Walker *Music Traditions, Cultures, and Contexts* Robin Elliott, Gordon E. Smith, 2010-04-19 *Music Traditions Cultures and Contexts* is a tribute to the ethnomusicologist Beverley Diamond in recognition of her outstanding scholarly accomplishments. The volume includes essays by leading ethnomusicologists and music scholars as well as a biographical introduction. The book's contributors engage many of the critical themes in Diamond's work including musical historiography, musical composition in historical and contemporary frameworks, performance in diverse contexts, gender issues, music and politics, and how music is nested in and relates to broader issues in society. The essays raise important themes about knowing and understanding musical traditions and music itself as an agent of social, cultural, and political change. *Music Traditions Cultures and Contexts* will appeal to music scholars and students as well as to a general audience interested in learning about how music functions as social process as well as sound.

Christian Congregational Music Monique Ingalls, Carolyn Landau, Tom Wagner, 2016-05-23 *Christian Congregational Music* explores the role of congregational music in Christian religious experience, examining how musicians and worshippers perform, identify with, and experience belief through musical praxis. Contributors from a broad range of fields including music studies, theology, literature, and cultural anthropology present interdisciplinary perspectives on a variety of congregational musical styles from African American gospel music to evangelical praise and worship music to Mennonite hymnody within contemporary Europe and North America. In addressing the themes of performance, identity, and experience, the volume explores several topics of interest to a broader humanities and social sciences readership, including the influence of globalization and mass mediation on congregational music style and performance, the use of congregational music to shape multifaceted identities, the role of mass-mediated congregational music in shaping transnational communities, and the function of music in embodying and imparting religious belief and knowledge. In demonstrating the complex relationship between traditional and contemporary sounds and local and global identifications within the practice of congregational music, the plurality of approaches represented in this book, as well as the range of musical repertoires explored, aims to serve as a model for future congregational music scholarship.
