Lord Methuen And The British Army:

Lord Methuen and the British Army Stephen M. Miller, 2012-11-12 This study analyzes the readiness of the British military establishment for war in 1899 and its performance in the South African War 1899-1902. It focuses on the career of Field Marshal Paul Sanford 3rd Baron Methuen whose traditional military training used so effectively in Queen Victoria's small wars was put to the test by the modern challenges of the South African War. A subsidiary aim of this work is to correct and refine the historical consensus that Methuen's campaigning in the South African War was plagued by practical errors and poor judgement. The South African War was a crucial transitional episode in the history of the British army. Unlike Great Britain's other expeditions it required the concentrated resources of the entire empire. It was a modern war in the sense that it employed the technology, the weaponry, the communications and the transportation of the second industrial revolution.

Lord Methuen and the South African War Stephen M. Miller, 1996 [The Boer War](#) John Gooch, 2013-10-23 This collection of essays by leading British and South African scholars looking at the Boer War focuses on three aspects: how the British Military functioned, the role of the Boers, Afrikaners and Zulus, and the media presentation of the war to the public.

A Cultural History of Firearms in the Age of Empire Karen Jones, 2016-03-16 Firearms have been studied by imperial historians mainly as means of human destruction and material production. Yet firearms have always been invested with a whole array of additional social and symbolical meanings. By placing these meanings at the centre of analysis, the essays presented in this volume extend the study of the gun beyond the confines of military history and the examination of its impact on specific colonial encounters. By bringing cultural perspectives to bear on this most pervasive of technological artefacts, the contributors explore the densely interwoven relationships between firearms and broad processes of social change. In so doing, they contribute to a fuller understanding of some of the most significant consequences of British and American imperial expansions. Not the least original feature of the book is its global frame of reference. Bringing together historians of different periods and regions, *A Cultural History of Firearms in the Age of Empire* overcomes traditional compartmentalisations of historical knowledge and encourages the drawing of novel and illuminating comparisons across time and space. [The Nineteenth Century and After](#), 1924 **The Boer Fight for Freedom** Michael Davitt, 1902 1 folded map at end. Includes index.

Land of Progress Jacob Norris,2013-04-11 Histories of Palestine in the pre 1948 period usually assume the emergent Arab Zionist conflict to be the central axis around which all change revolves In Land of Progress Jacob Norris suggests an alternative historical vocabulary is needed to broaden our understanding of the region s recent past In particular for the architects of empire and their agents on the ground Palestine was conceived primarily within a developmental discourse that pervaded colonial practice from the turn of the twentieth century onwards A far cry from the post World War II focus on raising living standards colonial development in the early twentieth century was more interested in infrastructure and the exploitation of natural resources Land of Progress charts this process at work across both the Ottoman and British periods in Palestine focusing on two of the most salient but understudied sites of development anywhere in the colonial world the Dead Sea and Haifa Weaving the experiences of local individuals into a wider narrative of imperial expansion and anti colonial resistance Norris demonstrates the widespread excitement Palestine generated among those who saw themselves at the vanguard of progress and modernisation whether they were Ottoman or British Arab or Jewish Against this backdrop Norris traces the gradual erosion during the mandate period of the mixed style of development that had prevailed under the Ottoman Empire as the new British regime viewed Zionism as the sole motor of modernisation As a result the book s latter stages relate the extent to which colonial development became a central issue of contestation in the struggle for Palestine that unfolded in the 1930s and 40s

Information and Revolutions in Military Affairs Emily O. Goldman,2013-09-13 Like the industrial revolution before it the information technology revolution appears to be creating a new ruling class a new economy and a new society Information technology is also transforming military operations and warfare A vast literature on the revolution in military affairs or RMA cites the important indeed dominant role of information technology in enabling a new military revolution This volume challenges conventional wisdom not by claiming that information s impact on military operations is not positive or transformative but by claiming its impact is not new Previous periods of military revolution can also be characterized as information revolutions Through the close examination of six case studies of military transformation during the industrial age the contributors to this volume demonstrate how the employment of emerging information systems was critical to realizing a major boost in military effectiveness The most successful adaptations to the new environment were

made by the most skillful users of information This volume draws upon the expertise of leading military historians political scientists and defense practitioners to craft a set of original essays that provide the first retrospective examination of how information affects the process of military revolution This book was previously published as a special issue of the Journal of Strategic Studies
