

A person wearing a cowboy hat and a long-sleeved shirt is riding a dark horse. The scene is set against a bright sunset or sunrise, with the sun low on the horizon, creating a strong silhouette effect. The rider is looking down and to the left. The horse is in motion, and the rider's legs are visible. The background shows a hilly landscape with a fence line and a wind turbine in the distance.

### **Record of the Services of Illinois Soldiers in the Black Hawk War 1831-32, and in the Mexican War, 1846-8**

Anonymous, 2024-04-10 Reprint of the original first published in 1813 Montana Geographic Names Geological Survey (U.S.). Hickey, 2010-01-20 Are finders keepers This most simple of questions has long evaded a satisfactory legal answer Generally it seems to have been accepted that a finder acquires a property right in the object of her find and can protect it from subsequent interference but even this turns out to be the baldest statement of principle resting on obscure and confused authority This first full length treatment of finders sets them in their legal historical context and discovers a fascinating area of law lying at the crossroads of crime obligations and property That on the same facts a finder might be thief bailee and or property right holder has clouded our conceptual analysis and prevented us from stating simply our rules about finding Nonetheless when the applicable doctrines and policies of our property law particularly the central concept of possession are explored and understood in the light of countervailing rules of crime and tort we can argue confidently that despite centuries of doubt and confusion English law has succeeded in producing a body of law that is theoretically and practically coherent Property and the Law of Finders makes this argument and will appeal to anyone specifically interested in the law of personal property and also to those with broader concerns about the evolution of common law concepts and their ability to yield

sep 1 2021 in this paper a novel wideband hexagonal cavity backed slot antenna array waveguide siw is proposed first a single element low profile wideband linearly polarized cavity backed antenna using two slots is designed and analyzed the antenna bandwidth is increased by nrws which makes both hybrid modes of tm input impedance keywords

*a high performance siw slot antenna array for mmwave radar* - May 17 2023

jul 24 2023 the feed network of the antenna is composed of an air filled rectangular waveguide rwg to substrate integrated waveguide siw transition and a power division feed network finally the array element and the feed network are combined to form an 8 times 16 slot array the overall simulation design is carried out in hfss
