McNulty,2019-05-14 People are increasingly unhappy with their governments in democracies around the world In countries as diverse as India Ecuador and Uganda governments are responding to frustrations by mandating greater citizen participation at the local and state level Officials embrace participatory reforms believing that citizen councils and committees lead to improved accountability and more informed communities Yet there s been little research on the efficacy of these efforts to improve democracy despite an explosion in their popularity since the mid 1980s *Democracy from Above* tests the hypothesis that top down reforms strengthen democracies and evaluates the conditions that affect their success Stephanie L McNulty addresses the global context of participatory reforms in developing nations She observes and interprets what happens after greater citizen involvement is mandated in seventeen countries with close case studies of Guatemala Bolivia and Peru The first cross national comparison on this issue *Democracy from Above* explores whether the reforms effectively redress the persistent problems of discrimination elite capture clientelism and corruption in the countries that adopt them As officials and reformers around the world and at every level of government look to strengthen citizen involvement and confidence in the political process McNulty provides a clear understanding of the possibilities and limitations of nationally mandated participatory reforms

The Democrats Must Lead James MacGregor Burns,William J Crotty,Lois Lovelace Duke,Lawrence D Longley,2019-07-11 All over the world political parties are being born and political pluralism is being fostered Ironically here in the United States the parties are blurring together ideologically and the political process is suffering One of the messages of this book is that a vital two party system is essential to America s political health The last thing this country needs the authors argue is two Republican parties At this critical moment in history the Democratic party has the opportunity to offer the nation a real political choice a sense of direction and a program to address the needs of Americans in a changing world It is time they say for a change a change that only the Democrats can provide As recounted here a generation of Republican administrations have had their chance The results have not been happy deepening social divisions heightened inequalities in income distribution a decaying educational system environmental exploitation an insensitivity to the concerns of the less powerful the largest public debt in history and a foreign policy based on force Recurring constitutional crises have also erupted as epitomized by the Iran Contra affair The record is a sorry one Alternatives exist and the best ones rest with the Democratic party The Democrats must lead It is their responsibility to offer a new vision of the future and the means for achieving it to provide a program that is compassionate just and inclusive of all The politics of greed exploitation self promotion and militarism must be put behind us Such are the themes of this extraordinary book Leading academicians each an expert in his or her area emphasize the need for new leadership propose contributions that a progressive Democratic party could make and suggest what this party should stand for as well as how it can win in 1992 They urge the Democrats to be both brave and

principled brave in defying the conventional wisdom that Democrats must be moderate to win and principled in sticking to progressive ideals The book provides analysis of such areas as the political impact of an issue oriented liberal party the campaign and media choices required to get a progressive message across the role and concerns of women blacks Hispanics and other 262 underrepresented groups electoral and legislative strategies for success and the substance of what a progressive policy agenda should contain Challenging and thought provoking these essays will help reshape political thinking during this critical period in the nation's history Their objective is creation of a society that represents and responds to human needs and the authors indicate the way to achieve these goals through an invigorated forward looking Democratic party
