Wiley, Barbara Barnett, 2009-05-27 As a former nurse and someone who now teaches Women's Studies I have long been interested in the politics of health care Today most Americans would agree that our health care system is broken We pay more for health care than any nation in the world yet in 2007 the World Health Organization ranked us as 37th in quality of health care Forty six million Americans are now without health insurance What is happening here And just where are all these dollars going In *Women Wellness and the Media* thirteen scholars from a wide range of disciplines examine the relationship between media stereotypes and women's health They look at several images of women the perfect mom the straight bikini clad sixteen year old blond who has been air brushed to perfection the wild black Jezebel who struts her stuff and the shriveled up menopausal crone The writers point out that these images are making millions of dollars for all sorts of businesses ranging from the pharmaceutical industry to women's magazines Scholars have long noted that stereotypes disempower women in *Women Wellness and the Media* we see how these stereotypes actually harm women's health while turning millions in corporate profits **Women Who Invented the Sixties** Steve Golin, 2022-09-20 While there were many protests in the 1950s against racial segregation economic inequality urban renewal McCarthyism and the nuclear buildup the movements that took off in the early 1960s were qualitatively different They were sustained not momentary they were national not just local they changed public opinion rather than being ignored *Women Who Invented the Sixties* tells the story of how four women helped define the 1960s and

made a lasting impression for decades to follow In 1960 Ella Baker played the key role in the founding of the Student Nonviolent Coordinating Committee which became an essential organization for students during the civil rights movement and the model for the antiwar and women s movements In 1961 Jane Jacobs published The Death and Life of Great American Cities changing the shape of urban planning irrevocably In 1962 Rachel Carson published Silent Spring creating the modern environmental movement And in 1963 Betty Friedan wrote The Feminine Mystique which sparked second wave feminism and created lasting changes for women Their four separate interventions helped together to end the 1950s and invent the 1960s Women Who Invented the Sixties situates each of these four women in the 1950s Baker s early activism with the NAACP and the Southern Christian Leadership Conference Jacobs s work with Architectural Forum and her growing involvement in neighborhood protest Carson s conservation efforts and publications and Friedan s work as a labor journalist and the discrimination she faced before exploring their contributions to the 1960s and the movements they each helped shape

Male and Female Made in God's Image Frances O'Dair,2019-04-04 In this era of distorted ideas about our inherent roles identities and purposes as men and women it has never been as important that we seek reconciliation in marriage and families so there can be a more rational approach to the real problems the whole world suffers We must disseminate God s truth and extinguish the lies and myths that Satan has embedded into the hearts and minds of many people Building on these ideas in Male and Female Made in God s Image author Frances O Dair offers her perspective on dating marriage and family which she believes reflects the experiences of most married couples before the sexual revolution of the 1960s She encourages men and women to reflect on the wise or self serving natures of their past dating and mating choices If we can stop the reckless self gratifying use of human sexuality with our children our loving direction and understanding of God s truth can set them free from the temptations that have been passed down to recent generations We must be ready to admit that sexual freedom is a myth and isn t intended for the well being of men women children and the unborn This faith inspired treatise explores the true source of happiness meaning and fulfilment that God has planned for everyone within the sacrament of marriage and the family circle

different experiences of marginality across the global north and south Theoretically People Centered Social Innovation Global Perspectives on an Emerging Paradigm draws upon northern understandings of change and improvement as well as southern theory concerns for epistemological diversity and meaning making The result is an experiment aimed at reimagining research and practice that seriously needs to center the actor in processes of social transformation

Women's Lives Sue Llewelyn, Kate Osborne, 2024-11-20 What are the patterns dominating women's lives today What are the issues which confront women in their relationships their work and their families From adolescence and adult partnerships through motherhood to growing old Women's Lives originally published in 1990 explores themes which are central to women's experience focusing on areas such as growing up women on their own sexuality bringing up children and family relationships Sue Llewelyn and Kate Osborne argue that a multi-faceted approach is needed to understand a woman's life taking in not only her personal psychology but also the social context in which she lives The authors are both clinical psychologists with an interest in psychotherapy and they draw on their own direct experience of working with women in distress as well as on feminist writing novels and autobiographies to illustrate their arguments Each chapter presents a detailed case history highlighting an important aspect of women's lives and demonstrates the increased understanding to be gained from a combined approach using social psychology feminist ideas and psychodynamic insights Designed for a wide readership including psychologists doctors social workers counsellors and nurses Women's Lives will also be of great value to people on women's studies courses and to those seeking a greater understanding of themselves or others

Education and the Female Superhero Andrew L. Grunzke, 2019-12-17 Considering a variety of female superhero narratives including World War II era Wonder Woman comics the 1970s television programs The Secrets of Isis and The Bionic Woman and the more recent Buffy the Vampire Slayer Education and the Female Superhero Slayers Cyborgs Sorority Sisters and Schoolteachers argues that they share a vision of education as the path to female empowerment In his analysis Andrew L Grunzke examines female superheroes who are literally teachers or students exploring examples of female superheroes whose alter egos work as schoolteachers or attend school during the workday and fight evildoers when they are outside the classroom Taking a broader view of education Grunzke argues that the superheroine in popular media often sees and articulates her own role as being an educator In these narratives female superheroes often take it upon themselves to teach self-defense tactics prevent victimization and encourage people especially female victims to pursue formal education Moreover Grunzke shows how superheroines tend to see their relationship with their adversaries as rehabilitative and educative trying to set them on the correct path rather than merely subdue or dominate them

Women of Color and the Reproductive Rights Movement Jennifer Nelson, 2003-10 Uncovers the truth behind the ideas struggles and eventually success of Black and Puerto Rican Nationalists regarding key feminist issues of the 1960s 1970s and 1980s While

most people believe that the movement to secure voluntary reproductive control for women centered solely on abortion rights for many women abortion was not the only or even primary focus Jennifer Nelson tells the story of the feminist struggle for legal abortion and reproductive rights in the 1960s 1970s and early 1980s through the particular contributions of women of color She explores the relationship between second wave feminists who were concerned with a woman's right to choose Black and Puerto Rican Nationalists who were concerned that Black and Puerto Rican women have as many children as possible for the revolution and women of color themselves who negotiated between them Contrary to popular belief Nelson shows that women of color were able to successfully remake the mainstream women's liberation and abortion rights movements by appropriating select aspects of Black Nationalist politics including addressing sterilization abuse access to affordable childcare and healthcare and ways to raise children out of poverty for feminist discourse Nigerian Film Culture and the Idea of the Nation Tsaior, James Tar, Ugochukwu, Françoise, 2017-09-17 Collectively the essays brought together in this book represent a discursive confluence on Nollywood as a local film culture with a global character aspiration and reach The governing concern of the book is that texts including film texts are animated by a particular sociology and anthropology which gives them concrete existence and meaning The book argues that Nollywood the Nigerian video film text is deeply rooted in the sub soil of its social and cultural milieu Nollywood is therefore engaged in the relentless negotiation and re negotiation of the everyday lives of the people against the backdrop of their cultural traditions social contradictions and the politics of their ethnic national identity longing and belonging The essays weave an intricate and delicate argument about the critical role of Nollywood to the idea of nationhood and the logic of its narration with implications for language politics and culture in Africa The book is a valuable addition to the critical discourse on the important place of film and cinema studies in national engineering processes **The Miseducation of Women** James Tooley, 2003-01-04 To what extent has feminism benefited women To what extent have women really been liberated James Tooley argues that the implication of many women's testimony is that feminism so far has failed to deliver the promised benefits and has even in some ways proved harmful Bringing together many women's voices from Bridget Jones to Simone de Beauvoir he provides a radical rethinking for feminism and sexual politics in the 21st century **Fan Girls and the Media** Adrienne Trier-Bieniek, 2015-02-12 In the broad spectrum of popular culture one can be a fan of just about anything comic books television shows fantasy novels movie franchises musical artists and so on Because fans are fluid and ever changing however defining them poses a challenge As a result too few scholars have yet to focus on the impact of gender in media consumption leading to a limited portrait of what male and female fans look for In *Fan Girls and the Media Creating Characters Consuming Culture* Adrienne Trier Bieniek has assembled a collection of essays that demonstrate the gendered aspect of fandom and explore the ways different forms of media challenge stereotypical ideals of how culture is consumed Contributors examine a wide range of fan issues from gendered stereotypes in the *Star Trek* and *Twilight* franchises to

gender roles in Tyler Perry films and *The Real Housewives of Atlanta* Other essays look at the female comedy fan community the appeal of avenging woman characters written by men and the use of social media by women in the video game culture This collection describes how gender is present in fandom demonstrating the need to combat the marginalization of female identities in various cultural outlets *Fan Girls and the Media* will be of interest to anyone studying fandom but also students and scholars of sociology media and gender studies
