China And Southeast Asia: Myths, Threats, And Culture Gungwu Wang, 1999-05-06 The reemergence of China as a political force has triggered sharp reassessments of its future role in the Asia Pacific region There has been much hyperbole about China's economic power especially if it is linked with the entrepreneurial talents of the ubiquitous Chinese spread around the globe Some countries have been encouraged to sound warning bells about China's future ambitions to dominate the region All this is not surprising even understandable But the danger of exaggeration to the point where efforts to predict what China and the Chinese will do become merely alarmist and the predictions become self fulfilling has to be guarded against There is no easy remedy for deep seated suspicion and hostility leading to persistent attempts to mislead and provoke The recent financial crisis in East Asia has aggravated some worst case scenarios and these may bring additional worries to the region's plans for ultimate recovery The three essays in this volume focus on some areas where myths and prejudices have long survived They offer different perspectives and suggest alternative ways to approach certain problems of understanding China's relations with Southeast Asia

*The Physical Geography of Southeast Asia* Avijit Gupta, 2005-02-24 This will be the first comprehensive and detailed volume on the physical environment of Southeast Asia and will be essential reading for geographers ecologists and environmental managers As the definitive reference work on the region it will cover all aspects of the biophysical environment and its current environmental problems and management practices The topics discussed range from a regional view of landforms and vegetation to specific cases including urban environments coral reefs volcanic hazards and the Mekong River Basin The contributors are distinguished scholars and have a long association with Southeast Asia This is the fourth volume to be published in the Oxford Regional Environment series
