Shopping For Pleasure:

Shopping for Pleasure Erika Rappaport, 2021-06-08 In *Shopping for Pleasure* Erika Rappaport reconstructs London's Victorian and Edwardian West End as an entertainment and retail center. In this neighborhood of stately homes, royal palaces, and spacious parks and squares, a dramatic transformation unfolded that ultimately changed the meaning of femininity and the lives of women, shaping their experience of modernity. Rappaport illuminates the various forces of the period that encouraged and discouraged women's enjoyment of public life and particularly shows how shopping came to be seen as the quintessential leisure activity for middle and upper class women. Through extensive histories of department stores, women's magazines, clubs, tearooms, restaurants, and the theater as interwoven sites of consumption, *Shopping for Pleasure* uncovers how a new female urban culture emerged before and after the turn of the twentieth century. Moving beyond the question of whether shopping promoted or limited women's freedom, the author draws on diverse sources to explore how business practices, legal decisions, and cultural changes affected women in the market. In particular, she focuses on how and why stores presented themselves as pleasurable, secure places for the urban woman, in some cases defining themselves as instrumental to civic improvement and women's emancipation. Rappaport also considers such influences as merchandizing strategies, credit policies, changes in public transportation, feminism, and the financial balance of power within the home. *Shopping for Pleasure* is thus both a social and cultural history of the West End, but on a broader scale, it reveals the essential interplay between the rise of consumer society, the birth of modern femininity, and the making of contemporary London.

The Shopping Experience Pasi Falk, Colin Campbell, 1997-09-29 This shrewd and probing book seeks to theorize shopping as an autonomous realm. It avoids the reductionist characteristics of economics and marketing. At the same time, it avoids the moralizing tone of many contemporary discussions of shopping and consumption. It also contains an appendix which gives a brief history and selected literature of shopping.

Disciplining Girls Joe Sutliff Sanders,2011-12-01 At the heart of some of the most beloved children s novels is a passionate discussion about discipline love and the changing role of girls in the twentieth century Joe Sutliff Sanders traces this debate as it began in the sentimental tales of the mid nineteenth century and continued in the classic orphan girl novels of Louisa May Alcott Frances Hodgson Burnett L M Montgomery and other writers still popular today Domestic novels published between 1850 and 1880 argued that a discipline that emphasized love was the most effective and moral form

These were the first best sellers in American fiction and by reimagining discipline as a technique of the heart rather than of the whip they ensured their protagonists a secure if limited claim on power This same ideal was adapted by women authors in the early twentieth century who transformed the sentimental motifs of domestic novels into the orphan girl story made popular in such novels as *Anne of Green Gables* and *Pollyanna* Through close readings of nine of the most influential orphan girl novels Sanders provides a seamless historical narrative of American children s literature and gender from 1850 until 1923 He follows his insightful literary analysis with chapters on sympathy and motherhood two themes central to both American and children s literature and concludes with a discussion of contemporary ideas about discipline abuse and gender *Disciplining Girls* writes an important chapter in the history of American women s and children s literature enriching previous work about the history of discipline in America *Acknowledging Consumption* Daniel Miller,2005-09-20 First published in 1995 Routledge is an imprint of Taylor Francis an informa company **Consumption and Consumer Society** Colin Campbell,2021-11-15 This collection of high quality largely previously published essays analyses a range of controversies in the field of the sociology of culture and consumption Campbell made a major contribution to the development of this field and he has a clear and coherent theoretical position which he employs to comment on interesting disputes among scholars seeking to understand consumer culture Containing a brand new expansive essay reflecting on consumption in the age of a pandemic and drawing out some of the conceptual and practical implications of the relationship between wants and needs science and norms this synthesis will be an invaluable resource for students and researchers of consumption consumer and cultural sociology **A Cultural History of Shopping in the Age of Revolution and Empire** Erika Rappaport,2022-06-02 A Cultural History of Shopping was a Library Journal Best in Reference selection for 2022 Shopping emerged as a special pleasure and problem during the period between the revolutionary upheavals of the late 18th century and the opening salvoes of the Great War New shops new products new class and gender ideologies new standards of comfort and hygiene and rising living standards for some meant that people especially women spent more time shopping and engaging in consumer oriented activities beyond the walls of the shop At the same time social commentators local and national authorities economists and many husbands became concerned about the dangers of shopping believing that the department store was emancipating women and destroying society in the process This volume explores shopping in the 19th century as a varied and embedded social political economic and cultural activity It draws out the continuities with earlier periods as well as examining how the department store came to be seen as both symbol and generator of profound economic social and cultural change A Cultural History of Shopping in the Age of Revolution and Empire presents an overview of the period with themes addressing practices and processes spaces and places shoppers and identities luxury and everyday home and family visual and literary representations reputation trust and credit and governance regulation and the state European Retail Research Thomas Rudolph,2012-06-15 The aim of EUROPEAN RETAIL RESEARCH is to publish
