Looking At Cars:

Cars We Love Brian Earnest, 2011-06-23 From the foreword these cars aren't rare or unique but they have other things going for them Sometimes they were the subject of amazing restorations or rescue efforts Sometimes against all odds they remained in one family for generations or were babied to extremes and today have ridiculously low totals on their odometers These are the cars that have stories They might not have been amazing when they were new but they are unique now because of the lives they've lived and the owners who have sat in their driver's seats They've got history and if they could talk what amazing tales they could tell us

Cars George Bowering, Ryan Knighton, 2002 It's not where you're going but how you get there Everyone's got a good story to tell about cars a funny fender bender a bad cab ride awkward amorous acrobatics But the stories we tell about cars tell even more about ourselves You'll see what we mean in *Cars* George Bowering one of Canada's Grand Prix writers and Ryan Knighton a young writer just entering the race realized that they could tell the stories of their lives and friendship through the automobiles that have driven them Now these aren't your ordinary boys and cars stories There's no drag racing or cruising for chicks In fact George likes to drive pretty slowly and Ryan who is now blind doesn't drive at all But they take turns in the literary driver's seat bantering and fender nudging so their stories curve and tangle like a BC highway until what emerges is a poignant hilarious conversation Boiling fish in the radiator jousting with a forklift cabbaging with Doris Lessing in one hundred panels that's fifty each George and Ryan tell the tales of their friendship families friends and loves all illuminated by the dashboard light *Cars* is an auto biography that'll chauffeur you through the intersection of the lives of two of Canada's most exciting writers

Mad Chloé Esposito, 2017-06-13 In this compulsively readable debut set between London and Sicily over one blood-drenched week in the dead of summer an identical twin reveals the crazy lies and twists she'll go through to not only steal her sister's perfect life but to keep on living it Alvie Knightly is a trainwreck

aimless haphazard and pretty much constantly drunk Alvie's existence is made even more futile in contrast to that of her identical and perfect twin sister Beth. Alvie lives on social media, eats kebabs for breakfast, and gets stopped at security when the sex toy in her carry-on starts buzzing. Beth is married to a hot rich Italian, dotes on her beautiful baby boy, and has always been their mother's favorite. The twins' days of having anything in common besides their looks are long gone. When Beth sends Alvie a first-class plane ticket to visit her in Italy, Alvie is reluctant to go. But when she gets fired from the job she hates and her flatmates kick her out on the streets, a luxury villa in glitzy Taormina suddenly sounds more appealing. Beth asks Alvie to swap places with her for just a few hours so she can go out unnoticed by her husband. Alvie jumps at the chance to take over her sister's life, if only temporarily. But when the night ends with Beth dead at the bottom of the pool, Alvie realizes that this is her chance to change her life. Alvie quickly discovers that living Beth's life is harder than she thought. What was her sister hiding from her husband? And why did Beth invite her to Italy at all? As Alvie digs deeper, she uncovers Mafia connections, secret lovers, attractive hitmen, and one extremely corrupt priest, all of whom are starting to catch on to her charade. Now Alvie has to rely on all the skills that made her unemployable: a turned-to-11 sex drive, a love of guns, lying to her mother if she wants to keep her million-dollar prize. She is uncensored, unhinged, and unforgettable.

The Enthusiasts' Guide to Buying a Classic British Sports Car Peter Hingston, 2007 **The Southeastern Reporter**, 1911 **Alien Technology** Ananda Mitra, 2010-12 This book explores the consequences of technological alienation on individuals and communities in the modern time. We have already started witnessing situations in which those who are alienated from technologies are at the mercy of those who are in the know. Preface: The Law of Technological Alienation. The Cup Holder on My PC is Broken. Maybe My Monitor's Out of Ink. Computer Problems Don't Go Nuts. I Can Fix This. I Am Glad I Don't Know Those Who Know Are in Control. What Do I Need to Do? In applying the social sciences to a variety of problems, Dichter emphasized new approaches to problem solving, advertising, politics, and selling, and issues of social significance such as urban renewal, productivity, and drug addiction. As an author and corporate adviser, he used psychoanalytic theory and depth interviewing to uncover unconsciously held attitudes and beliefs. His goal was to help explain why people act the way they do and how positive behavioral change might be achieved. In *The Strategy of Desire*, Dichter both counters the argument that motivational research amounts to manipulation and shows how the understanding and modification of human behavior is necessary for progress. Dichter's survey and analysis of behavior ranges widely. He examines everyday matters of product choice as well as

such broad civic issues as voter participation religious toleration and racial understanding He shows that in order to achieve socially constructive goals it is necessary to move beyond theological exhortation which takes an unrealistic view of human morality as well as beyond the limits of empirically oriented social science research which only deals in appearances Dichter sees human action as rooted in irrational and often unconscious motivation which can usually be uncovered if the correct approach is used In his consumer research he analyzes the nonutilitarian importance of objects in everyday life as well as how products and materials become bound with emotional resonance or acquire different meanings from different contexts or points of view Dichter shows that success depends on the satisfaction of desires and a movement beyond the ethic of work and saving Arguing that in an increasingly technological world progress and social harmony are materially based he advocates a morality of the good life in which prosperity and leisure lead to greater human self assurance in the face of change First published in 1960 The Strategy of Desire is especially timely in the age of the Internet and ever increasing effect of sophisticated computer technology on consumer culture Ernest Dichter 1907 1991 was consulting psychologist for the Columbia Broadcasting System from 1943 to 1946 president of the Institute for Motivational Research and founder of Ernest Dichter Associates International His books include The Psychology of Everyday Life Handbook of Consumer Motivation Motivating Human Behavior and The Naked Manager Arthur Asa Berger is professor of broadcast and electronic communication arts at San Francisco State University
