Humorous Wit Djamel Ouis,2020-01-17 Humorous Wit is a new compilation of quotations in their most humoristic form There are over 15 000 of these taken from various parts of the world with over 1 200 of them translated into English for the first time This book features 5 000 authors from every corner of the globe covering a period starting before classical antiquity when man first started to record his thoughts to modern times enriching the cultural heritage This does not in any way mean that the caveman was less humorous but the richness of the environment we live in today and the variety of subject matter contribute considerably to a refined sense of humour Moreover considering that chimps and other primates also possess the ability to laugh humour may have been around longer than the human race The Selected Works of Arthur Schopenhauer Arthur Schopenhauer, On Human Nature Arthur Schopenhauer,2015-11-22 The following essays are drawn from the chapters entitled Zur Ethik and Zur Rechtslehre und Politik which are to be found both in Schopenhauer s Parerga and in his posthumous writings As in my previous volumes so also in this I have omitted a few passages which appeared to me to be either antiquated or no longer of any general interest For convenience sake I have divided the original chapters into sections which I have had to name and I have also had to invent a title which should express their real scope The reader will find that it is not so much Ethics and Politics that are here treated as human nature itself in various aspects

Requiem Shark W. E. Burnette,2015-03-25 Requiem Shark is an adventure story with likable characters an exotic setting and a shark The story goes something like this When an old surfer is killed by a big bull shark off the Florida coast an odd collection of footloose misfits is drawn to the beach where he died two friends who served with him in Vietnam two 30 something wildlife journalists drawn by the chance of a story to jumpstart their careers and Kelli Ryder a seventeen year old

dropout with high school behind her and an uncertain future ahead whose heroic attempt to take the shark's victim away from it makes front page news Together they become an uneasy and contentious fellowship on a mission of revenge or redemption or renewal none of them is sure which And as they set out aboard a barely seaworthy 45 foot research vessel to hunt sharks Kelli's selfless courage and obdurate optimism rekindle long extinguished fires in her older companions She leads them on an odyssey down the Indian River Lagoon through one of the most diverse coastal ecosystems in the world westward on the Okeechobee Waterway into a hurricane clawing its way ashore on the Gulf Coast and onto a sun blasted inland sea on the edge of the Everglades where they confront in the form of the very shark that Kelli has already faced once their pasts their problems and their destinies
