Look Out Doctor:

Look Out, Doctor! Robert Clifford, 2014-09-25 Doctor Bob lives in Tadchester on the Somerset coast. It's a good little town but like all English country towns it has its fair share of interesting cases. To start with there's young Mr Haggard who has a thing about doctors. Then there's Mr Wood the amorous but underdeveloped photographer with a crush on Amazing Grace the receptionist not forgetting Mrs Short with her secret addiction. Charlie Sloper the local poacher and supermarket shoplifter the accident prone Aubrey Cattermole and last but not least the rugby team from Drake's College who develop a mysterious and embarrassing ailment after an away match at a London night club. And the strangest thing about these cases is they're all true. *The Doctor's Red Lamp* Various, 2021-05-19 The Doctor's Red Lamp is a compelling anthology that encapsulates the essence of early 20th century medical practice through a series of poignant narratives and reflections. unwanted situation exploring conventional methods of rehabilitation to live with blindness as well as using imaginative totally unheard of activities in order to pass his time in a hope of someday being able to see again despite all the odds stacked against him Close to the turn of the century Jens unexpectedly receives news of an American Medical Device Engineer Dr William H Dobelle inviting blind adults as patients for his newly developed artificial vision system designed to provide limited vision via visual cortex stimulation Dr Dobelle claims that his system has a good chance in functioning based on previous experimenting with volunteers at the same time classifying the surgical procedure as minor The system and its related components is complicated consisting of not only the implants but a series of electrical sockets protruding from the patients head to which an array of computer boxes and stimulator hardware is connected and worn by the patient Jens is determined to be one of the patients regardless of the remoteness of the chance of being one out of literally millions of blind people in the World possibly lining up to have this procedure in hopes of ending their blindness for once and for all To his absolute surprise Jens is accepted as the first patient for this procedure and slowly builds a relationship with Dr Dobelle as Jens overcomes obvious barriers of raising enough money for the very expensive procedure as well as fighting the challenges of relentless forces working against him for his involvement in the Dobelle vision project Armed with preconceived ideas of how a research institute should be run Jens travels overseas for the various stages of the procedure only to find the most astonishing facts of what goes on in the heart of a renowned medical research institute Not only is Jens looking at the workings of the Dobelle Institute from the view of a patient but in short time Jens is hired by the firm as Patient Representative providing further exploration yet on the inner most details concerning a research company and its treatment of the 15 additional implanted patients Throughout the book Jens describes the devastation exhilaration disappointment elation and confusion that attempts at sight recovery medical intervention media propaganda and ethical boundaries conjure in the most illustrative intensity The manner in which the book ends is most indescribable one could view it as the final straw the beginning of a new era the curse of the unforgiven the sadness of a crushing reality the beginning of a good job left unfinished or that of the birth of a new expert compelled to unleash the new found knowledge for the whole World to thrive Just as many questions are answered many more yet are opened and left so far undiscovered Search for Paradise is ce
