Tomorrow Never Knows Nicholas Knowles Bromell, 2002-04-15 Tomorrow Never Knows takes us back to the primal scene of the 1960s and asks what happened when young people got high and listened to rock as if it really mattered as if it offered meaning and sustenance not just escape and entertainment What did young people hear in the music of Dylan Hendrix or the Beatles Bromell's pursuit of these questions radically revises our understanding of rock psychedelics and their relation to the politics of the 60s exploring the period's controversial legacy and the reasons why being experienced has been an essential part of American youth culture to the present day Ronald P. Grelsamer, 2010-09-01 Into the Sky With Diamonds captures the excitement of the 1960s as it recounts the history of the Beatles and the U S Soviet Race to the Moon Beatle and Apollo Space enthusiasts old and new will discover riveting behind the scenes anecdotes while the not yet enthused discover what they've been missing Join fictional NASA communication specialist Dutch Richtman and the very real Beatle roadie Mal Evans as they navigate the turbulence of the American Space program and the eye popping ride of the Beatles Roll up for the tour **The Cambridge Companion to the Beatles** Kenneth Womack, 2009-11-12 From Please Please Me to Abbey Road the fascinating story of the Fab Four's creation works and enduring musical legacy **A Women's History of the Beatles** Christine Feldman-Barrett, 2021-01-28 Winner of the 2022 Open Publication Prize by the International Association for the Study of Popular Music IASPM ANZ A Women's History of the Beatles is the first book to offer a detailed presentation of the band's social and cultural impact as understood through the experiences and lives of women Drawing on a mix of interviews archival research textual analysis and autoethnography this scholarly work depicts how the Beatles have profoundly shaped and enriched the lives of women while also reexamining key influential female figures within the group's history Organized topically based on key themes important to the Beatles story each chapter uncovers the varied and multifaceted relationships women have had with the band whether face to face and intimately or parasocially through mediated popular culture Set within a socio historical context that charts changing gender norms since the early 1960s these narratives consider how the Beatles have affected women's lives across three

The Beatles, Sgt. Pepper, and the Summer of Love Kenneth Womack, Kathryn B. Cox, 2017-07-03 For the Beatles 1967 marks a signal crossroads that would both transform the group s career and place them on a trajectory towards their eventual disbandment It was a year in which they exploded prevailing rock music demographics through the global onslaught and international success of Sgt Pepper s Lonely Hearts Club Band beginning in June 1967 Yet it was also a period that saw them in a precarious state of flux throughout the summer and fall months as the band attempted to recapture their artistic direction in the wake of Sgt Pepper and the untimely death of manager Brian Epstein The Beatles Sgt Pepper and the Summer of Love draws readers into that pivotal year in the life of the band For the Fab Four 1967 would see the band members part ways with psychedelia and the avant garde through the trials and tribulations of the Magical Mystery Tour a project that resulted in a series of classic recordings while at the same time revealing the bandmates aesthetic vulnerabilities and failings as would be filmmakers and auteurs

But is it Garbage? Steven L. Hamelman, 2004 Trash has been blowing across the rock n roll landscape since the first amplified guitar riff tore through American mass culture Throwaway tunes wasted fans crappy reviews junk bins of remaindered albums much of rock s quintessence is handily conveyed in terms of disposability and impermanence Steven L Hamelman sums up these rubbishy affinities as rock s trash trope Trash is an obvious physical presence on the rock scene think of Woodstock s littered pastures or the many hotel rooms redecorated by the Who More intriguingly Hamelman says trash is the catalyst for a powerful mode of rock composition and criticism It is for instance both cause and effect when performers like the Ramones or Beck at once critique junk culture and revel in it But Is It Garbage spills over with challenging insights into how rock s creators critics and consumers transform and are transformed by trash as a fact and a concept In the music s preoccupation with its own trashiness readers will perceive a wellspring of rock innovation and inspiration one largely overlooked and little understood until now
