Facultatea de Limbi i Literaturi Str ine 2010 2017 *Postmodernity in Latin America* Santiago Colás,1994-11-07
Postmodernity in Latin America contests the prevailing understanding of the relationship between postmodernity and Latin America by focusing on recent developments in Latin American and particularly Argentine political and literary culture While European and North American theorists of postmodernity generally view Latin American fiction without regard for its political and cultural context Latin Americanists often either uncritically apply the concept of postmodernity to Latin American literature and society or reject it in an equally uncritical fashion The result has been both a limited understanding of the literature and an impoverished notion of postmodernity Santiago Col s challenges both of these approaches and corrects their consequent distortions by locating Argentine postmodernity in the cultural dynamics of resistance as it operates within and against local expressions of late capitalism Focusing on literature Col s uses Julio Cort zar s Hopscotch to characterize modernity for Latin America as a whole Manuel Puig s Kiss of the Spider Woman to identify the transition to a more localized postmodernity and Ricardo Piglia s Artificial Respiration to exemplify the cultural coordinates of postmodernity in Argentina Informed by the cycle of political transformation beginning with the Cuban Revolution including its effects on Peronism to the period of dictatorship and finally to redemocratization Col s s examination of this literary progression leads to the reconstruction of three significant moments in the history of Argentina His analysis provokes both a revised understanding of that history and the recognition that multiple meanings of postmodernity must be understood in ways that incorporate the complexity of regional differences Offering a new voice in the debate over postmodernity one that challenges that debate s leading thinkers Postmodernity in Latin America will be of particular interest to students of Latin American literature and to scholars in all disciplines concerned with theories of the postmodern *Postmodernist Fiction* Brian McHale,2003-09-02 In this trenchant and lively study Brian McHale undertakes to construct a version of postmodernist fiction which encompasses forms as wide ranging as North American metafiction Latin American magic realism the French New New Novel concrete prose and science fiction Considering a variety of theoretical approaches including those of Ingarden Eco Dolezel Pavel and Hrushovski McHale shows that the common denominator is postmodernist fiction s ability to thrust its own ontological status into the foreground and to raise questions about the world or worlds in which we live Exploiting various theoretical approaches to literary ontology those of Ingarden Eco Dolezel Pavel Hrushovski and others and ranging widely over contemporary world literature McHale assembles a comprehensive repertoire of postmodernist fiction s strategies of world making and unmaking **American Machinist** ,1906 **The Facts on File Companion to the World**

planning art and architecture photography and film in relation to the metropolis Drawing from the Getty Research Institute's vast collection of books prints and photographs from this period largely unpublished until now this volume reveals the cities changes through urban panoramas plans depicting new neighborhoods and photographs of novel transportation systems public amenities civic spaces and more It illustrates the transformation of colonial cities into the monumental modern metropolises that by the end of the 1920s provided fertile ground for the emergence of today's Latin American megalopolis

Blocker-Adams,2010-10-04 The level of venom the intensity and frequency of the readers rants in the daily newspaper compelled the publication's news reporter to call me for an interview Some of the language in the rants was so graphic they were unsuitable for print he said Wow They were talking about me Have you ever felt like you've been hit by a brick or punched in the stomach Well that is how I felt at that particular moment when he shared the comment with me In spite of the graphic description that some people had of me it's important to stay true to who you are I've lived my life being optimistic and positive building bridges nurturing relationships working with diverse groups of people serving others communicating and providing effective and proven leadership oftentimes under duress uncertainty limited resources and being misunderstood This book will show you how I did it and how you can overcome negative publicity adversity challenges and develop leadership skills that will impact your life and others for years to come Jungle Fever Charlotte Rogers,2012 The

sinister jungle that ill defined and amorphous place where civilization has no foothold and survival is always in doubt is the terrifying setting for countless works of the imagination Films like Apocalypse Now television shows like Lost and of course stories like Heart of Darkness all pursue the essential question of why the unknown world terrifies adventurer and spectator alike In *Jungle Fever* Charlotte Rogers goes deep into five books that first defined the jungle as a violent and maddening place The reader finds urban explorers venturing into the wilderness encountering and living among the native inhabitants and eventually losing their minds The canonical works of authors such as Joseph Conrad Andre Malraux Jose Eustasio Rivera and others present jungles and wildernesses as fundamentally corrupting and dangerous Rogers explores how the methods these authors use to communicate the physical and psychological maladies that afflict their characters evolved symbiotically with modern medicine While the wilderness challenges Conrad s and Malraux s European travelers to question their civility and mental stability Latin American authors such as Alejo Carpentier deftly turn pseudoscientific theories into their greatest asset as their characters transform madness into an essential creative spark Ultimately *Jungle Fever* suggests that the greatest horror of the jungle is the unknown regions of the character s own mind *Infertilities* Robin Truth Goodman, 2001

Locating points of conjunction between queer feminist and postcolonial theories *Infertilities* points to the role of lesbian representation and reproductive politics in ongoing critiques of globalism BOOK JACKET
