Tesla was considered an eccentric who talked of death rays that could destroy 10 000 aeroplanes at a distance of 250 miles claimed to be able to split the Earth in two believed that both voice and image could be transmitted through the air in the late 1800 s and developed a science that could lead to free energy antigravity and possibly weather modification Now for the first time Nikola Tesla s secret writings have been finally brought together in one fantastic book Much of these notes have been withheld by the governments of the United States and Russia for fear that their secret Black Project weapons and exotic science experiments would be discovered But some notes have managed to slip out along with recent writings on projects based on Tesla science Death rays antigravity aircraft free energy time travel and teleporatation are just a few of the amazing secrets revealed at last

and 20th Century experiments To say that there are other black budget projects involving Tesla based research would vastly underestimate the total amount of research and development being conducted right now by many countries worldwide And these are the projects that we know about Who knows how many deep dark secret projects are being conducted right now with science that could be decades even hundreds of years beyond what civilian science knows about today This work exposes such topics as Reverse Gravity Free Energy Contact With Hidden Dimensions Mysterious Radio Signals From Space Earth Changes Freak Weather Patterns Electric Death Rays UFOs Particle Beam Weapons and much much more
