in Hinduism this book presents a summary on the nature of Tantric mantras their phonetic aspect structure and classifications Additionally it explains the metaphysical theological nature of Tantric mantras and gives an introduction to their beliefs and practices In individual chapters Andre Padoux discusses the extraction and examination of mantras certain characteristics such as their perfect nature and their imperfections and he describes certain mantrics practices For the first time Andre Padoux work on Tantric mantras is made accessible to an English speaking readership This book will be of great interest to scholars of Religious Studies Theology Indology South Asian Studies and Asian Religion The Dead Sea Scrolls in Ancient Media Culture ,2023-02-13 Media studies is an emerging discipline that is quickly making an impact within the wider field of biblical scholarship This volume is designed to evaluate the status quaestionis of the Dead Sea Scrolls as products of an ancient media culture with leading scholars in the Dead Sea Scrolls and related disciplines reviewing how scholarship has addressed issues of ancient media in the past assessing the use of media criticism in current research and outlining potential directions for future discussions **Thinking Through Rituals** Kevin Schilbrack,2004 Thinking Through Rituals explores religious ritual acts and their connection to meaning and truth building upon their special status as virtually pure forms of belief in action **Theology and the First Theory of Sacrifice** Ivan Strenski,2003-11-01 Are social scientific theories and confessional theologies of sacrifice equally well suited as public discourse about religion The French liberal Protestant theologians of the 5th Section of the cole Pratique and the French doyen of sociology mile Durkheim and his two main followers Henri Hubert and Marcel Mauss engage in a struggle over the proper approach to sacrifice in the public university The Durkheimians argued that theological language and assumptions were inappropriate for this purpose because of their confessional allegiances Another approach to sacrifice free of confessional entanglements was required This is what Hubert and Mauss sought to provide in the Sacrifice Its Nature and Function Aghor Medicine Ron Barrett,2008-03-04 Ron Baret

examines a range of Aghor therapies from ritual bathing to modified Ayurveda and biomedicines while clarifying any misconceptions about this little studied group and its unorthodox ideas about illness and healing **Absorption** Johannes Bronkhorst,2012 This book argues for the central role played by absorption in the functioning of the human mind The

importance of absorption makes itself felt in different ways the two studies combined in this book concentrate on two of them The first study argues that largely as a result of language acquisition humans have two levels of cognition which in normal circumstances are simultaneously active Mental absorption is a or the means to circumvent some perhaps all of the associations that characterize one of these two levels resulting in what is sometimes referred to as mystical experience but which is not confined to mysticism and plays a role in various religious phenomena and elsewhere The second study takes as point of departure some puzzling statements in the early Buddhist canon that raises serious questions of a psychological nature An essential element in the psychological theory proposed is the observation that mental absorption is a source of pleasure Since the human mind is in large part guided by pleasure which it seeks to repeat states of absorption leave memory traces that subsequently direct the mind However these memory traces do not recall the states of absorption themselves but rather the objects or circumstances that accompanied them The resulting activity of the mind differs in this way from person to person and can pursue wildly diverging goals Publisher description Extreme Religious Behaviours Johannes Bronkhorst, 2024-06-17 Certain religious behaviours clearly reduce biological fitness These behaviours include celibacy along with various forms of asceticism and rituals that harm the performer Such behaviours are found in widely different cultures How is this possible This book shows that these behaviours as is religion in general are by products of features of the human mind whose evolutionary fitness is beyond doubt and explores those features Which are those features This book proposes a twofold answer It draws attention to the layered nature of human consciousness in which different manners of experience are superimposed on each other This goes a long way toward accounting for the universal religious belief in some kind of transcendental world a higher reality different from ordinary reality The layering of consciousness comes about in childhood and gains in prominence with the acquisition of a first language which is the second feature highlighted in this book Together these features explain a variety of normal religious behaviours and beliefs and account for the possibility of mystical experience They also explain the occurrence of behaviours that do not augment evolutionary fitness
