Science Fiction and the Theatre Ralph Allen Willingham, 1991 Though science fiction has won widespread acceptance in popular literature and motion pictures the theatre has produced few science fiction plays of merit This study offers two possible reasons the stigma of pulp literature which the genre has borne since its formative period in the 1930s and the myth that science fiction cannot be convincingly presented on the stage The author seeks to encourage better science fiction playwriting by studying its failures in comparison with the genre's literary advances and by demonstrating that believable science fictional events can be presented on stage The principal elements of the study are contained in six chapters These include a general history of science fiction plays a survey of attempts to produce such plays a critical analysis of six of the best science fiction plays a critical analysis of six science fiction comedies an exploration of theatrical adaptations of science fiction narratives and why they tend to fail and a study of the modern theatre's continual distortion of Mary Shelley's Frankenstein a novel generally regarded as the first science fiction story Supplemental to the study is a list of approximately three hundred science fiction dramas including dates and sites of first performance

Edinburgh Companion to Science Fiction and the Medical Humanities Donna McCormack, Anna McFarlane, Gavin Miller, 2025-03-31 The medical humanities are becoming increasingly important as their first wave is interrogated by a critical approach that aims to uncover the wider possibilities of the field. In conversation with this debate, this volume explores the ways in which science fiction studies can contribute to such discussions. Science fiction challenges techno-optimism and offers a non-realist avenue for the expression of illness experience. Science fiction also estranges its readers from their societies and the medical possibilities inherent in those societies, inviting consideration of how medicine may be complicit with or opposed to other structures of power. By engaging these concerns, this Companion volume offers a unique viewpoint on the power of the future to shape the present.

Science Fiction and Contemporary British Theatre Ian Farnell, 2025-07-24 Analysing an expanding body of theatre and performance works, *Science Fiction and Contemporary British Theatre* examines how the themes and images of science fiction are enabling practitioners to intervene on the most urgent social and political issues of the present moment. By exploring the genre's impact on the live theatrical event, the book presents an original and topical interrogation of issues that remain at the heart of the national and global political agenda, including military conflict, social injustice, economic inequality, migration, nationhood, anti-democratic populism, and climate collapse. The author draws upon a wide range of dramatic forms, from critically acclaimed plays by writers such as Alistair McDowall, Caryl Churchill, Dawn King, Anne Washburn, and Ella Road, to devised work, site-specific performance, Shakespearean drama, and physical theatre. The book's chapters are based on some of the genre's most resonant images, including post-apocalyptic wildernesses, dystopian regimes, and artificial lifeforms. Furthermore, by placing examples in dialogue with a range of theories and scholars, this book constructs an innovative interdisciplinary framework, comprised of theatre studies, sociology, philosophy, economic and political science. Providing an engagingly written, intellectually rich, and uniquely compelling analysis, *Science Fiction and Contemporary British Theatre* charts a new and growing landscape of scholarly research and establishes science fiction as an exciting, expanding, and urgent dramatic and political practice.

Science Fiction Theatre, 1956 *Science Fiction Theatre* J. P. Telotte, 2024-01-30 Telotte illuminates *Science Fiction Theatre* as a touchstone for understanding the development of science fiction media and the dynamic nature of early television broadcasting.
