Walford's Guide to Reference Material: Generalia, language and literature, the arts Albert John Walford,Marilyn Mullay,Priscilla Schlicke,Library Association,1996 From its first edition the purpose of Walford has been to identify and evaluate the widest possible range of reference materials No rigid definition of reference is applied In addition to the expected bibliographies indexes dictionaries encyclopaedias and directories a number of important textbooks and manuals of general practice are included While the majority of the items are books Walford is a guide to reference material Thus periodical articles microforms online and CD ROM sources are all represented In this volume a particular effort has been made to improve coverage of the latter two categories Twelfth Night Graham Atkin,2008-01-12 The characters of Twelfth Night are both memorable and engaging and it is through their funny and at times bitter interplay that we experience the peculiar world of Shakespeare's Illyria This study begins with a introduction to the concept of characters on the early modern stage before proceeding to a textual analysis of each of the main characters in the play looking at how what they say and do and what is said about them creates the illusion of character Each chapter also contains a brief account of key performances by actors on stage and in film Multi-disciplinary Lexicography Olga M. Karpova,Faina I. Kartashkova,2014-08-11 The present book is based on presentations made during the IXth International School on Lexicography Multi disciplinary Lexicography Traditions and Challenges of the XXIst Century at Ivanovo State University September 8 10 2011 and continues a series of collective monographs devoted to the theoretical and practical problems of lexicography published by Cambridge Scholars Publishing in 2007 2009 and 2010 The scope of topics discussed in four parts Dictionary as a Cross road of Language and Culture Dictionary Use and Dictionary Criticism Terminology and LSP Studies and Projects of New Dictionaries is rather wide and focuses on burning problems of European Russian and world lexicography as well as on projects of new dictionaries This book will be of interest to theoreticians practitioners and students of linguistic faculties
