

# Team Training and Resource Management in Health Care: Current Issues and Future Directions

*David M. Musson, MD, PhD and  
Robert L. Helmreich, PhD*

Many authorities have suggested that some variant of team training is likely to be an effective means to reduce human error in operating rooms, emergency departments, resuscitation teams and other settings within healthcare where human interaction is common, and where breakdowns in communication and teamwork can have critical consequences. The implementation of formal training in teamwork for healthcare workers, analogous to aviation's crew resource management (or CRM) used to train pilots, was a specific recommendation of the Institute of Medicine's landmark report, *To Err is Human: Building a Safer Healthcare System*, released in 2000.<sup>1</sup> Indeed, our own research group has made this same recommendation on multiple

occasions over recent years.<sup>2-4</sup> Team training is also currently suggested as part of a comprehensive Patient Safety Plan published by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO), the regulatory agency charged with hospital accreditation in the United States.<sup>5-6</sup>

A major problem, however, is that few clear guidelines exist to help guide the implementation of such recommendations in healthcare settings. In general, training programs designed to improve team skills are a new concept for medicine, particularly for physicians who are trained largely to be self-sufficient and individually responsible for the care they deliver. While many parties acknowledge a need for such training, exactly how to go about developing

---

*Dave Musson is a physician and research psychologist at Human Factors Research Project at The University of Texas at Austin. His primary research interest is in the performance of teams under stress in aviation, space and medicine. Robert Helmreich is a professor of psychology and the director of the Human Factors Research Project at The University of Texas at Austin. He has studied the behavior of aquanauts, astronauts, pilots and other highly trained work groups for over 30 years.*

## **Long Term Care Current Issues And Future Directions:**

**Long-Term Care** DIANE Publishing Company,1996-07 Addresses what is meant by long term care the conditions that give rise to long term care need which groups need long term care what long term costs are for the federal what strategies some states what experts predict about the future demand for long term care Charts tables *Long-Term Care* United States Accounting Office (GAO),2018-05-09 HEHS 95 109 Long Term Care Current Issues and Future Directions **Long Term Care** ,1981 Long-Term Care in the 21st Century Iris Chi,2013-08-27 Who pays for long term care Discover the unique approaches of seven countries around the Pacific Rim Long Term Care in the Twenty First Century discusses policies and programs for long term care in seven countries around the Asia Pacific Rim the United States Canada Japan Australia Singapore Hong Kong and Taiwan Each country is covered in two chapters one to examine the philosophy and values that underlie its approaches to long term care the second to discuss its systems of service delivery These thoughtful analyses backed up with facts and figures explain program successes and failures in the context of demographic and social trends and with reference to the differing political systems across the region Its breadth of perspective and insightful examination of cultural differences make Long Term Care in the Twenty First Century an important contribution to the international comparative study of aging The programs in the United States Australia and Canada offer a fascinating contrast with the longer established and very different programs in the Asian countries including Japan the world s oldest country Long Term Care in the Twenty First Century provides practical information on essential gerontological issues for each country including financing arrangements development of client classification systems case management in both residential and community based systems key source documents references and Web sites political and cultural influences home based and family caregiving This valuable book provides a critical record of developments in the current transition period This multicultural perspective contributes a chance for all countries to learn from the experience of others in dealing with a problem that is increasingly important as the world population ages Long Term Care in the Twenty First Century is an essential resource for scholars service providers policymakers and anyone concerned with care of the aged not only in Pacific Rim countries but around the world **Long-term Care** United States. General Accounting Office,1995 Today an increasing number of Americans need long term care Unprecedented growth in the elderly population is projected for the 21st century and the population age 85 and older those most in need of long term care is expected to outpace the rate of growth for the entire elderly population In addition to the dramatic rise in the elderly population a large portion of the long term care population consists of younger people with disabilities The importance of long term care was underscored by the 1994 congressional debate over health care reform and more recently by the Contract with America which proposed assistance such as tax deductions for long term care insurance and tax credits for family caregiving This report 1 defines what is meant by long term care and discusses the conditions that give rise to long term care need how such need is measured and which groups

young and old require long term care 2 examines the long term care costs that are borne by federal and state governments as well as by families 3 addresses strategies that states and foreign countries are pursuing to contain public long term care costs and 4 discusses predictions by experts on the future demand for long term care

**Health Care Ethics: Critical Issues for the 21st Century** Eileen E. Morrison, 2008-03-20 *Indexes for Abstracts of Reports and Testimony*, 1995

**Assisted Living Administration** James E. Allen, 2004-08-24 Assisted living the fastest growing residential option burst upon the American landscape in the late 1980 s These facilities serve persons who no longer are able to live independently and need help with the activities of daily living but do not need 24 hour nursing care James Allen has updated and refined this second edition of Assisted Living Administration to include new information on the Senate Aging Taskforce report of 2003 and the financial shape of the industry The volume also covers resident care issues aging theories as well as new industry data This volume is intended as a text for professionals in training for certification in addition to being a resource for the seasoned administrator

**Health, Education, and Human Services Division Reports**, 1996 *Aging and Diversity* Stephen Fried, Chandra Mehrotra, 1998 In a time of Growing awareness of the diversity among elders Fried and Mehrotra provide an excitingly fresh perspective that helps us develop a clearer understanding of gerontology and that bridges the gap between students and service providers in the field Aging and Diversity combines a clear narrative with active learning experiences The authors invite readers to broaden their works view enhance culturally relevant skills understand older adults through a life course perspective and view aging from a multi ethnic perspective Specific chapters address psychological aging issues in health and sexuality caregiving work and retirement religion and spirituality and death and grieving For ease of use each chapter includes orienting questions a narrative that includes and introduction and summary vignettes structured orienting questions a narrative that includes and introduction and summary vignettes structured individual and group learning experiences comprehension tests quizzes glossary and an annotated bibliography of suggested readings Aging and Diversity offers undergraduates and service providers tools that will enable them to understand diversity and its impact on the lives of older adults in the United States Aging and Diversity will be invaluable to both students and practitioners in the fields of gerontology psychology and sociology of aging counseling adult learning social work family studies and multicultural studies

**Diversity and Aging in the Social Environment** Sherry M. Cummings, Colleen Galambos, 2016-05-06 Today nearly one of every eight Americans is 65 or older and by 2030 over 20% of the population will be in this age group Are you prepared to work with this vastly diverse and rapidly growing population This single source is designed to help social service professionals provide effective services to America s vastly diverse and rapidly growing elderly population Diversity and Aging in the Social Environment explores the impact of race ethnicity gender sexual orientation and geographic location on elders strengths challenges needs and resources to provide you with a more complete understanding of the issues elders face In order to be more responsive to older adults social workers and other human service professionals need to enhance their

knowledge of the aging population and the factors that impact the way seniors interact with society organizations community resources neighborhoods support networks kinship groups family and friends Diversity and Aging in the Social Environment examines differences in race ethnicity geographical location sexual orientation religion and health status to help current and future human service professionals provide culturally competent services to the diverse range of elderly people they serve In addition it addresses the wide disparity that exists for older Americans in terms of income and assets number of chronic conditions functional and cognitive impairment housing arrangements and access to health care This book provides a context for the examination of diversity issues among older adults by describing and discussing several theoretical perspectives on aging that highlight important aspects of diversity Next you ll find thoughtful examinations of issues and challenges faced by lesbian gay bisexual and transgender eldersand the strengths they bring into later life the impact of gender race and sexual orientation on prevalence rates risk factors methods of disease contraction and mortality rates among older adults with HIV AIDSalong with a discussion of the psychosocial issues they face diverse characteristics of custodial grandparentsand the influence of the caregivers gender race age and geographic location on methods of care and available caregiver support differences in caregiver characteristics service utilization caregiver strain and coping mechanisms among several racial ethnic groups of adults who care for elderly disabled and ill persons cultural religious factors that influence interactions between health care personnel and Japanese American elders the relationship between acculturation and depressive symptoms among Mexican American couples life challenges facing Jewish and African American elderswith a look at each group s coping mechanisms differences in religious spiritual coping skills among Native American African American and white elders psychological well being and religiosity among a diverse group of rural elders

**The National Home and Hospice Care Survey, ... Summary**, 2003 Families and Work Karen I. Fredriksen-Goldsen, Andrew E. Scharlach, 2001 This book is intended for for use in upper level undergraduate and graduate courses in social work with the family social work with the elderly and social work with children National Hospital Discharge Survey, 2002 **Vital and Health Statistics**, 1967 **Protocols in Primary Care Geriatrics** John P. Sloan, 2012-02-02 The striking increase in average life expectancy during the twentieth century rates as one of the major events of our time We are in the midst of a social revolution one rooted not in a new ideology but in our changing population pat terns For the first time in human history infants in fortunate nations like ours can expect to live well into their seventies and beyond This demographic revolution increases pressure on re sources as it also creates further social change and new opportunities for older persons Such rapid changes have left most people living in the past with their generally negative attitudes about aging and elderly people The same outmoded beliefs are embedded in many of our health care programs In our youth oriented culture most of us still view old people as physically decrepit or in rapid inevitable decline Mentally they are viewed as forgetful or childish with little ability to learn and adapt Socially and economically they are often considered a burden With such stereotypes where is the expectation and

encouragement for their continuing capacity to enrich their own lives and to enrich society. These deep-seated cultural stereotypes do not describe accurately the new wave of elderly persons or their potential contributions to society. Today's aging individuals are mostly far from decrepit; fewer than 25 percent experience any disability and fewer than 5 percent are in nursing homes. Intellectually given new opportunities to learn and grow, they thrive.

Nursing Home Administration James Elmore Allen, 2007. Contains the knowledge essential to prepare for licensure and employment as a nursing home administrator. Using as its basis the guidelines of the National Association of Boards of Examiners of Nursing Home Administrators, this work includes sections on Distinguishing delirium from dementia, Psychosis from agitation, GERD and Glycemic control.

*Interim Report of the Activities of the House Committee on Government Reform and Oversight* United States Congress, House, Committee on Government Reform and Oversight, 1995.

*New Directions in Old-Age Policies* Janie S. Steckenrider, Tonya M. Parrott, 1998-09-11. This book explores the changed political environment in the United States and what it means for the policies and programs benefiting the elderly and their families. It includes chapters written by distinguished contributors such as Fernando Torres Gil, Assistant Secretary for Aging, Clinton Administration, and discusses specific realistic policy options for the future. *New Directions in Old Age Policies* suggests that old age policy in the changed political environment is a paradox of competing agendas: individual versus fiscal responsibility in policy choices; doing more for the elderly and their families with fewer public resources and prioritizing the status quo or change in policy decisions for the elderly.

**Managing Death** James M. Hoefler, 2019-08-15. Many Americans before they die will go through a stage where they are unable to make competent decisions about their own life-sustaining medical treatment. More and more family members and care givers are facing these difficult decisions in their stead, becoming engulfed in questions about personal wishes, medical ethics, state and federal law, and quality of life. Drawing on provocative case studies, personal interviews, and detailed research, James Hoefler examines the medical, legal, ethical, and clinical aspects of such right-to-die issues. Beginning with the legal struggle of a woman whose son existed in a persistent vegetative state (PVS) for seventeen years, the author moves into a broader look at consensus among professional organizations from the AMA to the President's Commission to the National Center for State Courts, beliefs of mainstream religious groups, public opinion issues surrounding end-stage Alzheimer's and other organic brain disorders that can slowly lead to PVS, and the role of artificial nutrition and hydration in these cases. Hoefler concludes with recommendations on how to improve the quality of right-to-die decision making. An absorbing read with a minimum of technical jargon, this book is a valuable guide to care givers, public policy students, medical ethicists, family members, and anyone facing questions about an individual's right to die.
