History of Africa South of the Zambesi from the Settlement of the Portuguese at Sofala in September 1505 to the Conquest of the Cape Colony by the British in September 1795 George McCall Theal, 1922 Portable Roots Jeanne Stevenson-Moessner, 2014-06-19 Bicultural individuals often articulate the themes of rootlessness identity formation cultural dissolution and home and reframe them into theological questions Bicultural individuals who have spent their formative childhood years living in and interacting with two or more cultures can be found in immigrant refugee transnational missionary borderland and hybrid communities This book challenges the traditional understanding of human development In particular Portable Roots Transplanting the Bicultural Child underscores the contextual and religious nature of development By focusing on identity formation in children and adolescents who have grown up in more than one culture the parameters of stage theorists such as Erik Erikson are expanded Three samples of children of missionaries formed the initial research population The children were raised in boarding schools mission schools and international schools settings which have been likened to a hybrid or third culture or interstitial space These original three samples first articulated a phenomenon of rootlessness that sent the author on an investigative journey spanning three decades After interviewing many persons with portable roots the study's last sampling in Princeton New Jersey in 2012 articulated what was needed for the end of this quest how transplanted roots thrive in terra firma *A Pictorial History of Political Events Connected with South Africa, 1899-1900* Sir Francis Carruthers Gould, 1900 **Eclipsing the West** Vince Cable, 2025-09-16 As the international order begins to crumble this incisive book asks what the rise of the Asian superstates means for the future The Western dominated world we have known for the past three hundred years is coming to an end As America withdraws from its role as enforcer of the international order other countries are moving in to fill the void Among them are two rising Asian superstates Accounting for more than a third of the world's population China and India have the potential to wield enormous economic and political power China is already vying with the US for the top spot in the global economy and on some measures has

surpassed it By the middle of the century India may be number two How will these countries navigate their growing roles on the world stage What are the implications for commerce international law and the fight against climate change Vince Cable has followed China and India for decades first as a professional economist and later as a senior government minister In *Eclipsing the West* he draws on the latest data and a lifetime of political and economic experience to offer a compelling account of what the rise of the Asian superstates means for the future
