If Black Is a Color, What Is Melanin? Marian Olivia Heath Griffin, 2022-07-13 ABOUT THE BOOK Our nation has taken great pains to cover up the history of the Black man Africans and the significance of Melanin in humans Even our White forefathers politically ran this country from before the Declaration of Independence to this very day the twenty first century When Thomas Jefferson constructed the Declaration of Independence other persons such as John Adams and Benjamin Franklin made several changes Ben Franklin even denoted in his writings the no more Africans should be brought from Africa because Whites were already out numbered in this country All men created equal included only White people since African slaves were brought to this country America only for the labor the slaves could produce as well as their knowledge talents and expertise in building this nation All people are given air to breathe as a gift from God and must value themselves and all others It appears that we will struggle for justice and equality for a lifetime and let a moral voice be heard for generations to come Black Lives Matter and All Lives Matter are a starting point There are many changes coming no situation is perfect but with our faith and willingness to accept each other's talents
